

MEMORANDUM

November 16, 2000

TO: Mr. Clifton Lewis, Principal
Miami Skill Center

FROM: Clifford Andean, Coordinator
Department of Asbestos Management

SUBJECT: ASBESTOS PERIODIC SURVEILLANCE REPORT

Attached you will find a copy of the periodic surveillance report for Asbestos-Containing Building Materials (ACBM) located in your facility. The surveillance was recently performed by Department of Asbestos Management personnel. Federal law requires that Miami-Dade County Public Schools perform a periodic surveillance for ACBM at least once every six months for each facility that it leases, owns or rents. During the periodic surveillance, Department of Asbestos Management personnel visually inspected all areas in your facility that were previously identified as containing asbestos or assumed to contain asbestos. Changes in the condition of the asbestos from the previous inspection, if any, are noted in the report. All areas identified as containing ACBM are now listed by FISH building and room number. Please review the report and file the report in your facility Asbestos File/Management Plan, under Section III - "Inspections after 12/14/87".

The facility Asbestos File/Management Plan should be made available for inspection, without cost or restriction, to representatives of the Environmental Protection Agency and the State, the public, including parents, teachers and other school personnel.

If you should have any questions concerning the results of the periodic surveillance, please feel free to contact me at 995-4595.
