Sole Source Letter

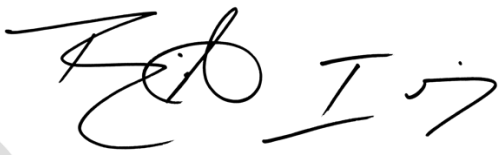
This letter is to provide notification that the Flying Classroom is the sole source provider of the Flying Classroom STEM+ Curriculum, Flying Classroom Engagement Activities, Flying Classroom STEM+ Professional Learning, and Flying Classroom STEM+ Specialized Programs (including academic day, virtual instruction, after-school, and summer enrichment programs). Flying Classroom obtains copyright ownership of the Flying Classroom K-12 STEM+ curriculum, Flying Classroom Engagement Activities, Flying Classroom STEM+ Professional Learning, and Flying Classroom STEM+ Specialized Programs (including academic day, virtual instruction, after-school, and summer enrichment programs).

Based on my global explorations, the Flying Classroom provides virtual trips to locations across the globe where my team and I investigate STEM concepts. During these adventures, we investigate problems plaguing the area, or a featured science concept, and then students are challenged to innovate a uniquely engineered design to assist us with solving the problem. The Flying Classroom promotes critical thinking, collaboration, communication and creativity while promoting problem solving skills through project-based learning.

Each expedition combined with correlated curriculum is identified, planned, created and authored by the Flying Classroom team. We are the sole organization and provider of the expeditions and tailored curriculum content available based on my global adventures and within the Flying Classroom on-line platform.

Please feel free to contact us for questions or additional documentation.

Blue Skies,



Captain Barrington Irving
CEO and Founder of the Flying Classroom
