SECURITY SYSTEMS SERVICES CONTRACT
MONTHLY EVALUATION CRITERIA

Month: _____
Vendor Name: _____
Address: _____
Date of Evaluation: _____ `
Evaluator(s): _____

1. SERVICE CALL/REPORTING
    a. Vendor always on time
    b. Vendor was usually on time
    c. Vendor was sometimes on time
    d. Vendor was never on time

2. WORKMANSHIP QUALITY
    a. Vendor's workmanship always performed as expected
    b. Vendor's workmanship usually performed as expected
    c. Vendor's workmanship never performed as expected
    d. Vendor's workmanship had to be replaced

3. SERVICE COMPLETION
    a. Vendor's service always performed as expected
    b. Vendor's service usually performed as expected
    c. Vendor's service sometimes performed as expected
    d. Vendor's service never performed as expected

4. INVOICING
    a. Vendor always invoiced correctly and on time
    b. Vendor usually invoiced correctly and on time
    c. Vendor sometimes invoiced correctly and on time
    d. Vendor never invoiced correctly and on time

5. PROFESIONALISM
    a. Vendor was always professional
    b. Vendor was usually professional
    c. Vendor was sometimes professional
    d. Vendor was never professional

6. ACCESSIBILITY
    a. Vendor was always accessible
    b. Vendor was usually accessible
    c. Vendor was sometimes accessible
    d. Vendor was never accessible

7. CONTRACT COMPLIANCE
    a. Vendor was always compliant
    b. Vendor was usually compliant
    c. Vendor was sometimes compliant
    d. Vendor was never compliant

M-DCPS Security Systems Contract Guidelines

M-DCPS Security Systems Contract Guidelines

I. Purpose

The Contract Guideline is to assure the daily operations of the contracted services are directed for the improvement of the Miami Dade County Public Schools Security Camera Systems and associated integral service requirements.

II. Responsibilities / Procedures To Be Provided By Contracted Vendor

The Vendor must comply with all Miami-Dade County Public Schools, facilities' visitor procedures. During normal facility work hours, the Vendor **must always sign in and out in the office before proceeding with requested or required service.**

1. Preventive Maintenance System Monitoring - Purpose is to maintain equipment and system functionality in a satisfactory operating condition by providing regularly scheduled inspections and the necessary corrections of incipient failures as detected, and before developing into major defects.

1.1 Proactive Maintenance - the documented analysis of the overall health of the security camera system including but not limited to cameras, camera housings and brackets, video balums, cabling-infrastructure, terminations/connections, network equipment, VMS software, client stations, video recorders, monitors, data distributors, UPS, power supplies, power injectors, equipment racks – benches and any other related components.

1.2 Each camera's functionality shall be verified from camera to MDF. Requiring visual and operational inspections.

1.3 Each facility's IDF and MDF shall be verified of its functionality requiring;

- Physical inspections; room condition, equipment condition and secureness.
- Electrical inspections; surge suppression, grounding, excessive outlet usage, etc.
- Electronic inspections; device functionality

2. Facility Inspections - Quarterly inspections are to be conducted to determine system functionality. Each facility will have a system check list to be verified by the contract vendor.

2.1 Quarterly Inspections include but not limited to;

2.1.1 Camera functionality;

- Physical integrity
- Camera Name/labeling
- Video quality
- Camera position and focus
- Camera control
- Pattern and preset verification
- Total camera count verification

2.1.2 Uninterrupted Power Supply (UPS) load test
2.1.3 Remote access (network client functionality)
2.1.4 MDF/IDF functionality

2.1.5 System DVR/s, NVR/s, and or Video Servers type and functionality
2.1.6 Recording and playback functions
2.1.7 System Monitoring Reporting;

2.2 Facility System Check reports will provide a snap shot of the overall District failures and corrections standings, indicating the percentage of working cameras per facility. When requested system photos of replaced and or repaired equipment and of MDF/IDF status will be provided by the vendor.

2.3 Each facility will be listed separately and tracked for performance
[Refer to contract 6.7 Invoicing}

3. Maintenance

3.1 All required labor, materials and equipment specified for retaining and or the restoring of security camera systems specified on the contract. Repairs generated from inspection reports, Administrative directives, Building Security Systems facility service request, vandalism, hazards, emergencies and Miami Dade County Public Schools Police Department.

3.2 Troubleshooting and Diagnostic Procedures will consist of systematic search for the source of each system failure or problem reducing reoccurrence. The necessary progressive steps to properly identify each service request or required maintenance shall be logged for each service item. The troubleshooting log shall be provided by the vendor and approved by M-DCPS BSS (Building Security Systems Department).

3.3 Service Request (s) - The issuing of service requests are not limited to the following forms of communication; electronic mail, telephone, cellular phone, text message, or verbally. All service requests shall be verified via e-mail or in writing provided by M-DCPS BSS. Contractual timelines will start with the receipt of a service request from M-DCPS by electronic mail. All service request responses shall have itemized reported issues that are inclusive to the completion of each service request.

3.3.1 Each service request shall identify the facility and the itemized failure report.
Details of each line item will be provided by M-DCPS BSS.

3.3.2 All service request and site visits must be signed by site administrator before leaving the facility.

3.4 Service Request(s) - Management must comply with contractual times with regard to response and completion. Response time and completion shall be logged for each request and archived for performance review. ***[refer to contract 6.1 Project Conditions D. Requested Services]***

4. Additional Services

4.1 Any service required outside of maintenance service shall be deemed as (Additional Services) ***(refer to contract (6.1.4 DEFINITIONS – BB. Additional Service), (6.2.1 A Additional Services)]***

4.2 Migration Or Upgrade To An IP Based System.
[Refer to contract 6.2.1 Additional Services A.2.b. Miscellaneous Equipment and/or Material Not In Contract (N.I.C.).

4.2.1 Facility IP Migration to partially integrate the security camera system to an IP platform. The IP migration will be triggered by a major system failure or any single Digital Video Recorder failure.

4.2.1.1 When M-DCPS chooses to initiate system migration to an IP based platform the following procedures will apply to the contract.

4.2.1.1.2 Replacement equipment may be provided by M-DCPS including but not limited to; Network Video Recorders, network modules or material, encoders, digital cameras, Video Management Software (VMS), and UPS power source.

4.2.1.1.3 If any additional equipment is required the determination of such equipment is also the responsibility of the contracted vendor. The need of additional equipment will be reviewed by M-DCPS BSS Department and will be supplied upon approval.

4.2.1.2 All supplied equipment shall be installed, terminated and programed by the contracted vendor at no additional cost to M-DCPS. (Note: the required labor for setup and programing will be offset by the cost of equipment not furnished by vendor)

4.2.1.3 The contracted vendor shall be totally responsible to maintain a migrated system once the initial installation is complete and accepted. Using manufacturer's warranty for replacement of equipment is expected, if applicable.

4.2.1.4 If M-DCPS chooses to have inoperative camera(s) replaced on a migrated system (Hybrid Platform) with digital cameras, the contracted vendor shall replace with the specified IP camera and M-DCPS will be charged the additional cost of the camera(s) and any additional required equipment. ***[Refer to contract 6.2.1 Additional Services]***

4.3 System IP Upgrade to transition a facility to an IP base platform.

4.3.1 M-DCPS reserves the right to upgrade any security camera system to an IP platform that is currently under this maintenance contract.

4.3.1.1 Upgraded equipment may be provided by M-DCPS and the required equipment installation may be used through the contract. Labor rates for additional services will be used for the installation of any system upgrade. Procurement of equipment and materials may also be requested
[Refer to contract **Refer to contract 6.2.1 Additional Services A.2.b. Miscellaneous Equipment and/or Material Not In Contract (N.I.C.).**

4.4 Add/Move/Change

4.4.1 M-DCPS may request the installation of additional security components including, but not limited to, cameras, brackets, cabling, conduit and infrastructure, system modules, recorders and network devices. ***[Refer to contract 6.2.1}***

4.4.2 M-DCPS may request the relocation of security components including, but not limited to, cameras, brackets, cabling, conduit and infrastructure, system modules, recorders and network devices. ***[Refer to contract 6.2.1.]***

4.4.3 M-DCPS may request for a specific change in a previously authorized security component/s due to the following, but not limited to, device suitability for its location, device functionality, system compatibility, or industry standards.

4.5 Repetitive Malicious Mischief

Repetitive malicious mischief is defined as vandalism occurring repetitively for the same item within a specified time period. Repetitive malicious mischief will be considered as additional service for equipment replacement only.

4.5.1 Once vandalism is deemed repetitive malicious mischief, M-DCPS will agree to review for approval of submitted labor cost estimates for the repair(s).

4.5.2 M-DCPS reserves the right to supply or procure the necessary required equipment.

4.5.3 All associated labor caused by the determination of repetitive malicious mischief is covered under Basic Services.

4.5.4 All vandalized equipment or materials will be returned to M-DCPS for disposal.

5. Emergency Response - the response to a service request due to a critical nature deemed by M-DCPS. This request shall have a response time of less than 2 hours.

5.1. Initiation of Emergency Response Request

M-DCPS BSS administration will approve and or request emergency service during business hours. After hour requests may be generated and approved by School's Facility Office, FOM, MDSPD, DCOM, Schools Operation, or Region Office Administration.

5.2 Contact Procedures

5.2.1 The 24 hour provided contact number will be called during the need of an emergency request with the following details. Type of emergency services required the facilities location, administration/staff contact and municipality or M-DCPS Police department involvement.

5.2.2 Vendor's service technician will verify the receipt of the emergency requested and provide estimated time of arrival.

5.3 Required Equipment

5.3.1 The responding service technician shall be prepared to service the facility with the proper tools and replacement equipment and materials.

5.3.2 The responding service technician shall identify system; recording devices, client software, infrastructure, connecting devices and camera type prior to arriving at the facility needing the service.

5.4 Required Hours of Duration

5.4.1 Each emergency response will be handled through completion or designated stabilization point.

5.4.2 The administration from either Miami – Dade County Schools Police or Facilities Operation Maintenance will make the determination of completion of the emergency assignment, unless response is strictly task oriented.

5.4.3 Each emergency response will be handled separately and independently while maintaining contractual compliance.

5.5 Emergency Response Reports

5.5.1 After each emergency response a report will be generated by the vendor indicating the following;

- Time of dispatch
- Responsible service technician
- Time of arrival at the facility requiring service
- Summary of emergency service required
- A list of equipment and material used or required.
- System status
- Copy of transmittal if video clips are burned on CD, DVD or any other media.

5.5.2 All reports shall be forwarded to BSS department for review and discussed at the bi-weekly contract progress meetings.

5.5.3 An emergency response will not justify incompletion of an open service request of any non-compliance of contract.

6. Reporting

6.1 Daily reporting shall consist of updates to the existing Security Camera Systems "BSS Contractor Database" version 3.0.0, but not limited to. These updates will be used to monitor and track the efficiency of contracted services; ***(Database format and update procedures are subject to change)***

6.1.1 At the end of each work day the contracted vendor must provide a comprehensive summary of all work performed on issued Service Tickets;

- Previously scheduled
- Completed
  - Detail description of work performed
  - Equipment and supplies
- Pending completion
  - Detailed description of pending items
  - Expected completion dates with a plan of action
- None visited previously scheduled
- Video retrieval logs
  - Detailed log of video retrieved per facility
- Emergency response reports

6.2 At the end of each work day the contracted vendor shall provide the revised schedule for service repairs.

6.2.1 Non-completed and none visited service request shall be included in the revised schedule for the next business day.

6.2.2 Service request requiring reclassification as an emergency response or additional services must indicated and deemed by M-DCPS representative. These service requests will be rescheduled and handled according to the contract.

6.3 Quarterly Reporting shall be required on each 90 day interval dating from contract start date.
At the end of each quarter the contracted vendor must provide a comprehensive summary of all worked performed under of the contract. A total of:

- Preventive maintenance
- Completed and pending service request
- Service requests received
- Equipment required
- Bill of material per facility
- Emergency responses
- Additional services

6.4 Bi-Weekly Reporting meetings with the contracted vendor will be held at the Facilities Operations Maintenance (FOM) Building Security Systems Department (BSS). These meetings will provide contract compliance tracking.

6.4.1 At each bi-weekly meeting the contracted vendor must provide details of all work performed and daily reports submitted within the bi-week period.
[Refer to contract 6.1.6 Project Conditions B. Quality Assurance F. Reporting of Contract Activites.]
The details required for review of each service request will consist of, but are not limited to, response time, service request status, diagnostic trouble shooting, log review, replaced equipment, completion date and unforeseen issues.

7. Equipment

7.1 Specified equipment list is provided on the M-DCPS SCS Equipment listing.

7.1.1 Installation of new equipment ***[refer to contract 6.1.2 bidder Qualifications and Requirements J.].***

7.1.1.2 New equipment installations may require the associated new mounting hardware brackets and mounts.

7.1.1.3 All installed or replaced equipment must be preapproved and/or specified by M-DCPS BSS Department. Replaced equipment may require additional devices or materials to maintain system integrity with existing equipment. These devices may include but not limited to, camera, camera bracket and housing, protocol and data convertors, video modules, network devices, recording devices, fiber devices, wireless devices, power supplies, and any incidental infrastructure.

7.1.2 The use of refurbished or repaired equipment used for servicing the contract shall only originate from previously removed M-DCPS security camera systems. No used or refurbished equipment from any other source is allowed.

7.1.2.1 No item exceeding one year past manufacturer's warranty period may be eligible for repair or refurbishing without approval from M-DCPS BSS.

7.1.2.2 Warranty repaired equipment will require an update of the remaining or reestablished warranty period. The update shall be reported to M-DCPS BSS and archived on the facility equipment log.

7.1.2.3 During the warranty repair process all removed equipment must be substituted until repairs are complete and original equipment can be re-installed or replaced with new equipment. All substitute equipment must be in compliance with M-DCPS specifications and preapproved before installation. No unapproved equipment by M-DCPS will justify any delays on contractual compliance.

7.1.3 Removed equipment shall be tagged with corresponding service request and/or monthly inspection report. All removed equipment either to be discarded or deem repairable will be documented on the facility equipment log and the equipment type and associated serial number for each unit will be entered in the Maintenance Data Base.

7.1.3.1 An official M-DCPS Outgoing Controlled Equipment (OCE) form shall be completed by the contracted vendor and signed by the site administration prior to any equipment removal.

7.1.3.2 Removed equipment to be discarded must be returned to M-DCPS BSS Department for disposal. All returned equipment must have the associated OCE form, completed and signed.

7.1.3.3 Removed equipment deemed repairable shall also be documented on the OCE form. Repairable equipment shall be tracked for future equipment installations and auditing.

7.1.3.4 Removed equipment deemed unrepairable and to be used for spare parts shall be documented on the OCE form. The serial number shall not be used for installation and the discarded equipment must be returned to M-DCPS for disposal with a copy of the original OCE form

7.1.4 Replacement and Tracking – Vendor will be responsible for documenting and inputting in the Maintenance Data Base all information related to:

7.1.4.1 Equipment installed

7.1.4.1.1 New equipment – Facility, equipment type, make/model number, serial number and location of device.

7.1.4.1.2 Refurbished equipment – Facility, equipment type, make/model number, serial number, location of device and remaining warranty period if available.

7.1.4.1.3 Repairable equipment and or used for repair – Original facility, equipment type, make/model number, serial number and previous location of device.

7.1.5 Property Controlled Equipment

7.1.5.1 Shall never be removed by contracted vendor from any site. These items must be listed and reported to M-DCPS BSS.

7.1.5.2 On site repairs are acceptable if approved by M-DCPS BSS Department.

7.1.6 Warranty of equipment

7.1.6.1 All equipment having manufacture warranty shall be documented on the facility equipment log with the following details. Equipment type, manufacture and model number, serial number, location of device and warranty period.

7.1.6.2 All equipment requiring Return Material Authorization (RMA) will be initiated by the contracted vendor for shipment and return receipt. RMA numbers must be included in the daily reports.

[Refer to contract 6.1.6 - D. Requested Services -7.]

7.1.7 Truck stock is defined as the associated equipment and materials required for the repair and service of routine service request; ***[Refer to contract 6.1.4 Definitions Z.]***

7.1.7.1.1 Cameras TVI-Analogue/IP: PTZ, Multi Sensor, fixed, Brackets / housings, video baluns
7.1.7.1.2 Video Servers, Hard drives, network devices and modules
7.1.7.1.3 Monitors, UPS, batteries, power supplies
7.1.7.1.4 Cabling and connectors for all used: Coax, CAT5e, CAT6, and fiber.

8. Inspections / Audits

8.1 Site inspections - Vendor shall [Refer to contract, section 6.1.1 E. Inspection and Punchlist] M-DCPS reserves the right to conduct onsite inspections that will require vendor attendance. General inspection(s) may require 4 hours for completion. M-DCPS will provide the vendor with no less than 48 hours of notice.

8.1.1 General Inspections may include, but are not limited to, overall functionality of the system, verification of completed service request and workmanship.
8.1.2 General Inspections may include, but are not limited to, the inspection of equipment log books, Quarterly Inspection Reports and facility sign in / sign out sheets.
8.1.3 Requirements for inspections may include, but are not limited to, utilizing ladders, lifts, scaffolds, or any tools required to disassemble, remove or adjust any device on the system.
8.1.4 Still photos of prior and post repairs maybe used to view and record vendor's workmanship of installed equipment, and for documenting make / model / serial number(s).
8.1.5 Site Inspections will reflect Vendor's monthly evaluations

8.2 Site audits - The general purpose of an Audit Inspection is to verify system component installation as indicated on the associated service request and/or report(s) generated for the facility. Site Audits will be conducted at random and shall require the vendor attendance. An Audit(s) may require 4 hours for completion. M-DCPS will notify the vendor with a 48 hour notice.

8.2.1 Site audits may include, but are not limited to, the verification of equipment type, make/model number, serial number and location of device(s) installed.
8.2.2 Requirements for Site Audit may include, but are not limited to, utilizing ladders, lifts, scaffolds, or any tools required to disassemble, remove or adjust any device on the system.
8.2.3 Vendor shall assume all responsibility and cost to rectify any discrepancy found from the Audit Inspection.
8.2.4 In the event a discrepancy is revealed M-DCPS will require a written report from the vendor within 24 hours. The Audit report shall include, but not be limited to, explanation of discrepancy, steps and plan of actions to correct and prevent future discrepancy of like kind.
8.2.5 Responsible parties for any discrepancy are to be noted by the vendor and provided to M-DCPS.

8.2.6 If any discrepancy is found to be a direct result of ill will of an employee(s) of the contracted vendor, M-DCPS reserves the right to prohibit the fore mentioned vendor's employee(s) any continued involvement under the contract.
8.2.7 Audit inspection will reflect Vendor's monthly evaluations.
8.2.8 Any equipment / material used to maintain the integrity of our security systems under the terms of the contract belong to M-DCPS. Unauthorized removal or substitution will not be allowed.

8.3 Removed Equipment Audit - The general purpose of this semiannual audit is to verify equipment removed for repair.

8.3.1 Tracking of all equipment removed from year to date shall be audited at the end of the second and fourth quarter of each contractual period.

8.3.2 Removed Equipment Audit will reflect vendor's evaluation

9. Vandalism / Hazards ***(Refer to contract 6.1.6 D. Requested Services .4 Vandalism/Hazards.)***

9.1 Vandalism is covered under the basis of the contract. Defined as any item or system malfunction caused by any entity or any individual(s) whether intentional or non-intentional.

9.1.1 Vandalized equipment shall not be removed until all police reports and required documentation are completed by the facility's administration. (missing or stolen equipment will be considered vandalized)

9.1.2 All vandalized equipment discovered by the contracted vendor shall be reported to the facility's administration and to the M-DCPS BSS representative before removal or repair.

9.1.2 Hazards are covered under the basis of the contract and are defined as the result of any component or system malfunction caused by any means other than mankind.

9.1.2.1 During active hazards i.e. storms or acts of nature covering the metropolitan area, M-DCPS will allow a grace period for Vendor's stabilization before recommencing of the requirements within the contract. The grace period will depend upon the severity of the occurrence. M-DCPS will require communication from the vendor, and a return to work timeline will be established within a reasonable period.

9.1.2.2 Lightning or rain storms that causes failures will be treated as routine. Service tickets issued and repairs shall follow the contractual timelines.

9.1.2.3 Should a site(s) be deemed unrepairable they shall be removed from the contract until such site can be restored.

10. 1 Peak Periods - Due to factors resulting in the increase of service request, the contracted vendor must provide provisions in place to handle the additional amount of required maintenance during such

periods. Peak periods are to be anticipated and identified as, but not limited to, after school recesses, holidays, summer vacation period and rainy season.

11.1 Operation Optimization - during the course of this contract operational adjustments may be required. Any adjustments associated with optimizing the efficiency of this contract will be honored in good faith by both parties, M-DCPS and the contracted vendor.

L) Billing

L.1 Invoicing for billing period ***[Refer to contract 6.7 Invoicing]***

L.1.1 Invoice submittals will be processed only for facilities that are within contractual compliance.

L.1.1.2 Invoice submittals for facilities that are not within contractual compliance will result in a re-submittal of the entire current billing cycle. No submitted invoice shall be processed should this occur.

L.1.1.3 Partial invoicing is accepted for the billing cycle. When facilities are within contractual compliance, invoices can be submitted for processing.

L.1.2 Processing of submitted invoices.

L.1.2.1 Will take place immediately after receiving correctly submitted invoicing.

L.1.2.2 Will not be processed if any outstanding repairs or inspections exist.
