

**ADDENDUM NO. 1
TO
REQUEST FOR PROPOSAL FOR
ENTERPRISE RESOURCE PLANNING SOFTWARE (ERP)**

**RFP NUMBER: 102-FF04
FOR
THE SCHOOL BOARD OF MIAMI-DADE COUNTY, FLORIDA**

PURPOSE OF ADDENDUM

1. This Addendum has been prepared to provide responses to questions submitted to the District
2. Opening date has been changed to May 31, 2006
3. Pages 1, 2, 5, 16, 21, 22, 23 have been replaced
4. Response to Questions received
5. New SOFTWARE FUNCTIONALITY Excel spreadsheet has been posted pages 24 through 248.

If additional addenda are issued to this RFP, a good faith attempt will be made to deliver a copy of each to those persons or firms who, according to the records of Procurement Management Services, have previously received a copy of this RFP. However, prior to submitting the proposal, it shall be the responsibility of each Proposer to check the website at <http://procurement.dadeschools.net/bidsol.htm> to determine if additional addenda were issued and, if so, to obtain such addenda for attachment to the proposal.

- IX. Section 4 – Pricing – Please provide pricing in format requested. Additional pricing proposals may be submitted but proposers must submit at a minimum in the format requested.

The District intends to limit its evaluation to financially stable vendors with an established market position and experience providing ERP software to K-12 public school districts comparable to the District.

Only Respondents meeting the following minimum criteria will be evaluated:

1. Annual Revenues exceeding \$100 million for the most recent audited fiscal year.
2. Current Market Capitalization exceeding \$350 million.
3. At least one successful Human Resource Management and Financial Management implementation for a K-12 public education customer in the United States with over 75,000 students and over 10,000 employees.

III. CHANGE OR WITHDRAWAL OF PROPOSAL

- A. PRIOR TO PROPOSAL OPENING. Should the vendor withdraw its proposal, they shall do so in writing. This communication is to be received by the Assistant Superintendent, Procurement Management Services, 1450 N.E. 2nd Avenue, prior to the opening of the proposals. The vendor's name and the proposal number should appear on the envelope.
- B. AFTER PROPOSAL OPENING. After **May 31, 2006**, proposals may not be changed; and they may not be withdrawn for one hundred twenty (120) days from that date.

IV. PROTEST TO CONTRACT SOLICITATION OR AWARD

- A. The Board shall provide notice of a decision or intended decision concerning a solicitation, contract award, or exceptional purchase by electronic posting. This notice shall contain the following statement:

“Failure to file a protest within the time prescribed in Section 120.57(3), Florida Statutes, shall constitute a waiver of proceedings under Chapter 120, Florida

to information to/from the data warehouse.

7. M-DCPS is in the process of finalizing a portal strategy.

- a. Please describe interoperability to various portal technologies including support for Active Directory Services (ADS), ADS Security Groups, ADS Group Policies, Services Oriented Architecture (SOA) and object portability.
- b. Please describe the underlying technology, which the system is built upon.
- c. Have you implemented the proposed software modules in a portal environment?

8. What are the platform minimum (hardware and operating system) client workstation requirements with regard to each of the bulleted items below?

- a. Client Workstation
- b. Minimum hard-drive size required
- c. Minimum RAM memory required
- d. Minimum processor speed required
- e. What Operating System is required

C. Software Requirements

1. Describe all 3rd Party Plug-Ins or Add-Ons and indicate how technical integration is achieved. How is compatibility and certification maintained for new releases/upgrades?
2. Any 3rd party products required or recommended at implementation (i.e. reporting, administration, management products and version control)

D. Standards and Technology

1. Identify developmental components, languages used, run-time modules, 'hard-coded' control or reference tables, etc.
2. How many languages does your product support?
3. Provide methodology on data conversion from existing systems, as well as descriptions of conversion utilities/tools that would be recommended.

E. Data Transfer

Does your application easily import and export files? What common formats does your software support? Please explain.

F. Security

1. Describe solution's security/authentication schema, including password authentication disabling, global/ individual setting, number of security levels, centralized/remotely administration, and 3rd party vendor security administration, if any.

Pricing for Professional Services

Listed below is the pricing matrix for services. Please address the type of professional implementation services provided and their respective hourly rate.

Services Costs

<u>Type of Staff</u>	<u>Hourly Rate</u>
Ex. Project Manager	
Ex .Senior Consultant	

Comments

XVIII. LIVE DEMONSTRATIONS

Selected Proposer(s) will be required, **AT NO CHARGE to M-DCPS**, to provide a live demonstration of their ERP software. Selected Proposer(s) must be available for such demonstration between June 19, 2006 and June 28, 2006 at an M-DCPS administration building.

Technical evaluation sub-committees will be in attendance to verify and pose questions to the Selected Proposer(s). Demonstration results will be reported to the Selection Committee for evaluation purposes.

Details on the requirements for the demonstration will be available on the M-DCPS Procurement website by June 1, 2006. Proposer(s) selected to conduct a live presentation will be notified on June 12, 2006.

XIX. TERMS OF CONTRACT

The purpose of the proposal is to establish a contract(s) at firm unit prices for the items listed from date of award until time of installation of each module. All prices shall be firm for perpetual, concurrent licenses. The successful proposer(s) agrees to this condition by signing its proposal.

Maintenance and Support Fees after the expiration of the initial warranty period shall be priced at a firm fixed fee schedule for six (6) years. Over the 6-year period maintenance and support fees shall not increase more than the CPI or 5%, whichever is lower.

If selected, the proposer(s) shall agree to hold harmless, indemnify and defend the indemnities, as hereinafter defined, against any claim, action, loss, damage, injury, liability, cost or expense of whatsoever kind or nature including, but not by way of limitation, attorney's fees and court costs arising out of bodily injury or damage to tangible property arising out of or incidental to the performance of the services of this Request for Proposals by or on behalf of the proposer, excluding only the sole negligence or culpability in the indemnities. The following shall be deemed to the indemnities: The School Board of Miami-Dade County, Florida and its members, officers and employees.

The School Board of Miami-Dade County, Florida, reserves the right to terminate any contract resulting from this proposal in the event that the service rendered does not comply with the provisions of the proposal and/or is not satisfactory and proper, as determined by the School Board.

XX. EVALUATION OF PROPOSALS

Proposals will be reviewed and evaluated by a selection committee, on the basis of qualifications, and evaluation criteria as set forth in the RFP. Proposals deemed to meet the Districts needs will be moved forward for further consideration. Proposals moved for further consideration will be requested to provide a live-demonstration of the product at a committee meeting. Details on the requirements for the demonstration will be available on the M-DCPS Procurement website by June 1, 2006. The School Board may also visit installed sites listed as references to view the product in a normal work-environment.

Evaluation consideration will include the following specific criteria:

- Proposer(s)'s ability to provide items specified in the RFP;
- Live demonstration of their product
- Site visits or conference calls with references, if required
- Overall support services provided by the proposer(s), Detailed descriptions of the company's plan to support the implementation of this program for M-DCPS;
- Software price;
- Ability to accommodate M-DCPS district volume (schools, students, vendors, and employees)
- Ability to prevent unauthorized access to sensitive data through role based security and/or encryption schemes;
- Software maintenance costs and associated multi-year caps;
- Required additional hardware/software costs if any;
- Training costs;

The school district reserves the right to reject any and all proposals submitted. The School Board is not obligated to place any order for any services subsequent to the award of this proposal. The information contained in this proposal is supplied as an aid to the proposer in determining whether it will be able to supply the product and/or services that may be required by the School Board.

If a final selection is made, contract to purchase hardware, software and/or services, statements of work, and/or an agreement for pilot program, acceptable to the Attorney for the School Board, may be entered into with successful proposer(s). No debriefing or discussion will be held with unsuccessful proposer(s).

The selection committee will consist of the following or their designees:

Ofelia San Pedro, Deputy Superintendent, Business Operations
Martin A. Berkowitz, Chief Financial Officer
Maria Vidal, Executive Officer, Human Resources
Patricia Freeman, Director, MWBE and Related Services
Deborah Karcher, Executive Officer, Information Technology Services
Kathleen Caballero, Director, Region II
Representative from outside agency (TBD)

Allan Vann, Chief Auditor (non-voting)
Joseph Gomez, Assistant Superintendent, Procurement Management Services (non-voting)
Linda Leasburg-Kramer, Supervisor, Procurement Management, (non-voting)

SCHEDULE

The planned schedule for review of proposals is as follows:

Posting: May 3, 2006
Opening of Proposals: May 31, 2006
Evaluation of Proposals: June 15, 2006
Vendor Presentations and Demonstrations: June 19, 2006 thru June 28, 2006
Vendor Selection: June 29, 2006
Award: July 12, 2006

Above dates may vary based on number of submissions moved forward for testing and the available resources of ITS.

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
PC006	"Ability to adjust bid/RFP amounts based on P-card purchases." – Please provide additional detail about this particular requirement. For example, in which situations would M-DCPS adjust bids and how would they be adjusted? Please provide an example for clarification.	<i>This refers to the ability of the ERP system to accumulate P-card transactions and report them by bid categories. For example, if the P-card is used to buy office supplies, which are part of the Office Supply Bid, then how does the system collect such costs in order to provide a grand total of expenditures that can be used to track how much is being spent for the specific Bid category.</i>
PC009	"Describe available interfaces to bolt-on P-card software packages." – What is exactly meant by "bolt-on P-card software packages"? Does this refer to the actual P-card setup/definition and processing or does this refer to the interface with the P-card issuer/bank? Is there a particular bolt-on software solution that M-DCPS has chosen to implement?	<i>Bolt-on refers to any available P-card administration/reconciliation systems in the market that can be used in conjunction with an ERP system. Your response may also include available ERP interfaces to communicate and transfer transactions from P-card banks.</i>
TE026	"Ability to support expense receipt imaging." Does M-DCPS have an existing or preferred imaging system that will be integrated within the overall ERP system?	<i>Please refer to Imaging System section on page 13 of 248</i>
PT051	"Describe your systems software's ability to direct low dollar, high volume transactions to a P-Card, Shopping Cart or Web-based catalogs." Please describe exactly what is meant by "ability to direct...transactions" and provide examples, if possible.	<i>Question PT051 has been revised to read as follows: Describe your systems software's ability to direct requisitioners to a Shopping Cart or Web-based catalog.</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
PT069	“Describe your system’s capabilities for generating repair orders and link them to purchase orders for tracking vendor violations such as short shipments, quality problems, late shipments, etc.” Would M-DCPS like the vendor to include a solution for repair orders/work orders or does M-DCPS have an existing Computerized Maintenance Management System (CMMS) with which the proposed solution should plan to integrate/interface?	<i>The district currently only has in place the software described on page 12 and 13 of 248 in relation to Maintenance Management Software.</i>
PT074	“Describe your software’s ability to use integrated textbook database that can sort by any of the fields in the textbook record.” Does the M-DCPS currently have an existing textbook database (or preferred textbook vendor) to which the proposed solution should plan to integrate/interface? Are all textbooks ordered from a M-DCPS-stocked warehouse, are they ordered from external vendor(s) (if so, which vendors), or is a combination of both internal warehouse and external orders used?	<i>Please see page 13 of 248. The district currently uses an in-house software for Textbook management. Stock for the warehouse is ordered from Florida Schoolbook Depository. This is then distributed to schools based on requirements. Additionally schools may order directly from the manufacturer for non-adopted textbooks.</i>
PT091	“Describe your software’s ability to track student textbook obligations by book in any school in the district.” Please explain exactly what is meant by “student textbook obligations” and provide an example.	<i>The district has a desire to track inventory by student number. Financial obligations would occur if a student did not return or damaged a book.</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
PT092	"Describe your software's ability to zero out quantities of consumable materials from all schools' inventory records prior to ordering period for next school year." Please explain this process. What is done with any remaining school inventory at school year-end (as part of the "zero out" process)?	<i>Question PT092 as been revised to read as follows: Describe your software's ability to track issued consumables based on student enrollment in a course and its ability to suggest an order for the upcoming school year based on future course enrollment and current on-hand levels of consumable inventory.</i>
S022	"Describe your software's ability to adjust bid/RFP amounts based on P-card purchases." This requirement is identical to PC006. Please provide additional detail about this particular requirement. For example, in which situations would M-DCPS adjust bids and how would they be adjusted? Please provide an example for clarification.	<i>Duplicate question – DELETED from ERP. See PC006</i>
SDM041	"Ability to access IRS, TIN, SSN validation site, Zip Code plus 4 table, through vendor master." Does this requirement refer to accessing a third-party validation system (i.e. from the IRS, County property/tax records, or other system) to validate TIN/SSN and/or zip code? Please explain exactly what validation is required.	<i>District is seeking to utilize technology to validate the TIN and SSN numbers through the IRS.gov site. Additionally of interest would be use of sites to verify occupational licenses and address verification.</i>
Technical	What is Miami Dade's preferred hardware vendor for application & database server?	<i>Currently the majority of the Districts hardware for application and database servers is HP.</i>
AP017	"Define your ability to optically image invoice documentation for input and verification, both before and after payment." - Does MDCPS have an existing or preferred imaging system that will be integrated within the overall ERP system?	<i>Please refer to Imaging System section on page 13 of 248.</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
AP026	"Provide a list of your software's out of the box on-line and batch processing system edits for invoice processing." - Please explain what the District means by "edits."	<i>The process the systems goes through to validate and verify data entered. For example: the PO Number entered is not on the Purchase Order file.</i>
AP037	"Define your ability to pay a vendor number other than the vendor number on the purchase order." - Please explain a scenario where this may happen. When would the District want this to happen?	<i>Example: Purchase Order was issued to Vendor A. Vendor B bought out Vendor A. Vendor B is an established vendor in the system but not the vendor number on the PO. Vendor B is the vendor who needs to be paid.</i>
AP054	"Define your ability to allow reverse keying for selected fields to test accuracy of input." - Please explain what is meant by "reverse keying."	<i>Entering data in a field and once entered, having the system prompt to have data entered in reverse order. For example 1234 then 4321.</i>
AR017	"Define your ability to generate invoices where no payment is required/expected (zero balance)." - Please give an example/scenario of this requirement.	<i>You have an invoice and a credit memo than net out to zero and you will not receive any more invoices from the vendor. Both the invoice and the credit memo need to be processed to update history file, the PO and the ledger.</i>
GR125	"Define your ability to monitor predetermined performance benchmarks against actual results." - Please give an example of "benchmarks"	<i>Predetermined benchmark may be no grant closes with more than 1% of funds unspent. Monitoring that would generate a report of grants that are scheduled to close outside that benchmark.</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
GL048	"Refine accounting process to allow sub systems and integrated sub ledgers to automatically create accounting entries." – Should this read "Refine" or "Define"?	<i>Question has been revised to read as follows: "Does your software have the ability for sub systems and integrated sub ledgers to automatically create accounting entries? Describe the process."</i>
GL068	"Refine close process to utilize soft close for non-quarter-end months, utilize high materiality levels for journal entries and minimize number of allocations to reach two day close." - Should this read "Refine" or "Define"?	<i>Question has been revised. This should read "Define."</i>
GL069	"Ability to track vehicle mileage via internet portal access." – Please explain the need for tracking vehicle mileage? Is this for Expense Reports, Fixed Assets?	<i>The tracking of vehicle mileage on Board-owned vehicles is needed in order to calculate fringe benefits on personal use of a company vehicle for W-2 reporting.</i>
GF020	Which privacy standards in particular is the District referring to?	<i>Question has been revised to read: Describe your software's ability to secure data to ensure privacy.</i>
GF023	Is the District asking if the software can estimate the time a job or job set will take to run by the software? Or is the District expecting all batch jobs to fit within a defined District batch window (if so, what is the processing window)?	<i>MDCPS is asking if the software can estimate the time a job or job set will take to run by the software.</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
ITS031	Can the District define what is meant by "security hierarchy" and why that may not be tied to the organizational structure?	<i>MDCPS uses currently security groups as in Active Directory. At times access to functions may not be strictly tied by organizational structure and title. Example Supervisor in Procurement may have access to Contracts but another Supervisor in Procurement may have access to Warehouse. Both positions report to the same Assistant Superintendent, have the same title but has different access to system functions based on job duties.</i>
Section 2A, #5	Can the District expand on what kind of system limitations are they concerned about? All systems have limitations to some degree but can the District give a direction of the intent of the question, i.e. number of users or scalability, performance limitations, number of enhancements allowed, etc.?	<i>The intent of this functional description is to make certain your software will work for a district of this size. MDCPS has had and continues to have problems with scalability and performance.</i>
Section 2C, #3	Can the District please clarify what is meant by "What off shore certification/import restrictions/procurement exist"?	<i>MDCPS has decided to remove this requirement from its RFP evaluation process. Language has been struck from page 16 of 248.</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
Procurement Transaction	<i>In this section, the District has a sub process called Textbook Purchasing. For the Textbook Purchasing requirements, please clarify if it is the intention for our application to replace the functionality and requirements listed in this sub process or if this functionality should be achieved via a 3rd party integration from our applications to the current Textbook Purchasing system and Student Information System? In particular, this level of clarification is required due to the following requirements: PT074 and PT082.</i>	<i>We are seeking solutions through the RFP process. Please describe your process as relates to your software's ability.</i>
	<i>PT074 - Describe your software's ability to use integrated textbook database that can sort by any of the fields in the textbook record.</i>	<i>Please describe how your software handles this.</i>
	<i>PT082 - Describe your software's ability to match student enrollment databases in courses and grades (student information system) against current textbook inventory records for the school to prevent over-ordering.</i>	<i>Please describe how your software handles this.</i>
BPR005	<i>"Ability to include a business data dictionary to provide consistent definitions for terms, levels of detail, formulas and golden sources." – Please explain what is meant by "golden sources"?</i>	<i>Golden sources refers to the primary data locations (e.g., agency, function, budget object, reporting time, etc.) where the data elements are generated, collected, and extracted to create key performance indicators (KPIs).</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
CP070	"Describe how your software can be used to track retainage by project phase." <i>Retainage means different things to different people: Please provide the M-DCPS version. Please explain what is meant by "retainage" in this requirement and provide an example.</i>	<i>MDCPS's definition of retainage refers to a percentage of construction expenditures held from payment until the vendors complete the project. For example, if a construction payment is due, the District will withhold 10% and pay the remaining 90% of the invoice total. Retainage withheld amounts should be accumulated by vendor and project in order to track the amount due to the specific vendor by project phase and at completion of the construction project.</i>
GR089	"Define your ability to publish a narrative description of the restrictions on the use of the grant financial resources." <i>Please give an example of this requirement.</i>	<i>To clarify, the grants management module has the ability to describe restrictions on the use of funds so MDCPS employees can look them up. They would not stop any event. For example, funds can only be used for students with an IEP or food purchases are not allowed. Something that helps District evaluate PO requests etc. In turn, MDCPS would like to be able to print what we insert in this narrative on a report at year end for the District Grant Funding Summary Report.</i>

SEE NEXT PAGE

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
General (Previously submitted question)	<i>Some, but not all tabs are protected such that you cannot enter any response, whether it be the drop-down response or a narrative comment in the cells on that tab. We understand Miami-Dade may post new tabs to their website but, as of this date, have not seen them.</i>	<i>Please refer to new Functional Description Excel workbook for these changes.</i>
General	<i>The Comments column of the spreadsheet does not allow spell-checking or word-wrap Is it possible to provide a version of the spreadsheet that allows these options? We understand Miami-Dade may post new tabs to their website but, as of this date, have not seen them.</i>	<i>Please refer to new Functional Description Excel workbook as word-wrap has been added.</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
General	<i>Some ERP software provides off-the-shelf ('base product') capabilities to configure interfaces. For requirements that specifically request the ability to interface (e.g., TA046, PR098), and the vendor has base-product capabilities to configure such interfaces, should the appropriate answer be a '5'?"</i>	<i>Yes, and please add a description if you believe clarification is needed.</i>
GL037 General Ledger	Define detailed standards for the creation and maintenance of the accounting calendar(s) Please clarify what is meant by "detailed standards for the creation and maintenance of the accounting calendar(s)?"	<i>Question has been changed to read: Define the process for creating and maintaining the accounting calendar(s).</i>
PM008 Position Management	Ability of HRMS to handle the approval of the requirements verified automatically against policy/budgets at source of entry (i.e., position maintenance) <i>Please advise what the requirements are that are referred to in this question.</i>	<i>1. Data Dictionary</i> <i>2. Business Rules</i> <i>3. Budgetary policy</i> <i>4. Verification of proposed transaction against Budgetary policy</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
PM027 Position Management	Ability of HRMS to provide Service Center support for Position Management process and problem resolution through service level agreements defined by business rules. <i>Can MDCSD provide an example of a service level agreement in this area?</i>	<i>The existing department of support services center is supported by Operations and Network services via answering questions that the services center cannot. In addition, policies supporting those decisions are provided to the customer by ONS. This is an example of a service level agreement.</i>
PM038 Position Management	Ability of HRMS to maintain rules repository needs to be created and maintained as defined by business rules. <i>Please clarify the question or provide greater detail on the requirement.</i>	<i>To clarify, if a transaction passes the logic table of our business rules (e.g. a data dictionary – Resume should be defined as resume in all relational tables), then the transaction is permitted. If not, transaction is not permitted and the business rule is identified.</i>
RS031 Recruit & Staff	Ability of HRMS to accept historical data from legacy applicant tracking system. <i>What historical data does MDCSD wish to use? Will the system accept this data in a data conversion, or on an on-going basis?</i>	<i>Much of the applicant data from ATS will need to be converted by data conversion.</i>
RS083 Recruit & Staff	Ability of HRMS to define assessment criteria and drive scoring as defined step in the process as specified by business rules. <i>Can MDCSD provide an example of these requirements?</i>	<i>As an example, MDCPS scores applicant data with a rating of 1, 2 and 3. This rating is used for evaluation and placement processes that must adhere to our business rules.</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
RS080 Recruit & Staff	Ability of HRMS to generate "hiring commitments" driven by specific job requirements. <i>Can MDCSD provide an example of these requirements?</i>	<i>Specific job requirements matched against business rules and defined criteria of HR will automatically generate a "hiring commitment" to be approved by the head of Recruiting before being sent out by workflow.</i>
RS076 Recruit & Staff	Ability of HRMS to provide for restricted range (RR), thereby allowing a hire to occur but with certain limitations. <i>Can MDCSD provide an example of these requirements?</i>	<i>Per business rules, any applicant with "RR" will automatically be routed to Office of Professional Standards for review before being sent on forward by the workflow.</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
OE004 Org Effectiveness	Ability of HRMS to perform environmental scan to identify anomalies and non-standard issues. Please provide the definition of an "environmental scan."	<i>Referencing any computerized series of operations, there is a homeostasis that occurs when all systems are functioning at an optimum level. The environmental scan is a query run against set levels of activity that are termed "normal" as opposed to those levels that are either too high or too low. Coupled with the set business rules, there are standards and/or ranges of standards that are utilized to create a normal operating function. Variations within this function, however small, are sent for review so that a diagnostic can be performed if necessary.</i> <i>An example of an anomaly would be the day that payroll was down and out because someone had changed their name to Edn. No first name just the last name of Edn. Court orders to confirm were provided. That anomaly caused a severe delay in payroll. If the self diagnostics would have been run after the Master File update, then the internal accumulators for last names would have been XXX and the same accumulators for the first name would have been XXX-1. This would have set off bells and whistles to signal a condition that was not normal.</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
OE005 Org Effectiveness	Ability of HRMS to maintain clear role definitions and their sphere of influence when HR professionals, legal counsel or senior management involvement is required. <i>Can MDCSD provide a more detailed explanation of this requirement?</i>	<i>Specific tasks and/or assignments are aligned with the job descriptions on the HR professional. These role definitions are highly defined and responsibility for their execution is enforceable. They are so constructed that they are backward compatible and cannot be misaligned. Example: HR MS defines the HRSSC administrator with clear responsibilities over all lending departments related to technical issues.</i>
EM014 Exit Management	Ability of HRMS to track specific flags. <i>Can MDCSD identify which specific flags?</i>	<i>PC – Personnel Control RR – Restricted Range MC – Motek Code N – Criminal History Record is not clear C - Criminal History Record</i>
EM024 Exit Management	Ability of HRMS to provide role based standard asset allocation to be tracked by HRMS. <i>Can MDCSD provide a specific example to explain this requirement?</i>	<i>If the role is equal to a manager, then the manager has a specified number of tangible assets for his job. These assets are role based and will be tracked by the HRMS for both equivalency and at time or termination, will required return of said assets.</i>

RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
CA032 Compensation Administration	Support Tuition reimbursements based on planned program and grade attainment. <i>Can MDCSD provide an example of a reimbursement dependency?</i>	<i>Different rules apply to each bargaining unit as far as reimbursement amount and number of credits that can be reimbursed in a fiscal year.</i>
CA026 Compensation Administration	Ability to override the security access table in the compensation system to avoid delays during the year-end process due to interface uploads from source system. <i>Can MDCSC identify the process that this question reflects and define what kind of security MDCSD is describing here?</i>	<i>Allow certain Compensation staff to override any employee's salary regardless of what the salary table is.</i>
CA012 Compensation Administration	Describe how managers are trained to use the provided tools to help ensure equity and effectiveness of compensation program transactions. <i>This question does not appear to be a software question, but rather one that is more related to a process change and implementation. Will MDCSD remove this from the requirements matrix?</i>	<i>This question has been deleted from the Excel response form.</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
CA010 Job Analysis/ Job Evaluation	Ability for system to leverage job information criteria and vision from the staffing process. Can MDCSD provide an example of what is meant by "vision?"	<i>Question has been revised to read: Define software's ability for system to leverage job information criteria from the staffing process."</i>
EDM030 Employee Data Maintenance	HR, corporate and managers have access to real-time information related to changes in benefit law. Are these ERP questions, or are they related to a process of continual notification through change process? If the former, can MDCSD provide examples?	<i>An example would be the following: If changes are made to existing IRS guidelines regarding contribution limits to §401(k)/§403(b)/§457(b) plans, enrollment data, contribution levels and other pertinent information relating to compliance to such limits is available. This would also apply to employees that have received hardship withdrawals from any of these plans, since the IRS restricts future contributions for a period of six months. Additionally, changes that impact Section 125 plans (i.e., cafeteria plans) can be assessed more easily by having real-time access to enrollment data.</i>
EDM027 Employee Data Maintenance	Internet based services providing real-time regulatory information. Are these ERP questions, or are they related to a process of continual notification through change process? If the former, can MDCSD provide examples?	<i>To clarify, this refers to an application where employees can go to get information that will affect their paycheck, benefits etc.</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
EDM015 Employee Data Maintenance	There will be a automated self assessment tool for collection, reporting, electronic distribution and analysis of data. <i>What kind of data does MDCSD envision collecting under this requirement?</i>	<i>MDCPS wants to be able to report on all data collected via your software. We have a data warehouse and would like to be able to link to existing data elements for analysis. Currently we use Cognos, Excel, and Access which we plan to continue to use. If your software provides this feature please describe it to us in your responses.</i>
EDM006 Employee Data Maintenance	System can address data privacy issue. <i>Can MDCSD define and specify a "data privacy issue?"</i>	<i>Example: Certain data elements must be protected. We have some employees where their address and phone number are not public and protected and others that are in the victim's protection plan that even their work location is protected.</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
BA048 Benefits	<i>For DROP participants, the ability to accrue wages and payout balances based on pre-enrollment retirement plans. Payout is based on defined benefits schedule. Can MDCSD further describe the accrual and payout process for the DROP program and whether you would be utilizing a third party administrator to perform the calculations? Can you please provide an example of the defined benefits schedule?</i>	<i>The district has implemented a terminal leave retirement plan (TLRP) that allows participants to have accrued sick and vacation days placed into a tax-deferred account (amounts are not subject to FICA, Medicare or Federal withholding). Employees that have enrolled in DROP (Deferred Retirement Option Plan) continue to be employed by the district. Individuals enrolled in DROP have their sick and vacation days placed into a tax-deferred account once a year. Since these are considered employer (non-elective) contributions, these amounts must be tracked against the elective contributions made by employees, and the amounts that may be contributed by employees could change after sick or vacation days are placed into the terminal leave retirement plan account. These amounts must be tracked and coordinated to ensure compliance with applicable limits established by the Internal Revenue Service.</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
PR034 Payroll Processing	<i>Capability to monitor participants in Florida State Deferred Retired Option Plan (DROP) program and apply accrual balances to program based on schedule of benefits Would the DROP program that is offered to MDCSD employees be considered a "benefit plan" offered to eligible employees? Are you looking for the system to calculate the DROP retirement accrual or for the ability to track if an employee is enrolled in the program?</i>	<i>Yes, this is a "benefit plan" The District is looking for the capability to monitor who's enrolled and to calculate the DROP Ret. Accrual Payments and to create files/reports of eligible and participating employees. See attached explanation of benefits pages, BA048 #25 PRO34 pages 1-6.</i>
PR014 Process W-2's and W-2C's	<i>Ability to create employee tax data with similar data requirements. Could MDCSD please describe the "similar data requirements" requirement as it relates to employee tax data?</i>	<i>Refers to PR097-Tax liabilities added to employees throughout the year must be compiled for W-2 and W-2C reporting process.</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
PR053 Payroll Processing	Sick leave cash in, once a year can convert portion of sick leave, into cash payment or 401K contribution based on defined value, 80% of pay rate as a date specified by MDCPS. Ability to limit eligibility by bargaining unit, days used or available balance. <i>Is the ability to cash in sick leave on an annual basis and then transfer to either a 401k or to a cash payment performed at 80% of the value? Could MDCSD please provide an example of this requirement?</i>	<i>See attached form for example of requirements on pages 1-2.</i>
PR055 Payroll Processing	Personal Property payment, funds allocated to individual bargaining unit at beginning of fiscal year. Paid out to employees after they file a claim and bargaining unit approves payment of funds. (i.e., ripped shirt, theft of property, etc..). System should also maintain balances on account to ensure union does not exceed allocated balance. <i>Are the Personal Property payment balances at the employee level or at the union level? Could MDCSD please provide an example of this requirement?</i>	<i>There's a limit per employee/per claim, and there is a dollar limit per each Union/per fiscal year, which varies per Union. See attached example from FOP in the .pdf document.</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
PR078 Payroll Processing	Ability to transfer sick days to relatives with applied restrictions. <i>When transferring sick days to relatives what type of applied restrictions could apply to the process?</i>	<i>See attached .pdf document for details.</i>
TA116 Time Attendance	Ability for system to allow detailed tracking of hours relative to FEMA guidelines. <i>Could MDCSD please provide an example of the FEMA guidelines required to be met during time entry? Are these requirements for all employees?</i>	<i>FEMA requires that all activities that were performed during the preparation or recovery phase be tracked. For example, if an employee cleared debris from a school's field, the specifics of that activity must be captured. In addition, equipment that is utilized (e.g. chainsaws, forklifts, etc.), and the amount of time that it was utilized, must also be captured. This requirement applies to any individuals that are designated as "essential personnel" for the purposes of preparation or recovery. For further information, please refer to www.fema.gov.</i>
TA117 Time Attendance	Ability of system to accept hours worked against projects, tasks, and cell work time and based on established setup rules. <i>Could MDCSD please provide further detail of "established setup rules" that MDCPS currently utilizes?</i>	<i>To clarify, this simply refers to integration to a projects module that tracks hours and costs against projects, tasks and work orders.</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
BA007 Benefits	Administration of non-standard subsidiary bargaining unit plans consolidated to leverage consulting and actuarial costs and utilization. While different plans may be maintained, the ability to consolidate for funding purposes should be retained. <i>Can MDCSD provide an example of a non-standard bargaining unit plan and provide more details on how this can be leveraged for consulting, actuarial cost and utilization? Can you also further describe the funding consolidation process for the different plans and type of plans maintained?</i>	<i>Pursuant to Florida statutes, benefits are subject to collective bargaining with the various unions. As such, benefits available to employees can vary based upon the union representing the group. For example, employees not eligible for medical coverage within the AFSCME bargaining unit are provided a hospital indemnity product through the district's medical insurance program, subject to continuous employment with the district. Another example of such a plan is an indemnity vision plan offered to UTD employees who do not work full-time but have acquired 450 or more hours of service.</i> <i>Currently, systems limitations limit the ability to aggregate enrollment and cost data for these types of plans as well as the district's ability to provide online enrollment capabilities.</i>
TA021	<i>Please clarify the requested functionality</i>	<i>Ability to create and change schedules, notify employees and forecast, based on needs (i.e. Emergencies, imminent projects, etc.)</i>

RESPONSE TO QUESTIONS RECEIVED
RFP 102-04 - ERP

RFP Software Functionality Reference Number	Question Received	District Response
OE004	<i>Can you please provide additional details pertaining to this requirement? Can you provide any examples of anomalies?</i>	<i>Referencing any computerized series of operations, there is a homeostasis that occurs when all systems are functioning at an optimum level. The environmental scan is a query run against set levels of activity that are termed "normal" as opposed to those levels that are either too high or too low. Coupled with the set business rules, there are standards and/or ranges of standards that are utilized to create a normal operating function. Variations within this function, however small, are sent for review so that a diagnostic can be performed if necessary. An example of an anomaly would be the day that payroll was down and out because someone had changed their name to Edn. No first name just the last name of Edn. Court orders to confirm were provided. That anomaly caused a severe delay in payroll. If the self diagnostics would have been run after the Master File update, then the internal accumulators for last names would have been XXX and the same accumulators for the first name would have been XXX-1. This would have set off bells and whistles to signal a condition that was not normal.</i>

PR034

Dear Employees,

Your employer has adopted the BENCOR Special Pay Plan so that you may receive your unused sick leave in a tax-advantaged manner. Please review the information included in this packet to familiarize yourself with the features of the plan and the options available to you and your family.

Features of the Plan include:

- You are immediately 100% vested in all contributions to the Plan.
- Income taxes on contributions and the earnings thereon are deferred until withdrawal.
- Social Security and Medicare taxes are permanently saved on contributions to the Plan.

Since money has been or will be deposited into your BENCOR Special Pay account, you will need to choose your investment options as well as a beneficiary. As an additional service for those employees in need of investment advice, an AIG/VALIC representative is available to assist in making those important decisions. If you wish to take advantage of this service, you can schedule a personal meeting with local representatives who can assist you with the paperwork and answer any questions you may have.

Telephone numbers for information needed are included on the back cover of this publication. Please call if you have any questions or would like to have a representative contact you.

Very truly yours,

1/6

WHY YOU HAVE A PLAN

TAX BENEFITS FOR YOU

FICA & Medicare Taxes - You permanently save up to 7.65% in Social Security taxes on your sick and/or annual leave payout.

(Example: For every \$10,000 deposited, you permanently save \$765)

Federal Income Taxes - Income taxes that would have been paid at your highest tax rate are deferred until funds are withdrawn from the plan.

OTHER FEATURES

Liquidity & Flexibility - Your account is 100% vested and you may withdraw or transfer funds with no surrender charge at any time.

Safety - All funds are automatically deposited into the General Account, which is guaranteed against loss of principal and pays a minimum annual interest of 3% by the investment company AIG/VALIC, one of the largest diversified financial services companies in the world. The General Account pays the **guaranteed interest along with a very competitive current interest rate**. See the **Potentia investment options sheet** for the current interest rate.

Tax-Deferred Earnings - You will enjoy tax-deferred earnings on your account. This allows your account to grow faster since gains are not taxed until withdrawn.

Optional Investment Accounts - You may wish to direct the money in your account into one of the 19 additional investment sub-accounts. Remember, you take the risk of market fluctuations when you move money into these accounts.

Loans - You may wish to borrow from your account and use the money free of income taxes as long as the loan is repaid as required by IRS guidelines.

Probate Avoidance - Your account provides for a beneficiary designation and will avoid probate in the event of your death as long as you have chosen a person or persons to be your beneficiary.

This is intended to summarize the benefits of the Bencor Plan. For complete details, refer to the Potentia contract provisions included in this packet.

INSTRUCTIONS FOR RETIREES

A. Complete the Bencor Retirement Plan Enrollment Form

It is very important that you fill out the enrollment form so Bencor Administrative Services will have current information on you:

1. **Address** - This is where your account statements will be sent.
2. **Beneficiary** - This will assure that your account will be distributed in accordance with your wishes in the event of your death.
3. **Investment Direction** - This form allows you to direct your investments upon enrollment. Remember, your money is automatically deposited into the General Account unless you direct otherwise.
 - a. **General Account** - An interest rate is paid on these funds and the principal is guaranteed by AIG/VALIC, one of the largest diversified financial services companies in the world.
 - b. **Investment Sub-Accounts** - You may choose to invest your money in any of an additional 19 investment sub-accounts that may achieve a higher or lower rate of return than the General Account. These accounts carry no guarantees and the participant assumes all investment risk. It is suggested that every investor complete a risk tolerance profile before making investment choices. A six-question risk profile is included in the packet for your use. You may also wish to contact an AIG/VALIC investment advisor.

B. Using Your Bencor Account

1. **Withdrawals** - You may withdraw your funds from this account at any time after your termination of employment with no surrender charges. Please seek tax advice from competent counsel to determine the tax liability on withdrawals.
2. **Loans** - You may borrow the lesser of \$50,000 or 50% of your account balance, for any reason, and not pay taxes on the borrowed funds if the loan is repaid as required by IRS guidelines.
3. **Changes to your investment options** - You may change your investment options at any time with no transfer fees. You may make these changes either over the telephone, over the internet or by written instructions. Please see the listings on the back cover for contact addresses, phone numbers and web information.
4. **Rollovers** - Upon your termination of employment you may rollover these funds to other tax-advantaged investments such as IRA and 403(b) accounts. For a complete list of rollover options, please contact your investment representative. If you do not presently have an investment representative you may wish to contact an AIG/VALIC Investment Advisor. You may also rollover other tax advantaged investments into the BENCOR account.

NOTE: If you rollover your funds into an IRA and you have not attained the age of 59½, you may subject your rolled funds to a 10% tax surcharge if you withdraw these funds prior to attaining this age.

FREQUENTLY ASKED QUESTIONS

Do I have a choice in participating in this program?

The program is mandatory for all covered employee groups who retire or participate in DROP. The IRS states that the program must be mandatory in order to qualify for the tax advantage.

I accumulate vacation pay. What happens when I enter DROP?

At the time you enter DROP, you have the option of receiving your vacation leave at the beginning or end of your DROP period. With either option, your vacation leave will be deposited into the BENCOR 401(a) plan. If you elect to take it at the beginning of DROP, your vacation leave will be used to calculate your five highest years of earnings, which is used to calculate your monthly retirement benefit at FRS. Your sick leave is paid into the BENCOR 401(a) plan over the five-year DROP period.

What is my contribution maximum?

Contributions cannot exceed the IRS 415(c) limit currently the lesser of \$40,000 or 100% of the Plan Year Compensation.

Can I withdraw the funds after they have been sent to BENCOR on my behalf while I am still employed or participating in DROP?

Pursuant to Florida Statute, these Terminal Sick Leave Payments may not be withdrawn until the employee has separated from the school system. There is, however, a loan provision in this program and a loan may be requested against the funds in your account. Contact BENCOR Administrative Services directly should you have additional questions on loan provisions.

Can I deposit my DROP funds into the account once I leave DROP?

At the end of your DROP participation you can complete "Request for Balance for Direct Rollover" from FRS and have your DROP account "rolled" into your BENCOR 401(a) account — this will continue the Federal income tax deferral. If you are between the ages of 55 and 59½, consider the BENCOR 401(a) account for your "rollover" of DROP funds. Unlike your IRA account, there is no IRS 10% early distribution penalty unless you retire prior to the year in which you attain age 55.

Are my funds safe?

If you have left your funds in the General Account (funds are automatically deposited into the General Account), the principal and interest paid on the account are guaranteed by the investment provider AIG/VALIC, one of the largest diversified financial services companies in the world. The guaranteed minimum annual interest paid on the General Account will be 3%. If you have moved any of your funds into the alternate investment sub-accounts, you assume all market risks.

4/6

BENCOR
INC.

THE BENCOR PLAN DESCRIPTION

The Bencor National Plan™
(401(a) Qualified Retirement Plan)
Special Pay Plans for:

SCHOOL BOARD OF MIAMI-DADE COUNTY, FLORIDA

The BENCOR NATIONAL GOVERNMENT EMPLOYEES RETIREMENT PLAN™ (BENCOR SPECIAL PAY PLAN™) is offered by BENCOR, Inc. to help governmental units and their employees save up to 7.65% of Social Security/Medicare taxes and to defer income taxes on eligible Plan contributions. Provided below is an explanation of how the Plan works, subject to employer policy:

Eligibility

- Employees who are retiring or entering DROP and have accumulated at least \$1000 of "Special Pay" (sick leave pay, annual leave-vacation pay, incentive pay, etc.) will participate in this Plan.
- Accumulated "Special Pay" will be placed into the BENCOR NATIONAL PLAN™ subject to contribution limits.

Contribution Limits

- Contributions to the 401(a) Plan cannot exceed 100% of Plan Year Salary or \$40,000 whichever is less.
- Employer with multiple plans: If your Special Pay contribution exceeds the 401(a) contribution limits, you may also qualify for contributions to the employer's 403(b) Plan.
- The maximum Special Pay Plan contribution limit is calculated each year.
- Plan contributions to your elective deferral 403(b) Plan or 401(k) Plan can reduce your Special Pay Plan contribution limits.
- Please consult your TSA advisor, your tax advisor or your BENCOR advisor regarding your Plan contribution limits.

Investments & Investment Expenses

- Initially, Special Pay Plan contributions are automatically invested in the Potentia General Account (i.e. guaranteed or fixed). Subsequently, the participant can self-direct among 20 investment choices.
- There is no asset-management fee charged against the Potentia General Account (i.e. guaranteed or fixed). An asset-management fee is deducted from variable accounts only. The fee will be indicated on the quarterly statements sent to all Plan participants.

Distributions

- Distributions may be taken at termination of employment, during DROP participation, or upon total disability or death.
- The participant may choose to leave money in the Plan, self-directing future investments and taking distributions as desired in a *tax-deferred manner*. Distributions may be taken in a lump sum or periodic payments may be taken monthly, quarterly, semi-annually or annually. (Remember, it may be advantageous under Federal tax laws to delay taking distributions until a later tax year when the individual's tax rate may be lower).
- A participant (or surviving spouse) may "rollover" the Plan balance into an IRA or into another qualifying plan.
- To receive a distribution, the participant must initiate the process by *requesting a distribution packet* from BENCOR Administrative Services at 1-888-258-3422.

5/6

- Distributions will be processed in a timely manner with minimum waiting.
- There is no 10% IRS penalty if the employee is at least age 55 in the year of separation from employment.
- Employees who have separated from service, or employees who are participating in DROP, and fall within a certain age category (*those who were under age 55 in the year of separation from employment or those who are under age 59-1/2 and participating in DROP*) and elect to withdraw these funds are subject to a 10% early-cash-withdrawal penalty by the IRS. Subject to your employer policy, the employer has chosen to "make whole" only those employees who are separating from service if they request all of their funds in cash from the Plan Administrator within 120 days of separation from employment. This would normally require a make up of 2.35% (10% penalty minus 7.65% previous savings on Social Security taxes). However, individuals who have met their FICA salary limit before separating from service would receive an 8.55% (10% penalty - 1.45% savings) reimbursement for amounts over the FICA limit.
- Please consult your tax advisor for information regarding the taxability of Plan distributions.
- Loans - For loan provisions, contact the BENCOR Administrative Services at 1-888-258-3422.

DROP participants' Annual Leave/Terminal Sick Leave Pay will be processed as follows:

- **Annual Leave** - Employees participating in DROP *subject to employer policy* have the option to (1) receive their annual leave as a lump-sum distribution at the time of enrollment in DROP or (2) receive a lump-sum payment at the end of the DROP period. If option (1) is chosen (annual leave paid as a lump-sum at the time of enrollment in DROP), this dollar amount will be **included** in the employee's compensation for retirement benefit calculation purposes (FRS). If option (2) is chosen (wait until end of DROP period), this dollar amount is **not included** in the FRS benefit calculation.

Under option (1) or option (2) above, annual leave will be placed into the "BENCOR NATIONAL PLAN™" subject to contribution limits. Any annual leave in excess of Plan contribution limits will be paid to the participant subject to Federal tax and related payroll taxes (Social Security and Medicare). The participant does not have access to Plan contributions until the end of the DROP - other than through loan provisions.

- **Terminal Sick Leave Pay** - An employee participating in DROP will have a percentage of their accumulated sick-leave pay balance deposited into their account at the end of each year of DROP. The percentage is determined by the participant's DROP year. **EXAMPLE:** An employee participating in DROP for a period of five (5) years will have terminal-sick-leave pay deposited as follows:

Year 1	20% of balance of terminal sick leave
Year 2	25% of balance of terminal sick leave
Year 3	33% of balance of terminal sick leave
Year 4	50% of balance of terminal sick leave
Year 5	100% of balance of terminal sick leave

EXAMPLE: An employee participating in DROP for a period of two (2) years will have terminal-sick-leave pay deposited into their account as follows:

Year 1	50% of balance of terminal sick leave
Year 2	100% of balance of terminal sick leave

If the yearly sick-pay contribution exceeds the amount of the contribution limit (*see Contribution Limits above*) the excess amount will be rolled into the next Plan year. Employees terminating prior to their pre-selected DROP-end date will have 100% of their remaining eligible sick-leave balance paid into the Plan, subject to contribution limits. Any excess amount will be paid in cash, subject to all applicable taxes. This method of payment allows employees to take maximum advantage of Federal tax law.

cell

PR053

**CASH-IN OF SICK LEAVE ACCRUED DURING
THE PERIOD JULY 1, 2005 - JUNE 30, 2006**

Full-time employees of Miami-Dade County Public Schools, **except Managerial Exempt Employees (MEP)**, may "cash-in" the sick leave that has been accumulated during the period July 1, 2005 - June 30, 2006, provided you have used no more than three (3) days sick/personal leave or leave without pay combined during that period, plus you must have a sick leave balance remaining, after "cash-in", of twenty-one (21) days. The "cash-in" is paid at a rate of 80%.

EXAMPLE: An employee has a sick leave balance of twenty-five (25) days at the end of the school year, he/she can only be paid for 80% of four (4) days since the employee must have a balance of twenty-one (21) days after "cash-in".

However, disregarding the number of days available at the end of the school year, an employee still cannot "cash-in" more than the current year's accrual.

Payment will be made in accordance with contract provisions on July 28, 2006.

The checks will be forwarded to the school year 2005-2006 work location.

Please complete the attached form and return to the Payroll Department, Mail Code 9999, Room 614, no later than June 2, 2006.

****NO FAXES ACCEPTED****

PLEASE INFORM ALL EMPLOYEES AT YOUR WORK LOCATION

Make the necessary copies of these two (2) pages (Information sheet and Cash-In form) for those employees who are interested, or direct them to the Payroll website (payroll.dadeschools.net).

1/2

PR053

PAYROLL DEPARTMENT

REQUEST FOR SICK LEAVE CASH-IN

I request reimbursement for 80% of the sick leave I earned during the period July 1, 2005 - June 30, 2006. I understand that my entitlement to this reimbursement is contingent upon the fact that I did not use more than three (3) days sick leave, personal leave, and leave without pay combined during the above period. Also, I must have a remaining sick leave balance of twenty-one (21) days after "cash-in".

EMPLOYEE NUMBER	NAME (Please print)		
	(Last)	(First)	(M.I.)
LOCATION NUMBER	PAY CODE	SIGNATURE	DATE *

FORM MUST BE RECEIVED IN THE PAYROLL DEPARTMENT, Mail code 9999,
* Room 614, NO LATER THAN JUNE 2, 2006.

****NO FAXES ACCEPTED****

PLEASE NOTE:

If you completed an irrevocable request last year for your sick leave accrual during the period of July 1, 2005 to June 30, 2006, to roll over into the VISTA 401(k), you are not eligible to "cash-in" sick leave accrued during this same period, therefore, DO NOT SUBMIT THIS FORM.

Payment will be made in accordance with contract provisions on July 28, 2006.
The checks will be forwarded to the school year 2005-2006 work location.

2/2

Program in greater detail, upon request.

An employee may participate through one and/or two different companies. An employee may elect to make a change only one time within a calendar year. A change is defined as a start, restart, increase, decrease, or the addition of a second company. The investment contract may be canceled, via written request for cancellation, at any time with at least 30 days' advance notice.

Section 10. U.S. Savings Bonds

Permanent employees may purchase, by payroll deduction, up to three bonds simultaneously, in the amounts of \$100, \$200, or \$500 denominations. Bonds are purchased from the Federal Reserve Bank of Richmond and are forwarded to the employee from the Federal Reserve Bank of Richmond. Bonds will be purchased automatically until the employee requests cancellation by submitting a bond cancellation form to the Deduction Control Office. Bonds are purchased solely by the employee.

Section 11. Board-Paid Physical Examinations

The Board will provide an annual, Board-paid physical examination (including electrocardiogram) for each unit member during the month of the employee's employment anniversary, pursuant to Miami-Dade Schools Police Department procedures.

Section 12. Uniform Allowance

- A. Employees who are required to wear uniforms on a regular or as-needed basis shall receive a \$400 annual allowance for the maintenance and upkeep of such uniforms; those officers assigned to plain clothes duty shall receive an additional annual allowance of \$200.
- B. Employees required to wear uniforms or who are assigned to special duty, as designated by the Chief, School Police, shall be provided with bulletproof vests at Board expense. Such employees shall have their vests available while on duty.

Section 13. Safe Driving Awards

An employee who drives or operates mobile equipment in performance of his/her duties shall receive awards for safe driving. After the first year, the employee will receive an appropriate award, as recommended by the employer, for each consecutive year of safe driving completed. Should a driver have a preventable accident, that driver's record, for purposes of this Provision, starts over the first day after the accident.

Section 14. Stolen or Damaged Personal Property

There shall be a fund for the purpose of reimbursing employees whose personal property has been stolen or damaged in the course of the performance of the unit member's required duties. The amount of the fund shall be \$5,000.

Guidelines for the administration and disbursement of funds have been jointly developed by the parties with the understanding that M-DCPS will retain control of the administration and disbursement of the fund.

It is understood further that the unit member shall forward his/her claim to M-DCPS together with the required documentation. Disbursement by M-DCPS, regarding individual claims, will be pursuant to the recommendation of the joint committee.

Reimbursement for stolen or damaged personal property shall be in the amount of documented actual replacement cost provided, however, that such reimbursement shall not exceed the amount of \$200 per item claimed to have been damaged or stolen (exclusive of personal vehicle and cash). It is understood and agreed that, once the employee forwards the claim to the designated M-DCPS representative, every attempt will be made to reimburse the employee within 60 days from the submission of the employee's claim.

TRANSFER OF ACCRUED SICK LEAVE DAY(S)

Employee Transferring the Accrued Sick Leave Day(s):

Employee No. _____ Work Location No. _____

Employee Name _____ Payroll Code _____

Relationship _____

Number of Accrued Sick Leave Days to be transferred: _____

* Pursuant to the provisions of Board Rule 6Gx13-4E1.01., I hereby authorize the Miami-Dade County Public Schools to transfer the above-mentioned number of accrued sick leave days. I certify that the employee receiving my accrued sick leave day(s) is my spouse, child, parent, or sibling, and has exhausted all of his/her sick leave.

Employee Signature

Date

Employee Receiving the Transfer of Accrued Sick Leave Day(s):

Employee No. _____ Work Location No. _____

Employee Name _____ Payroll Code _____

Relationship verified by:

Worksite Administrator

SCHEDULE

The planned schedule for review of proposals is as follows:

Posting: May 3, 2006

Opening of Proposals: May 31, 2006

Evaluation of Proposals: June 15, 2006

Vendor Presentations and Demonstrations: June 19, 2006 thru June 28, 2006

Vendor Selection: June 29, 2006

Award: July 12, 2006

Above dates may vary based on number of submissions moved forward for testing and the available resources of ITS

Software Functionality: Instructions for Completion

Within each process tab, there is a list of "Functional Descriptions" which we would like you to individually address in the following manner:

1. Fill-in the Proposer information at the bottom of this worksheet
2. Read each Functional Description within each Process Tab
3. Reply to each Functional Description by selecting one of the following choices from the dropdown box in the column entitled "ERP Vendor":

1 - Not Applicable

Not Applicable or the system cannot support the requirement. More of a Process or Change Improvement; not necessarily a tangible ERP based concept.

2 - System Accomodates this feature with a Customization

The system can accommodate this feature by customizing the application

3 - System Accomodates this feature with a Work Around

The system can accommodate this feature if the process is changed

4 - System Accomodates with 3rd Party Solution

The need of a 3rd party service provider support is required for this element.

5 - The System includes this feature in the Base Product

The system will accommodate this requirement with standard configuration. No additional changes are necessary.

4. When either (a) you have selected a response from the dropdown other than "5-Included in Base Product" or (b) the Functional Description contains the words "Please Describe..." or "Define...", please provide an explanation in the "Comments" column. Note that you also may provide further explanation in the "Comments" column even if neither of the above criteria is applicable.

Proposer is Requested to supply the following information:

Ref. #	Sub-Process	Functional Description	Response	Comments
ITS024	Security	Supports user controllable auto logoffs intervals. Please describe.	1 - NA / Not Supported	
ITS025	Security	Ability to limit the number of unsuccessful password attempts. Please describe.	1 - NA / Not Supported	
ITS026	Security	Ability to support on-line screens that maintain security levels and screen access privileges. Please describe.	1 - NA / Not Supported	
ITS027	Security	Supports the ability to modify an individual's access privileges . Please describe.	1 - NA / Not Supported	
ITS028	Security	Ability to provide a complete audit trail of all transactions entered including entry source both at terminal ID and user ID. Please describe.	1 - NA / Not Supported	
ITS029	Security	Ability for the system to provide an error log and user defined capability for reporting from error log. Please describe.	1 - NA / Not Supported	
ITS030	Security	Ability to force creation of a unique password each time the user is prompted to change the password . Please describe.	1 - NA / Not Supported	
ITS031	Security	Ability to provide for flexible security hierarchy, not constrained by reporting and organizational structure. Please describe.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Payable (AP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AP001	Vendor Management	Define your ability to archive vendors as required with option of retaining or purging history.	1 - NA / Not Supported	
AP002	Vendor Management	Define your ability to retain vendor history including current period, year to date and all prior history with ability to view referenced documents from any year without exiting the system.	1 - NA / Not Supported	
AP003	Vendor Management	Define your ability to hold/release payment for specified vendors or parent/vendor groups.	1 - NA / Not Supported	
AP004	Vendor Management	Define your ability for automatically retrieving vendor name and address, goods ordered and received and unit prices based on purchase order number for invoice processing.	1 - NA / Not Supported	
AP005	Vendor Management	Define your ability to generate workflow email notifications to vendors requesting refunds for credits issued and not taken after a specified period of time.	1 - NA / Not Supported	
AP006	Vendor Management	Define your ability to notify vendors of changes/adjustments to invoices including but not limited to: • Supplying the Districts Tax Exempt number in cases where sales tax was deducted from the invoice • When invoice is automatically adjusted for freight charges based on validation with bid/contract • Other invoice deductions such as vendor violations, quality issues or short shipments	1 - NA / Not Supported	
AP007	Reporting	Define your ability to have a report writer/data query environment.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Payable (AP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AP008	Reporting	Define your software's report writer and ad-hoc query tools including support for multi-dimensional data analysis with drill down capability.	1 - NA / Not Supported	
AP009	Reporting	Provide a list of your software's "out-of-the-box" AP Reports.	1 - NA / Not Supported	
AP010	Reporting	Define your ability to allow user defined online or hard copy reports utilizing ad-hoc query/reporting tool. Examples include, but are not limited, to: • Invoice Number • Vendor Number • Invoice Date • Account Structure • By Invoice Status • By PO Status of invoice including but not limited to: • Matched/Unmatched Invoices • Invoices on Hold • Paid/Unpaid Invoices • Rejected Invoices	1 - NA / Not Supported	
AP011	Reporting	Define your ability to provide a vendor portal/vendor self-service including but not limited to: • Secure Access including automatic password resets • Restricting data available to vendors • Ability to select invoices for early payment by offering a discount • ad-hoc reporting with drill-down capabilities	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Payable (AP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AP012	Reporting	Define your ability to drill down to AP Summary and Detail from other modules including but not limited to: • General Ledger • Fixed Assets • Purchasing • Treasury Management	1 - NA / Not Supported	
AP013	Reporting	Define your ability to view and print AP history by key fields, but not limited to: • Vendor • PO Number • Invoice number • Invoice Date • Gross Amount • Check Date • Check Number • Account Structure	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Payable (AP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AP014	Reporting	Define your ability to report on Key Performance Indicators such as, but not limited to: • Average Days Paid • Average AP Turn Around Time • Total Number of Invoice's Processed • Total Number of Invoice's Processed by source i.e., manual entry, recurring invoices and file feeds by type • Total Number of Invoices Processed by Operator • Total Number of PO's Processed • Total Number of Invoice Line Items Processed • Number of Open Invoices greater than 45, 90, 120 days • Number of worksites disabled from entering requisitions • Average Time a worksite is disabled • Frequency of worksites being disabled	1 - NA / Not Supported	
AP015	On-Line Inquiry	Define your wildcard search capability through the system.	1 - NA / Not Supported	
AP016	On-Line Inquiry	Define your ability to move from screen to screen without having to re-enter key information.	1 - NA / Not Supported	
AP017	Processing	Define your ability to optically image invoice documentation for input and verification, both before and after payment. Imaging repository will be in Legato 5.0.	1 - NA / Not Supported	
AP018	Processing	Define your ability to tie image of invoice to AP record and available to all locations as well as via a portal.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Payable (AP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AP019	Processing	Define your software's process for entering invoices including but not limited to: • Recording relevant comments for invoice transactions	1 - NA / Not Supported	
AP020	Processing	Define your ability to add/remove/modify Invoice entry screens.	1 - NA / Not Supported	
AP021	Processing	Define your ability to add/remove/modify Invoice entry data fields.	1 - NA / Not Supported	
AP022	Processing	Define your ability to accept invoices submitted via electronic methods.	1 - NA / Not Supported	
AP023	Processing	Define your ability to: • Track AP Processing Time, by step • Operator ID for additions and modifications	1 - NA / Not Supported	
AP024	Processing	Define your ability to accept and track problem/rejected invoices that include but are not limited to: • PO Number not provided • PO Number not valid • Invoice does not balance	1 - NA / Not Supported	
AP025	Processing	Define your ability to generate email notifications to: • Purchasing Buyer • Work Site • Originator • Vendor providing Invoice/PO information explaining why invoice: • exceeds Purchase Order Amount • has a price discrepancy • has a receiving discrepancy • is being placed on hold • is being returned (Not accepted by AP)	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Payable (AP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AP026	Processing	Provide a list of your software's "out of the box" on-line and batch processing system edits for invoice processing. Please describe.	1 - NA / Not Supported	
AP027	Processing	Provide a list of your software's "out-of-the-box" on-line and batch processing system edits for identifying potential duplicate payments. Please describe.	1 - NA / Not Supported	
AP028	Processing	Define your ability to override a duplicate payment edit when it is determined the invoice is not an actual duplicate.	1 - NA / Not Supported	
AP029	Processing	Define your ability for systematically performing on-line 2, 3 and 4 way matching of PO/Receipt/Invoice/Inspection, subject to defined rules/tolerances.	1 - NA / Not Supported	
AP030	Processing	Define your ability for systematically performing batch 2, 3 and 4 way matching of PO/Receipt/Invoice/Inspection, subject to defined rules/tolerances.	1 - NA / Not Supported	
AP031	Processing	Define your ability to define matching tolerances for: • Price - percentage and/or dollar • Receiving - percentage and/or dollar • Freight - percentage and or dollar	1 - NA / Not Supported	
AP032	Processing	Define your ability to allow multiple invoices to be processed on a single purchase order, while preventing overpayment (Paying twice for the same item).	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Payable (AP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AP033	Processing	Define your ability to address items that appear on invoices that were not stated on the PO including but not limited to: • Item Substitution • Additional Charges • Free Material	1 - NA / Not Supported	
AP034	Processing	Define your ability to validate/confirm unit prices from bids and contracts.	1 - NA / Not Supported	
AP035	Processing	Define your ability to determine whether freight charges are allowed based on bid and contract awards.	1 - NA / Not Supported	
AP036	Processing	Define your ability to change/override the reference PO number on invoice entry pages without having to delete and re-enter the entire invoice.	1 - NA / Not Supported	
AP037	Processing	Define your ability to pay a vendor number other than the vendor number on the Purchase Order.	1 - NA / Not Supported	
AP038	Processing	Define your ability to capture pass through data from the purchase order including but not limited to: • Project level information • Work order number • Account Code/structure • Fixed Asset information • Quantity and Unit of Measure	1 - NA / Not Supported	
AP039	Processing	Define your ability to allow multiple account entries from one or more invoices to pay a single purchase order with multiple allocation methods including but not limited to: • Percentage allocation • Flat dollar amount allocation	1 - NA / Not Supported	
AP040	Processing	Define your ability to process credit memo's and how it affects the Purchase Order.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Payable (AP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AP041	Processing	Define your ability to authorize and restrict who can release a matching discrepancy.	1 - NA / Not Supported	
AP042	Processing	Define your ability to generate Payment based on on-line receipt, Evaluated Receipt Settlement.	1 - NA / Not Supported	
AP043	Processing	Define your ability to process a single invoice against multiple Purchase Orders.	1 - NA / Not Supported	
AP044	Processing	Define your ability to perform online approvals of invoices.	1 - NA / Not Supported	
AP045	Processing	Define your ability to: • Pro-rate freight • Pro-rate Discounts Earned • Other miscellaneous charges across invoice lines	1 - NA / Not Supported	
AP046	Processing	Define your ability to Auto calculate sales and use tax, including look-up of Tax Rate.	1 - NA / Not Supported	
AP047	Processing	Define your ability to ensure balance between invoice total and distribution total for all process methods.	1 - NA / Not Supported	
AP048	Processing	Define your ability to prevent specified users from modifying invoice data once the invoice has reached approval status.	1 - NA / Not Supported	
AP049	Processing	Define your ability to place/remove an invoice on a Hold Status and specify reason codes for placing and removing the hold.	1 - NA / Not Supported	
AP050	Processing	Define your ability to disallow an originating worksite from entering requisitions until resolution of invoice problem is obtained.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Payable (AP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AP051	Processing	Define your ability to notify disallowed originating worksites the reason they have been disallowed from entering requisitions including the vendor name, PO Number, Invoice number and status of invoice.	1 - NA / Not Supported	
AP052	Processing	Define your ability to allow multiple users to process against the same vendor number or Purchase Order number concurrently.	1 - NA / Not Supported	
AP053	Processing	Define your ability to allow invoices manually entered to go through a verification process prior to scheduling payment date.	1 - NA / Not Supported	
AP054	Processing	Define your ability to allow "reverse keying" for selected fields to test accuracy of input.	1 - NA / Not Supported	
AP055	Processing	Define your software's Recurring Invoice processing including but not limited to: • Set-up process • modification process • Approval process	1 - NA / Not Supported	
AP056	Processing	Define your ability to cancel/close/delete an invoice with a reason for non-payment and retaining the document in invoice history as well as the associated audit trail.	1 - NA / Not Supported	
AP057	Processing	Define your ability to make adjustments to Invoices/Payments after period is closed with associated audit trail.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Payable (AP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AP058	Processing	Define your ability to accept and reject imported files containing invoice and payment information with multiple distribution lines that are created outside of the AP module including but not limited to: • Utilities • Construction • Customer Refunds • Payroll Garnishments	1 - NA / Not Supported	
AP059	Processing	Define your ability to accept and reject imported files containing invoice and payment information with multiple distribution lines that are received using various EDI formats.	1 - NA / Not Supported	
AP060	Processing	Define your ability to close invoices with corresponding credits netting zero and indicate cross-referencing invoice numbers without requiring a check to be issued or a check cycle to be run.	1 - NA / Not Supported	
AP061	Processing	Define your ability to enabling business rules that systematically close/purge purchase orders for which invoices are not received subject to defined aging thresholds including notifying the vendor and Purchasing buyer in advance of the purchase order number and date.	1 - NA / Not Supported	
AP062	Processing	Define your ability in preventing the closing/deleting of Purchase Orders when an unpaid invoice references that Purchase Order Number.	1 - NA / Not Supported	
AP063	Payments	Define your ability to print checks from a central and multiple locations	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Payable (AP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AP064	Payments	Define your ability to pay multiple invoices with multiple distribution lines on a single check as well as on demand check based on user defined criteria including but not limited to: • Discount Due Date • Net Due Date • Payment entity and provide detail of invoices included in the remittance	1 - NA / Not Supported	
AP065	Payments	Define your ability to automatically update the history file with check information and the General Ledger, liquidating the associated encumbrances.	1 - NA / Not Supported	
AP066	Payments	Define your ability to process payments on multiple cycle's including but not limited to: • Daily • Twice Weekly • Weekly	1 - NA / Not Supported	
AP067	Payments	Define your ability to automatically calculate and record discount earned/discount lost and generate/schedule payment based on status.	1 - NA / Not Supported	
AP068	Payments	Define your ability to include/exclude specific invoices in pay cycle.	1 - NA / Not Supported	
AP069	Payments	Define your ability to partially pay an invoice, allowing payment of line items received rather than leaving the entire invoice open because some items were not received.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Payable (AP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AP070	Payments	Define your ability to allow authorized users to record voided and/or stop payment checks on-line • With automatic generation of the appropriate accounting entries • with updates to the positive pay file	1 - NA / Not Supported	
AP071	Payments	Define your ability to retain history of invoice payment when a check is voided or stop paid and verify whether a check was reissued to pay the invoice providing new check number and date.	1 - NA / Not Supported	
AP072	Payments	Describe your ability to systematically update status of invoices paid by ACH/wire transfers with bank transaction number, date etc..	1 - NA / Not Supported	
AP073	Payments	Define your ability to create Positive Pay File.	1 - NA / Not Supported	
AP074	Payments	Define your ability to create EDI Payment File.	1 - NA / Not Supported	
AP075	Payments	Define your ability to create EFT Payment Files.	1 - NA / Not Supported	
AP076	Payments	Define your ability to indicate/assign beginning check number by bank for: • a system generated check run • for on-demand check	1 - NA / Not Supported	
AP077	Payments	Define your ability to handle check overflow for: • a system generated check run • for on-demand check	1 - NA / Not Supported	
AP078	Payments	Define your ability to produce copies of checks.	1 - NA / Not Supported	
AP079	Payments	Define your ability to limit access to check printing process.	1 - NA / Not Supported	
AP080	Payments	Define your ability to utilize a signature cartridge or signature bitmap on a secured drive.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Payable (AP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AP081	Payments	Define your ability to generate: • Trial Check Register • Payment Register	1 - NA / Not Supported	
AP082	Accounting Functions	Define your software's AP Closing process for any given period based on items entered into the AP module including but not limited to: • Types of accruals created • Type of entries created to be feed into the general ledger • Balancing of Inter-company interfaces	1 - NA / Not Supported	
AP083	Accounting Functions	Define your ability to automatically liquidate associated encumbrances, encumber in one area and charge expenditure in another, as invoices are processed.	1 - NA / Not Supported	
AP084	Accounting Functions	Define your ability to designate the accounting period to which an invoice is to be posted to including but not limited to: • Ability to allow invoice entry for multiple accounting periods concurrently • Ability to hold posting even after invoice verification • Ability to capture justification comments and audit trail on invoice being un-posted	1 - NA / Not Supported	
AP085	Accounting Functions	Define your ability to automatically post Accounts Payable activities to the General Ledger in detail or summary.	1 - NA / Not Supported	
AP086	Accounting Functions	Define your ability to restrict entry of Accounts Payable activity without affecting the General Ledger period.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Payable (AP)

AP087	Accounting Functions	Define your ability to handle 1099s including but not limited to: • Ability to track and report 1099 Supplier as Self Employed, Partnerships, etc • Ability to identify which line items from a 1099 Supplier are 1099 applicable or exempt • Ability to process 1099 balance conversions • Ability to run 1099 reports centrally • Ability to report 1099s electronically or through magnetic media	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR001	Customer Master	Ability to define multiple customer addresses and parent/child location relationship/grouping in the customer master file, including the ability to identify duplicate customer numbers and the ability to determine which address prints on receipts, statements, invoices, refund checks and late charge/penalty charge notifications.	1 - NA / Not Supported	
AR002	Customer Master	Define your ability to accommodate information in the customer master file including, but not limited to: • Customer number • Customer Name • Multiple addresses • Multiple telephone/fax numbers • Email addresses • URLs • Contact names • Bill-To, Remit-From and bank information for electronic payments	1 - NA / Not Supported	
AR003	Customer Master	Define your ability to provide flexible customer search capabilities, including but not limited to: • Full or partial customer's name • Customer Number • Account Number • Wildcard searches	1 - NA / Not Supported	
AR004	Customer Master	Define your ability to cross-reference fields in the vendor and customer master files to link customer account numbers to vendor numbers (some customers may also be vendors).	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR005	Customer Master	Define your ability to: • Define customer credit limits at the customer level • Monitor customer balances versus credit limits • Place customers on credit hold as needed	1 - NA / Not Supported	
AR006	Customer Master	Define your ability to deactivate/reactivate • Customers • Customer accounts	1 - NA / Not Supported	
AR007	Customer Master	Define your ability to classify customers by user-defined classification codes.	1 - NA / Not Supported	
AR008	Customer Master	Define your ability to track and update address changes using unique identifiers including but not limited to: • Social security number • Driver's license	1 - NA / Not Supported	
AR009	Customer Master	Define your ability to utilize alphanumeric characters for customer numbers.	1 - NA / Not Supported	
AR010	Customer Master	Define your ability to auto generate: • Customer Master File Numbers • Invoice Numbers while ensuring that duplication does not occur.	1 - NA / Not Supported	
AR011	Customer Master	Define your ability to restrict access to add/modify/delete customer information.	1 - NA / Not Supported	
AR012	Customer Master	Define your ability to track additions/deletions/modifications to the customer master file with an audit trail (including operator ID, date, time, etc.).	1 - NA / Not Supported	
AR013	Customer Master	Define your ability to validate user-defined customer codes during online entry.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR014	Customer Master	Define your ability to archive Customers and customer accounts with option of retaining or purging history.	1 - NA / Not Supported	
AR015	Customer Master	Define your ability to flag customers who have previously issued a bad check.	1 - NA / Not Supported	
AR016	Customer Master	Define your ability to record a designated collections manager and/or key contact by account.	1 - NA / Not Supported	
AR017	Billing	Define your ability to generate invoices where no payment is required/expected - zero balance.	1 - NA / Not Supported	
AR018	Billing	Define your ability to track differences between amount billed and amount realized.	1 - NA / Not Supported	
AR019	Billing	Define your ability to attach optically imaged or electronic documentation to an invoice. Imaging repository will be in Legato 5.0.	1 - NA / Not Supported	
AR020	Billing	Define your ability to include various sources of funding for billing.	1 - NA / Not Supported	
AR021	Billing	Define your ability to link billing to various programs and projects.	1 - NA / Not Supported	
AR022	Billing	Define your ability to generate "request for payments" from grantors and cross referencing payment information to other agency information and project numbers.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR023	Billing	Define your ability to provide a customer portal/customer self-service including but not limited to: • Secure Access including automatic password resets • Restricting data available to customers • Ability to make payment via credit card • ad-hoc reporting with drill-down capabilities • Billing by fund • Billing by organization • Billing by Account • Billing by program	1 - NA / Not Supported	
AR024	Billing	Define your ability to create new open receivable items for unapplied credits and chargeback's.	1 - NA / Not Supported	
AR025	Billing	Define your ability to prevent an invoice from being entered twice into the system.	1 - NA / Not Supported	
AR026	Billing	Define your ability to enter receivable items including but not limited to: • Invoices • Credits memos • Debit memos online through manual entry as well as import receivables items electronically from the billing system.	1 - NA / Not Supported	
AR027	Billing	Define your ability to add credit memos that reduce receivable balances from the customer that include but not limited to: • Credit Memo Number • Credit Memo date • Invoice Number related to the credit • Credit Memo amount	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR028	Billing	Define your ability to calculate and bill customers retroactively from an adjustment that has been made after the event has taken place.	1 - NA / Not Supported	
AR029	Billing	Define your ability to allow users to manually add additional charges or deductions to customer invoice as needed.	1 - NA / Not Supported	
AR030	Billing	Define your software's review process prior to billing being generated/posted to customer accounts.	1 - NA / Not Supported	
AR031	Billing	Define your software's Recurring Invoice/Billing processing including but not limited to: • Set-up process • modification process • Approval process	1 - NA / Not Supported	
AR032	Billing	Define your ability to accommodate bar coding on invoices.	1 - NA / Not Supported	
AR033	Billing	Define your process for generating invoices: • Systematically • On Demand • Ready-To-Mail invoices prepared in accordance with governmental regulations	1 - NA / Not Supported	
AR034	Billing	Define your ability to cancel invoices and generate automatic reversal entries.	1 - NA / Not Supported	
AR035	Billing	Define your ability to capture expenditure data for billing purposes.	1 - NA / Not Supported	
AR036	Billing	Define your ability to: • Correct Invoices • Reprint Invoices • Generate a copy of an invoice	1 - NA / Not Supported	
AR037	Billing	Define your ability to generate invoices via electronic methods.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR038	Billing	Define your ability to future date invoices.	1 - NA / Not Supported	
AR039	Billing	Define your ability to include billing date range and/or period on invoices.	1 - NA / Not Supported	
AR040	Billing	Define your ability to include/exclude in billing data including but not limited to: • Data elements • Allowable charges • Overhead	1 - NA / Not Supported	
AR041	Billing	Define your ability to include/exclude different customers or customer groups in a billing cycle based on user-defined parameters.	1 - NA / Not Supported	
AR042	Billing	Define your ability to record relevant or customer communication regarding an invoice and store the communication data with the invoice record.	1 - NA / Not Supported	
AR043	Billing	Define your ability to record customer information including but not limited to: • Balance forward • Account activity • Balance due	1 - NA / Not Supported	
AR044	Billing	Define your ability to set up one time customers with minimal data entry.	1 - NA / Not Supported	
AR045	Billing	Define your ability to show the actual date that the invoice was entered into the system.	1 - NA / Not Supported	
AR046	Billing	Define your ability to split invoices between multiple funds.	1 - NA / Not Supported	
AR047	Cash Application	Define your ability to track payments through their processing cycle.	1 - NA / Not Supported	
AR048	Cash Application	Define you ability to allow users to define levels of approval authority for adjustments.	1 - NA / Not Supported	
AR049	Cash Application	Define your ability to use multiple bank accounts for deposit of cash receipts.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR050	Cash Application	Define your ability to record payment date, customer check number and check amount.	1 - NA / Not Supported	
AR051	Cash Application	Define your ability to allow users to apply payment receipts to multiple open items (invoices/debit memos) and define specific amounts for each.	1 - NA / Not Supported	
AR052	Cash Application	Define your ability to apply cash receipts to customer accounts (on-account payments) and support prepayment for future-dated invoices.	1 - NA / Not Supported	
AR053	Cash Application	Define your ability to handle cash receipts for items other than invoices (i.e., unapplied cash. Miscellaneous cash receipts and other GL accounts). This is sometimes referred to as direct journal entry and provides flexibility for handling/tracking of unidentified cash receipts that can be applied to customer accounts/invoices at a later time.	1 - NA / Not Supported	
AR054	Cash Application	Define your ability to reopen invoices/debit memos automatically when NSF Checks are received.	1 - NA / Not Supported	
AR055	Cash Application	Define your ability to support multiple reversals and collection processes for NSF checks.	1 - NA / Not Supported	
AR056	Cash Application	Define your ability to write-off a receivable amount at time of cash application based on partial payment received and invoice written off using predefined GL distribution codes.	1 - NA / Not Supported	
AR057	Cash Application	Define your ability to auto generate bank deposit slips.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR058	Cash Application	Define your ability to provide cash application functionality that allows users to match receipts through a graphical interface that gives flexibility to sort by user-defined criteria.	1 - NA / Not Supported	
AR059	Cash Application	Define your ability to search for specific payments and determine payment status including invoice(s) the payment was applied to.	1 - NA / Not Supported	
AR060	Cash Application	Define your ability for automated cash application to electronically match cash receipts to open items based on flexible user defined cash application rules.	1 - NA / Not Supported	
AR061	Cash Application	Define your ability to process single or partial payment against multiple invoices.	1 - NA / Not Supported	
AR062	Cash Application	Define your ability to search for the accounts and invoices affected by a payment.	1 - NA / Not Supported	
AR063	Cash Application	Define your ability to identify and handle a customer overpayment including but not limited to: • Carrying a credit balance • Generating a refund	1 - NA / Not Supported	
AR064	Cash Application	Define your payment options for payments by receivable including but not limited to: • Electronically • Phone • Credit Card • ACH/Wire Transfers	1 - NA / Not Supported	
AR065	Cash Application	Define your ability to receive/process multiple payments for an invoice.	1 - NA / Not Supported	
AR066	Cash Application	Define your ability to accept payments in advance.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR067	Cash Application	Define your ability to generate customer refunds.	1 - NA / Not Supported	
AR068	Cash Application	Define your ability to: • Apply charges to NSF Checks • Charge Credit Card Fees • Apply Late payment fees	1 - NA / Not Supported	
AR069	Cash Application	Define your ability to calculate and apply interest charges and penalties based on established due dates.	1 - NA / Not Supported	
AR070	Cash Application	Define your ability to automatically update revenues and receivables based upon receipts.	1 - NA / Not Supported	
AR071	Cash Application	Define your ability to change or waive the fee/receivable amount at specific security levels based on user-defined criteria.	1 - NA / Not Supported	
AR072	Cash Application	Define your ability to distribute cash receipt deposits out to the department/location level and have information accessible on a real-time basis.	1 - NA / Not Supported	
AR073	Cash Application	Define your ability to generate a customer receipt as well as an internal transaction tape for each transaction.	1 - NA / Not Supported	
AR074	Cash Application	Define your ability to generate and save multiple receipt types by department/location.	1 - NA / Not Supported	
AR075	Cash Application	Define your ability to systematically update status of invoices paid by ACH/wire transfers with bank transaction number, date etc.	1 - NA / Not Supported	
AR076	Cash Application	Define your ability to post cash receipts.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR077	Cash Application	Define your ability to process all adjustments/maintenance and have the updated data available real-time for purposes of aging, trial balance and subsidiary ledger.	1 - NA / Not Supported	
AR078	Cash Application	Define your ability to process split or mixed tendering situations.	1 - NA / Not Supported	
AR079	Cash Application	Define your ability to project cash flow of receipts based on historical data by account receivable type.	1 - NA / Not Supported	
AR080	Cash Application	Define your ability to record miscellaneous cash receipts not related to invoicing.	1 - NA / Not Supported	
AR081	Cash Application	Define your ability to receive multiple payment methods for payment of one invoice.	1 - NA / Not Supported	
AR082	Cash Application	Define your ability to suspend partial payments and over-payments as separate open items against the original bill amount until the bill is fully cleared.	1 - NA / Not Supported	
AR083	Cash Application	Describe your ability to generate individual receipts for payments. More so, do you have a point-of-sale module?	1 - NA / Not Supported	
AR084	Customer Master	Define your ability to enter cash receipt's from a central and multiple locations.	1 - NA / Not Supported	
AR085	Customer Master	Define your ability to enter reimbursements (cash received) into an expense account.	1 - NA / Not Supported	
AR086	Collections	Define your ability to integrate with Payroll to resolve employees with balances requiring collection.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR087	Collections	Define your ability to record and categorize notes/comments on customer accounts including but not limited to: • Capturing date/time, invoice reference, customer contact name and setting follow-up date • Send conversational follow-up letters to customers via hardcopy, fax or email These notes/comments should be accessible from the customer master file, cash application screens and collection screens	1 - NA / Not Supported	
AR088	Collections	Define your ability to sort and display accounts receivable in a prescribed aging format.	1 - NA / Not Supported	
AR089	Collections	Define your ability to review aging data online by fiscal year or a rolling period basis by invoice date or due date.	1 - NA / Not Supported	
AR090	Collections	Define your ability to store multiple user-defined dunning messages.	1 - NA / Not Supported	
AR091	Accounting Functions	Ability to refund customer credit balances from AR to AP through an automated refund process where the process is initiated in AR, system links customer account number to vendor number and generates payment for approval in AP.	1 - NA / Not Supported	
AR092	Accounting Functions	Define your ability to allocate bills by fund number.	1 - NA / Not Supported	
AR093	Accounting Functions	Define your ability to roll-up bills by fund number and other fields.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR094	Accounting Functions	Define your ability to • predefine GL accounting distribution codes to control default accounting entries with ability to manually specify accounting entries as needed • allow user to override the default general ledger account(s) by an authorized user	1 - NA / Not Supported	
AR095	Accounting Functions	Define your ability for setting conditions for writing off uncollectible receivables subject to different dollar thresholds.	1 - NA / Not Supported	
AR096	Accounting Functions	Define your ability to define transaction codes for receivable transactions including but not limited to: • Invoice • Credit Memos • Debit Memos	1 - NA / Not Supported	
AR097	Accounting Functions	Define your ability to define reason codes for: • Write-offs • Adjustments • Credit/debit Memos	1 - NA / Not Supported	
AR098	Accounting Functions	Define your ability to allow users to define and assign a variety of payment terms and assign default payment terms at the customer level.	1 - NA / Not Supported	
AR099	Accounting Functions	Define your ability to define aging buckets and generate aging reports which query for payments 30, 60, 90, etc. days late.	1 - NA / Not Supported	
AR100	Accounting Functions	Define your ability to allow users to define discount calculations when setting up payment terms and override discounts as needed during cash application.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR101	Accounting Functions	Define your ability to allow users to: • Define finance charges/late payment penalties/NSF penalties • Assign default finance charge codes at the customer level • Allow users to waive/remove finance charges	1 - NA / Not Supported	
AR102	Accounting Functions	Define your ability to age items from: • Transaction Date • Payment Due Date • User Defined Dates	1 - NA / Not Supported	
AR103	Accounting Functions	Define your ability to create multiple: • Payment schedules • Billing Cycles	1 - NA / Not Supported	
AR104	Accounting Functions	Define your ability to reverse a cash receipt entry creating the appropriate account entries.	1 - NA / Not Supported	
AR105	Accounting Functions	Define your ability to void issuance of a receipt through system security.	1 - NA / Not Supported	
AR106	On-Line Inquiry	Define your wildcard search capability through the system.	1 - NA / Not Supported	
AR107	On-Line Inquiry	Define your ability to move from screen to screen without having to re-enter key information.	1 - NA / Not Supported	
AR108	Process	Provide a list of your software's "out-of-the-box" AR Reports.	1 - NA / Not Supported	
AR109	Reporting	Define your software's report writer and ad-hoc query tools including support for multi-dimensional data analysis with drill down capability.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR110	Reporting	Define your ability to allow user defined online or hard copy reports utilizing ad-hoc query/reporting tool. Examples include but are not limited to: • Revenue received by department/location • Aging reports by district, department or location • Customers who have issued a bad check • Write-off's • Log of all receipt's with control totals	1 - NA / Not Supported	
AR111	Reporting	Define your ability to allow user defined online or hard copy reports utilizing ad-hoc query/reporting tool. Examples include but are not limited to: • Accrual reports • Close out report to be balanced with cash, checks etc. in the cashiers drawer • Billing by fund • Billing by organization • Billing by Account • Billing by program	1 - NA / Not Supported	
AR112	Reporting	Define your ability to allow user defined online or hard copy reports utilizing ad-hoc query/reporting tool. Examples include but are not limited to: • Total Credits • Total Write-offs • Total Receipts • Cash Receipts journal • Short Paid invoices • Over Paid invoices	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR113	Reporting	Define your ability to allow users to exclude selected items, i.e., credit memos, from customer statements, aging reports and dunning statements.	1 - NA / Not Supported	
AR114	Reporting	Define your ability to generate invoices and statements for all customers with open receivables balances.	1 - NA / Not Supported	
AR115	Reporting	Define your ability to report monthly receivables detail showing: • Credits • Write-off's • Payments • Invoices	1 - NA / Not Supported	
AR116	Reporting	Define ability to produce a daily accounts receivable control total with supporting details.	1 - NA / Not Supported	
AR117	Reporting	Define your ability to produce automatic dunning letters showing past due invoice amounts and generate aging reports of all past due invoices.	1 - NA / Not Supported	
AR118	Reporting	Define your ability to include dunning information on customer statements.	1 - NA / Not Supported	
AR119	Reporting	Define your ability to drill down to AR Summary and Detail from other modules including but not limited to: • General Ledger • Accounts Payable • Payroll • Cash/Treasury Management • Grants Management	1 - NA / Not Supported	
AR120	Reporting	Define your ability to estimate revenue.	1 - NA / Not Supported	
AR121	Reporting	Define your ability to accommodate and recognize: • Revenue earned and billed • Revenue earned and not billed	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR122	Reporting	Define your ability to age receivables in user-defined schedules including but not limited to: • Charge Types • Account • Customer type	1 - NA / Not Supported	
AR123	Reporting	Define your ability to generate grant reimbursement requests based on expenditures.	1 - NA / Not Supported	
AR124	Reporting	Define your ability to generate statements including but not limited to: • Specific Accounts • Customers • Delinquent account • Consolidating customers with multiple accounts	1 - NA / Not Supported	
AR125	Reporting	Define your ability to generate email notifications to: • Accounts Receivable staff • Customers providing information requiring follow-up with a customer based on date specific criteria	1 - NA / Not Supported	
AR126	Reporting	Define your ability to inquire online or provide hardcopy reporting of all accounts receivable activity and aging, including account's/customer's outstanding invoices/fees when receiving payments for any type of invoice/fee.	1 - NA / Not Supported	
AR127	Reporting	Define your ability to maintain detail of unbilled charges.	1 - NA / Not Supported	
AR128	Reporting	Define your ability to produce reconciliation statements for bank accounts.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR129	Reporting	Define your ability to produce reconciliation statements including but not limited to: • Beginning balance • Charges • Credits • Payments • New Balance	1 - NA / Not Supported	
AR130	Reporting	Define your ability to recognize/track revenue previously reported as deferred.	1 - NA / Not Supported	
AR131	Reporting	Define your ability to view next payment date by account/customer.	1 - NA / Not Supported	
AR132	Process	Define your ability to accommodate workflow.	1 - NA / Not Supported	
AR133	Process	Define your ability to track: • Transaction Date/Time, by step • Operator ID for additions/modifications/deletions	1 - NA / Not Supported	
AR134	Process	Define your ability to add/remove/modify entry screens.	1 - NA / Not Supported	
AR135	Process	Define your ability to add/remove/modify data fields.	1 - NA / Not Supported	
AR136	Process	Define your ability to drill down from any field within the accounts receivable module to any functional module within the system.	1 - NA / Not Supported	
AR137	Process	Define your ability to perform account validation for accounts receivable payments.	1 - NA / Not Supported	
AR138	Process	Define your ability to require a valid operator code in order to process a receipt.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Accounts Receivable (AR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
AR139	Process	Define your ability to secure registers at various levels (i.e., clerk, manager) depending on the function being performed.	1 - NA / Not Supported	
AR140	Process	Define your ability to support multiple point of sales interfaces for cash receipting to the Treasurer.	1 - NA / Not Supported	
AR141	Process	Describe the A/R interface or integration with a cash management module and/or treasury workstation bolt-on system (ex. Sunguard ICMS).	1 - NA / Not Supported	
AR142	Process	Describe the A/R interface or integration with a grants management module.	1 - NA / Not Supported	
AR143	Billing	Ability to record and utilize the agreement (contract) information for billing criteria. The image of the agreement must be referenced and accessible for viewing/printing.	1 - NA / Not Supported	
AR144	Collections	Ability to identify accounts sent to collection agencies.	1 - NA / Not Supported	
AR145	Reporting	Ability to allow for on-line inquiry and hard copy reporting of all Accounts Receivable by fund, organization, account and program.	1 - NA / Not Supported	
AR146	Process	Define your ability to integrate or interface with other modules including but not limited to: • General Ledger • Accounts Payable • Payroll • Cash/Treasury Management • Grants Management	1 - NA / Not Supported	

Miami-Dade County Public Schools: Business Performance Reporting (BPR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
BPR001	Modify or Setup Reports	Ability to create user-defined reports.	1 - NA / Not Supported	
BPR002	Modify or Setup Reports	Ability to "drill down" on key performance indicators.	1 - NA / Not Supported	
BPR003	Modify or Setup Reports	Allows for the development of unlimited, diverse reports in spreadsheet formats by business users with a drag-and-drop graphical user interface (GUI) for report building. Should be able to provide highly formatted production quality reports.	1 - NA / Not Supported	
BPR004	Modify or Setup Reports	Allows hierarchical and multi-dimensional reporting and drill down capabilities based upon user-defined characteristics.	1 - NA / Not Supported	
BPR005	Modify or Setup Reports	Ability to include a business data dictionary to provide consistent definitions for terms, levels of detail, formulas and golden sources.	1 - NA / Not Supported	
BPR006	Modify or Setup Reports	Ability to include a central repository for information storage with easy access to data/metadata (accounts cost centers, hierarchies, attributes, business intelligence). This includes holding actual data and multiple versions of plan data.	1 - NA / Not Supported	
BPR007	Modify or Setup Reports	Ability to accept extracted data from external sources (enable inputs from various systems). Ability to export data.	1 - NA / Not Supported	
BPR008	Modify or Setup Reports	Ability to develop and produce new FORMS for users to collect data not currently residing in any system. Also includes the ability to modify existing schedules.	1 - NA / Not Supported	
BPR009	Modify or Setup Reports	Allow business rules to apply to specific DIMENSIONAL entities only (not all entities).	1 - NA / Not Supported	

Miami-Dade County Public Schools: Business Performance Reporting (BPR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
BPR010	Modify or Setup Reports	Ability to control what data is accessed (ROLE-level security).	1 - NA / Not Supported	
BPR011	Publish Report	Allows for pre-defined and conditional based formatting (color coding).	1 - NA / Not Supported	
BPR012	Modify or Setup Reports	Allows for variance reporting.	1 - NA / Not Supported	
BPR013	Modify or Setup Reports	Capability to disseminate and receive information via Portals or Internet/Intranet/Extranet.	1 - NA / Not Supported	
BPR014	Publish Report	Workflow management capabilities (includes process monitoring, hierarchical review, annotation capabilities, up-to-date status of submissions, color coded icons, email links, easy accept/reject ability, etc..).	1 - NA / Not Supported	
BPR015	Publish Report	Central repository for information storage with easy access to data/metadata (accounts cost centers, hierarchies, attributes, business intelligence). This includes holding actual data and multiple versions of plan data., as well as non-financial data.	1 - NA / Not Supported	
BPR016	Performance Driver Analysis	Allows for explicit (mathematical) and implicit (explanatory) drilldown to provide analysis capability.	1 - NA / Not Supported	
BPR017	Performance Driver Analysis	Provide data mining capabilities for root cause analysis.	1 - NA / Not Supported	
BPR018	Performance Driver Analysis	Ability to perform attribute driven analysis.	1 - NA / Not Supported	
BPR019	Performance Driver Analysis	Ability to create personal ad-hoc reports and schedules.	1 - NA / Not Supported	
BPR020	Performance Driver Analysis	Ability to develop and produce new schedules for users to collect data not currently residing in any system. Also includes the ability to modify existing schedules.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Business Performance Reporting (BPR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
BPR021	General	Ability to provide systems training.	1 - NA / Not Supported	
BPR022	General	Ability to report on multiple periods, spanning multiple financial years.	1 - NA / Not Supported	
BPR023	General	Ability to remove reports that are not used.	1 - NA / Not Supported	
BPR024	General	Ability to establish user-defined reporting periods.		
BPR025	General	Ability to produce user-generated ad hoc reports.	1 - NA / Not Supported	
BPR026	General	Ability to communicate with online applications.	1 - NA / Not Supported	
BPR027	General	Ability to review and approve workflow.	1 - NA / Not Supported	
BPR028	General	Ability to align Key Performance Indicators (KPIs) and the Strategic Plan at all levels of the organization, including at the top with the Superintendent's KPIs.	1 - NA / Not Supported	
BPR029	General	Ability to provide fund, encumbrance and allotment transparency.	1 - NA / Not Supported	
BPR030	General	Ability to produce and work with multiple and comparable budget cycles with period flexibility spanning multiple years.	1 - NA / Not Supported	
BPR031	General	Ability to track and report on historical budget data associated with reorganizations and resolutions.	1 - NA / Not Supported	
BPR032	General	Ability to meet Federal, State and Local reporting requirements.	1 - NA / Not Supported	
BPR033	Consolidate Forecasts	Ability to provide high-level summary graphics and narrative of the financial translation of Ops plan.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Capital Planning (CP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CP001	Develop Models Translating Op Plans to Fin Plans	Ability to do Line-Item budgeting. Ability to associate a calculation method with each budget line item.	1 - NA / Not Supported	
CP002	Develop Models Translating Op Plans to Fin Plans	Ability to pre-populate (seed) the base case capital budget with historical or future measures and/or drivers, including factors such as overhead, maintenance, debt service, and inflation.	1 - NA / Not Supported	
CP003	Develop Models Translating Op Plans to Fin Plans	Ability to do Asset-level budgeting - including: 1) add assets to budget, 2) search for existing assets, 3) perform queries and download asset-related data.	1 - NA / Not Supported	
CP004	Develop Models Translating Op Plans to Fin Plans	Ability to pre-populate historical and future depreciation amounts into base budget.	1 - NA / Not Supported	
CP005	Compare Outcome to Op/Fin Plan Targets Provided at Start	Ability to run reports at all levels of the hierarchy and for types of analysis including Budget vs. Target and Version Analysis. Describe capability to report what if scenarios ability of users to generate reports on demand with data access limited by role.	1 - NA / Not Supported	
CP006	Compare Outcome to Op/Fin Plan Targets Provided at Start	Ability to drill-down for reporting and analysis.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Capital Planning (CP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CP007	Compare Outcome to Op/Fin Plan Targets Provided at Start	Ability to compare budgets against planned targets - within application.	1 - NA / Not Supported	
CP008	Compare Outcome to Op/Fin Plan Targets Provided at Start	Ability to inquire on budget data within application - including the ability to 1) download to an Excel format, 2) compare line-item budgets within a version, compare budget versions, and compare budgets by budget period.	1 - NA / Not Supported	
CP009	Compare Outcome to Op/Fin Plan Targets Provided at Start	Ability to provide commentary on variances between budget and planned targets.	1 - NA / Not Supported	
CP010	Consolidate Budgets	Ability to automatically consolidate/aggregate individual budget components.	1 - NA / Not Supported	
CP011	Consolidate Budgets	Ability to run reports detailing high-level view of budget versus target.	1 - NA / Not Supported	
CP012	Consolidate Budgets	Ability to drill-down and drill-through from high-level report into lower levels of detail.	1 - NA / Not Supported	
CP013	Capital Planning	Ability to electronically approve capital budgets. Budget reviewer/approver should have the ability to: 1) modify, 2) apply mass adjustments, 3) reject, 4) and allocate line-item budgets.	1 - NA / Not Supported	
CP014	Readjust Tactics & Rerun Models	Ability to copy existing budget models.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Capital Planning (CP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CP015	Readjust Tactics & Rerun Models	Ability to update budget models.	1 - NA / Not Supported	
CP016	Capital Planning	Ability to export budget data to central repository - to make available for use by other applications/reporting solutions. Also describe ability to retrieve historical data and archiving capability.	1 - NA / Not Supported	
CP017	Review Budget Guidelines	Identify budgets users.	1 - NA / Not Supported	
CP018	Run Models w/ Selected Scenario & Op Plans	Ability to 'check out' a budget for processing.	1 - NA / Not Supported	
CP019	Scan Internal Environment	Ability to review key performance indicators, trends and performance to plan over the last year.	1 - NA / Not Supported	
CP020	Run Models w/ Selected Scenario & Op Plans	Ability to send a user communication/update on a specific budget activity from within application.	1 - NA / Not Supported	
CP021	Review Budget Guidelines	Define and communicate budget guidelines.	1 - NA / Not Supported	
CP022	Review Budget Guidelines	Define data integration requirements and data sources - including GL, HR, A/P, Payroll, Assets and other related ERP modules.	1 - NA / Not Supported	
CP023	Review Budget Guidelines	Describe Web-based application interface.	1 - NA / Not Supported	
CP024	Run Models w/ Selected Scenario & Op Plans	Ability to submit and Reject capital budget planning versions.	1 - NA / Not Supported	
CP025	Scan External Environment	Ability to compare internal key performance indicators and trends- versus competitive analysis/data.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Capital Planning (CP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CP026	Review Budget Guidelines	Define budget assumptions (i.e., targets for measures and/or drivers).	1 - NA / Not Supported	
CP027	Run Models w/ Selected Scenario & Op Plans	Ability to make mass adjustments to line item details.	1 - NA / Not Supported	
CP028	Review Budget Guidelines	Define capital budgeting roles - including Budget Coordinator, Budget Analyst, Budget Preparer, Budget Reviewer, and System Administrator.	1 - NA / Not Supported	
CP029	Run Models w/ Selected Scenario & Op Plans	Ability to override 'seeded' or calculated values.	1 - NA / Not Supported	
CP030	Scan External Environment	Describe ability to accept extracted data from external sources (enable inputs from various systems).	1 - NA / Not Supported	
CP031	Review Budget Guidelines	Assign users to Roles, Business Units, Budget Activities and Budget Centers.	1 - NA / Not Supported	
CP032	Run Models w/ Selected Scenario & Op Plans	Ability to add notes to individual line items.	1 - NA / Not Supported	
CP033	Scan Internal Environment	Allows hierarchical and multi-dimensional reporting and drill down/through capabilities based upon user-defined characteristics.	1 - NA / Not Supported	
CP034	Scan Internal Environment	Existence of a central data repository (accounts, cost centers, hierarchies, attributes, historical/current financial results, business intelligence).	1 - NA / Not Supported	
CP035	Run Models w/ Selected Scenario & Op Plans	Ability to have multiple working versions of budget.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Capital Planning (CP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CP036	Review Budget Guidelines	Forecasting application integrated with Budgeting application.	1 - NA / Not Supported	
CP037	Review Budget Guidelines	Define budgeting status update procedures.	1 - NA / Not Supported	
CP038	Review Budget Guidelines	Define budget functions for each role.	1 - NA / Not Supported	
CP039	Capital Planning	Describe system's workflow capability to coordinate capital planning process between Facilities Planning, Facilities Budgeting, Capital Budgeting, Treasury, and Accounting.	1 - NA / Not Supported	
CP040	Capital Planning	Describe scheduling capability such as ability to establish a calendar of Due Dates for Deliverables and Milestones.	1 - NA / Not Supported	
CP041	Capital Planning	Ability to provide end to end Capital project planning, execution, accounting and completion. Describe any Grants Modules and Project Accounting Modules that may be applicable for the end to end process.	1 - NA / Not Supported	
CP042	Capital Planning	Ability to incorporate Workflow with Roles and Responsibilities - including Audit Trails and project priorities.	1 - NA / Not Supported	
CP043	Capital Planning	Ability to incorporate On-Line Capital Planning, Grants/Fund management and Project accounting help.	1 - NA / Not Supported	
CP044	Capital Planning	Ability to Register, access and report upon all Capital Planning, Grants/Fund Management and Project Accounting	1 - NA / Not Supported	
CP045	Capital Planning	Ability to perform Capital Planning (Capital Budgeting) over multiple fiscal years and funding sources.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Capital Planning (CP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CP046	Capital Planning	Ability to project cash flow and comparison to Actuals for project management, funding of projects, timing of debt, and investment of proceeds.	1 - NA / Not Supported	
CP047	Capital Planning	Describe project's cash flow interface with Cash Management module or Treasury Workstation.	1 - NA / Not Supported	
CP048	Capital Planning	Ability to track and manage construction in progress by project (location, depreciation etc.) for all project related assets.	1 - NA / Not Supported	
CP049	Capital Planning	Ability to process work orders (Workflow).	1 - NA / Not Supported	
CP050	Capital Planning	Ability to allocate unique project numbers that can be identified for all project related transaction through capital planning, project accounting, resource usage etc.	1 - NA / Not Supported	
CP051	Capital Planning	Describe ability to tie in to District's Strategic Plan and prioritization schedule, including capability to list funded vs. unfunded projects (above/below the line).	1 - NA / Not Supported	
CP052	Capital Planning	Describe how your capital planning software supports integration with GL, Budgeting, and 5-Year Plan (Budget), including the following: 1. GL module capability to access to GL data over the life of projects, which may span several fiscal years. 2. GL module capability to provide job/project cost control features. Also, provide phase detail within a job or project.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Capital Planning (CP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CP053	Capital Planning	Describe how your software integrates with AP and tracks PO's/invoices over the life of the project.	1 - NA / Not Supported	
CP054	Capital Planning	Describe how your software integrates with Purchasing. 1. Purchasing module's capability to track vendor info relative to construction purchasing applications. Also, describe construction purchasing features. 2. Provide ability to track contractor selection and procurement through entire process.	1 - NA / Not Supported	
CP055	Capital Planning	Describe how the capital planning and project tracking software integrates with Fixed Assets.	1 - NA / Not Supported	
CP056	Capital Planning	Describe how your software can interface with bolt-on project management systems such as Primavera and Magellan.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Capital Planning (CP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CP057	Capital Planning	Describe how your software's Project master data file supports tracking the following key data elements: 1. Project Name 2. Project Address 3. Contractor/Subcontractor(s) - MWBE flagging at all levels 4. Reference Information 5. Planned/Actual Start Dates (track by phase) 6. Additional User-Defined Dates ("Notice to Proceed") 7. Project Description 8. Square Footage 9. Student Stations 10. Digitized Photographs 11. User-Defined category codes to identify project type (e.g., new construction, remodeling, codes for work order tracking for projects shared with the Maintenance Dept.) or specific source of revenue that may fund project.	1 - NA / Not Supported	
CP058	Run Models w/ Selected Scenario & Op Plans	Describe your software's capabilities for maintaining a detailed project chart of accounts to track: labor, material, overhead items by cost types (i.e., architect fees), building, parking lot, administrative etc.	1 - NA / Not Supported	
CP059	Run Models w/ Selected Scenario & Op Plans	Describe your software's capabilities for providing current period, cumulative current year, and inception-to-date inquiry and reporting for project budget and expenditures across fiscal years/accounting periods.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Capital Planning (CP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CP060	Run Models w/ Selected Scenario & Op Plans	Describe your software's capabilities for performing funds availability checks at the project level for purchases and by account line item for projects.	1 - NA / Not Supported	
CP061	Capital Planning	Describe your software's capabilities for rolling forward encumbrances to the next fiscal year by specified fund group or other account strip criteria.	1 - NA / Not Supported	
CP062	Capital Planning	Describe your software's ability to roll forward budget amounts into the next fiscal year.	1 - NA / Not Supported	
CP063	Run Models w/ Selected Scenario & Op Plans	Describe how your software tracks productivity and improvement metrics (with historical data) including the ability to perform "what-if" analyses.	1 - NA / Not Supported	
CP064	Run Models w/ Selected Scenario & Op Plans	Describe your software's capabilities for providing custom reporting at the following levels: 1. Active/inactive projects 2. Projects grouped by project manager/admin 3. Project types (i.e., new construction, renovation, etc.)	1 - NA / Not Supported	
CP065	Capital Planning	Describe how your software can be used to allocate internal costs over multiple projects.	1 - NA / Not Supported	
CP066	Capital Planning	Describe your software's ability to track multiple Fund sources per Project.	1 - NA / Not Supported	
CP067	Capital Planning	Describe your software's ability to tie-in project information on construction activities to the Capital Improvement Plan (status on construction contracts).	1 - NA / Not Supported	

Miami-Dade County Public Schools: Capital Planning (CP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CP068	Run Models w/ Selected Scenario & Op Plans	Describe your software's ability to track savings, including sales tax saved by purchasing project materials thru the District instead of by the contractor.	1 - NA / Not Supported	
CP069	Run Models w/ Selected Scenario & Op Plans	Describe how your software supports the ability to record estimates and maintain a history of changes by contractor and project.	1 - NA / Not Supported	
CP070	Scan Internal Environment	Describe how your software can be used to track retainage by project phase.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Cash & Capital Management (CCM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CCM001	Bank Account Maintenance and Integration	Ability to manage all bank accounts. Specifically, what is the max number of banks and bank accounts which can be managed through your system?	1 - NA / Not Supported	
CCM002	Bank Account Maintenance and Integration	Ability to support multiple accounts for a single bank.	1 - NA / Not Supported	
CCM003	Bank Account Maintenance and Integration	Maintain multiple payment methods for a single bank.	1 - NA / Not Supported	
CCM004	Bank Account Maintenance and Integration	Restrict access to update bank account information based on roles within treasury organization.	1 - NA / Not Supported	
CCM005	Bank Account Maintenance and Integration	Initiate wire transfers, EFT and ACH transactions directly from cash management application. Also, is there capability to turn off this functionality?	1 - NA / Not Supported	
CCM006	Bank Account Maintenance and Integration	Integration via secure access to bank systems.	1 - NA / Not Supported	
CCM007	Bank Account Maintenance and Integration	Maintain both internal and external bank account information.	1 - NA / Not Supported	
CCM008	Bank Account Maintenance and Integration	Maintain fee structures.	1 - NA / Not Supported	
CCM009	Bank Account Maintenance and Integration	Maintain settlement instructions for each bank.	1 - NA / Not Supported	
CCM010	Bank Account Maintenance and Integration	Record bank ratings and other analysis information.	1 - NA / Not Supported	
CCM011	Bank Account Maintenance and Integration	Account analysis function supporting bank fee comparisons and analysis of bank statement costs.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Cash & Capital Management (CCM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CCM012	Bank Integration	Ability to set up new bank account.	1 - NA / Not Supported	
CCM013	Bank Integration	Communication software allows dial-in to a individual financial institution. The system utilizes script files to retrieve/transfer the required information . Ability to store retrieved data.	1 - NA / Not Supported	
CCM014	Bank Integration	Ability to interface with and transfer files to/from multiple financial institutions.	1 - NA / Not Supported	
CCM015	Bank Integration	Automated balance and transaction reporting. Ability to download, store and report on balance and transaction details - electronic bank statement by bank account and date.	1 - NA / Not Supported	
CCM016	Bank Integration	Ability to transmit Issued payment check files to the bank directly from A/P and Payroll system or through Communication software - electronic payment system (EFT).	1 - NA / Not Supported	
CCM017	Bank Integration	Describe ability to dial-out and retrieve Cleared -realized payments with parsing by bank account. Does the system has ability to upload the file to the AP and Payroll systems?	1 - NA / Not Supported	
CCM018	Bank Integration	Ability to download, store, and report on balance and transaction details.	1 - NA / Not Supported	
CCM019	Bank Integration	Describe ACH capability, including discussion of file encryption occurring at the source.	1 - NA / Not Supported	
CCM020	Bank Integration	Ability to interface with bank files to view cleared check images, voided checks, etc.	1 - NA / Not Supported	
CCM021	Cash Forecasting	Ability to generate short and long-term cash forecasts.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Cash & Capital Management (CCM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CCM022	Cash Forecasting	Creation of a Bank Cash Flow schedule forecast including: Cash from Operations for X weeks. Transaction detail from designated accounts in the bank data table would auto populate this field with drill-down capabilities providing amount, date, account number, payer/payee, etc.	1 - NA / Not Supported	
CCM023	Cash Forecasting	Creation of a Bank Cash Flow schedule of actuality including Cash from Operation with drill down to the amounts, dates, account no, payer / payee, etc.	1 - NA / Not Supported	
CCM024	Cash Forecasting	Creation of a Bank Cash Flow schedule forecast including: Acquisitions, Investments, Sales and Dispositions. Information could be entered manually or pulled from other schedule and could be run by Cash Management Department or other functions.	1 - NA / Not Supported	
CCM025	Cash Forecasting	Describe ability and functionality around grouping of transaction types for cash forecast reporting.	1 - NA / Not Supported	
CCM026	Cash Forecasting	Define capabilities for entering forecasting transactions that affect multiple accounts, including in-house bank accounts.	1 - NA / Not Supported	
CCM027	Cash Forecasting	Describe reporting and reconciling capabilities from forecast to Actuals.	1 - NA / Not Supported	
CCM028	Cash Position and Settlements	Ability to define automatic, semi-manual, or manual reconciliation for each bank.	1 - NA / Not Supported	
CCM029	Cash Position and Settlements	Ability to initiate bank account fund transfers from cash management system.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Cash & Capital Management (CCM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CCM030	Cash Position and Settlements	Ability to manage cash position based on organizational structure.	1 - NA / Not Supported	
CCM031	Cash Position and Settlements	Describe ability to manually adjust daily cash position.	1 - NA / Not Supported	
CCM032	Cash Position and Settlements	Ability to prepare statistical cash forecasts.	1 - NA / Not Supported	
CCM033	Cash Position and Settlements	Ability to view detailed transactions that comprise each accounting entry from cash application.	1 - NA / Not Supported	
CCM034	Cash Position and Settlements	Actual vs. Forecast cash reports.	1 - NA / Not Supported	
CCM035	Cash Position and Settlements	Automated calculation of daily cash position.	1 - NA / Not Supported	
CCM036	Cash Position and Settlements	Bank Fees incorporated into cash forecasts.	1 - NA / Not Supported	
CCM037	Cash Position and Settlements	Calculate interest accruals.	1 - NA / Not Supported	
CCM038	Cash Position and Settlements	Describe capability to generate daily cash position, automatically created based on data received from integrated systems.	1 - NA / Not Supported	
CCM039	Cash Position and Settlements	Debt and investment instruments data integrated with cash forecast/position.	1 - NA / Not Supported	
CCM040	Cash Position and Settlements	Define components of cash positions to support analysis of cash that is available at a particular time.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Cash & Capital Management (CCM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CCM041	Cash Position and Settlements	Manage in-house banking transactions including calculating interest accruals and creating in-house bank statements.	1 - NA / Not Supported	
CCM042	Cash Position and Settlements	Select cash flows to net that result from deal transactions.	1 - NA / Not Supported	
CCM043	Cash Position and Settlements	Generate interest schedules.	1 - NA / Not Supported	
CCM044	Cash Position and Settlements	Letters of Credit are integrated with cash management system and incorporated into cash forecast.	1 - NA / Not Supported	
CCM045	Cash Position and Settlements	Maintain multiple cash forecasts models.	1 - NA / Not Supported	
CCM046	Cash Position and Settlements	Maintain role based security for all treasury and cash applications.	1 - NA / Not Supported	
CCM047	Cash Position and Settlements	Record all bank accounts and related information.	1 - NA / Not Supported	
CCM048	Cash Position and Settlements	Settlement transactions automatically triggered.	1 - NA / Not Supported	
CCM049	Cash Position and Settlements	Summary accounting entries automatically created and interfaced to General Ledger daily.	1 - NA / Not Supported	
CCM050	Cash Position and Settlements	View historic cash forecast data.	1 - NA / Not Supported	
CCM051	Cash Position and Settlements	Web, EFT and ACH technology utilized for disbursements.	1 - NA / Not Supported	
CCM052	Cash Position and Settlements	Web, EFT and ACH technology utilized for receipts.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Cash & Capital Management (CCM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CCM053	Cash Position and Settlements	Interest calculations incorporated into daily cash forecasts.	1 - NA / Not Supported	
CCM054	Cash Position Worksheet	Describe process to track cash transactions.	1 - NA / Not Supported	
CCM055	Cash Position Worksheet	Drilldown from cash position to sub ledgers for supporting details.	1 - NA / Not Supported	
CCM056	Cash Position Worksheet	Visible daily cash position.	1 - NA / Not Supported	
CCM057	Cash Position Worksheet	Cash management system integrated with cash forecasting system.	1 - NA / Not Supported	
CCM058	Cash Position Worksheet	Ability to populate prior day balance details for various bank accounts from data that has been downloaded from banks.	1 - NA / Not Supported	
CCM059	Cash Position Worksheet	Ability for credits from current day bank account reports to auto populate this worksheet/form. Need to be able to identify credits by bank account, date, vendor and type.	1 - NA / Not Supported	
CCM060	Cash Position Worksheet	Ability for debits from current day bank account reports to auto populate this worksheet/form. Need to be able to identify debits by bank account, date, vendor and type.	1 - NA / Not Supported	
CCM061	Cash Position Worksheet	Capability to auto populate fields from other areas (i.e., investment and debt maturities, daily EFTs, etc) that are integrated with system.	1 - NA / Not Supported	
CCM062	Cash Position Worksheet	Manual debit/credit and description entries can be made to the Cash Position Worksheet.	1 - NA / Not Supported	
CCM063	Cash Position Worksheet	Ability for worksheet/form to calculate an ending balance based on the entries.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Cash & Capital Management (CCM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CCM064	Cash Position Worksheet	Worksheet/form should have a target balance field that can be manually changed. This will be subtracted from the calculated ending balance giving a remaining available balance to prevent overdrafts .	1 - NA / Not Supported	
CCM065	Cash Position Worksheet	Describe capability for ending balance (upon completion and approval of worksheet/form) to trigger a wire transfer process of excess funds.	1 - NA / Not Supported	
CCM066	Cash Position Worksheet	Ability to perform As-of reporting for Cash Position. Capability to view Cash Position as of a certain date in the past, and for the values not to change.	1 - NA / Not Supported	
CCM067	Cash Position Worksheet	Ability to view reconciled as-of reporting for Cash Position. E.g. view previous day's Cash Position along with the expected items occurred and what the dollar difference was from the anticipated amounts - view of only exceptions to be included.	1 - NA / Not Supported	
CCM068	General	Describe system's client access for remote and intranet based users.	1 - NA / Not Supported	
CCM069	General	Ability to restrict inquiry or entry, etc. access to information by company, bank account, type of transaction. Primary restriction would be by Company (Fund)	1 - NA / Not Supported	
CCM070	General	Describe ability to grant various levels of access (security) by type of user and location.	1 - NA / Not Supported	
CCM071	General	Handle milestone payments, like payments for capital investments/debt.	1 - NA / Not Supported	
CCM072	General	Describe capability to handle Positive Pay.	1 - NA / Not Supported	
CCM073	General	Handle electronic payments with suppliers.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Cash & Capital Management (CCM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CCM074	General	Describe Integration between Cash Management and AP, AR, Payroll, General Ledger modules.	1 - NA / Not Supported	
CCM075	General	Ability to perform Treasury Workstation tasks. Describe in detail, your system's abilities as compared to SunGard ICMS.	1 - NA / Not Supported	
CCM076	General	Describe cash receipt integration ability with Grants and Accounts Receivable modules.	1 - NA / Not Supported	
CCM077	Info Reporting & Account Analysis	Ability to run daily ad hoc inquiries/reports based on the bank data tables.	1 - NA / Not Supported	
CCM078	Info Reporting & Account Analysis	Ability to export daily ad hoc inquiries/reports based on the bank data tables to Excel or other subsystems.	1 - NA / Not Supported	
CCM079	Info Reporting & Account Analysis	Ability to create prior and current day reports on individual bank accounts. Includes ledger balance, collected balance, available balance, float, total debits, total credits, individual credits, individual debits and all text included with the transactions.	1 - NA / Not Supported	
CCM080	Info Reporting & Account Analysis	Ability to create monthly reports on individual bank accounts. Includes ledger balance, collected balance, available balance, float, total debits, total credits, individual credits, individual debits and all text included with the transactions.	1 - NA / Not Supported	
CCM081	Info Reporting & Account Analysis	Ability to archive and access all account activity related to the bank integration.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Cash & Capital Management (CCM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CCM082	Info Reporting & Account Analysis	Ability to create Wire Transfer Reports (all wires entered into the transfer template) and Wire Confirmation Reports (date, amount, beneficiary, ref no, ref text)	1 - NA / Not Supported	
CCM083	Info Reporting & Account Analysis	Capability to store images.	1 - NA / Not Supported	
CCM084	Info Reporting & Account Analysis	Ability to easily compile data on individual bank accounts. Would like to be able to run a query on any field in the bank data table for ad hoc reporting like but not limited to : statistics on number of transfers for a given period or calculation of the average daily collected balance for given period.	1 - NA / Not Supported	
CCM085	Info Reporting & Account Analysis	Describe ability to manage GASB 31 and GASB 40 requirements, and any further GASB pronouncements.	1 - NA / Not Supported	
CCM086	Info Reporting & Account Analysis	Describe ability to report portfolio and other metrics. Are scorecards and/or dashboards available?	1 - NA / Not Supported	
CCM087	Info Reporting & Account Analysis	Describe capability for audit trail reporting	1 - NA / Not Supported	
CCM088	Info Reporting & Account Analysis	Describe how each in-house bank participant's daily balance is determined.	1 - NA / Not Supported	
CCM089	Info Reporting & Account Analysis	Describe how each in-house bank participant's average balance is determined.	1 - NA / Not Supported	
CCM090	Info Reporting & Account Analysis	Describe how interest is apportioned to each in-house bank participant.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Cash & Capital Management (CCM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CCM091	Investment and Debt	Ability to store Investment and Debt instruments, including deal terms, conditions, maturity amounts, interest and special features. Ability to manually enter and auto populate the investment tables with prior month data, formulas, data from other worksheets.	1 - NA / Not Supported	
CCM092	Investment and Debt	Ability for overnight investment details to be retrieved from the bank transaction table and populate automatically.	1 - NA / Not Supported	
CCM093	Investment and Debt	Ability to generate investment schedules (i.e., maturity) YTD	1 - NA / Not Supported	
CCM094	Investment and Debt	Describe interface capability with outside files, such as excel, and upload/download process.	1 - NA / Not Supported	
CCM095	Investment and Debt	Ability to automatically notify personnel when investment strategy is out of tolerance with guidelines	1 - NA / Not Supported	
CCM096	Investment and Debt	Ability to apportion interest or fees across entities included in In-House banking system?	1 - NA / Not Supported	
CCM097	Investment and Debt	Describe how interest earnings determined in the Investment Management Module will interface with the Pool/In-House Bank Module or if applicable with Cash Management and Forecasting Module for interest apportionment purposes.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Cash & Capital Management (CCM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CCM098	Investment and Debt	Capability to support the accounting for all the investment types listed below in addition to those permitted by statute or regulation. Describe in detail how each investment is accounted for and list all other investments supported. Include any formulas and rounding conventions used to calculate interest & amortization for each investment type. Also describe how new investment types would be added.	1 - NA / Not Supported

CCM141	Investment and Debt	Book Value	1 - NA / Not Supported	
CCM142	Investment and Debt	Describe field formats, length of fields, and limitations as to the number of fields provided by proposed system for the above noted fields.	1 - NA / Not Supported	
CCM143	Investment and Debt	Capability to account for all purchases, full sales, partial sales, and calls of securities. Describe in detail each process.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Cash & Capital Management (CCM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CCM144	Investment and Debt	Does the Investment Management Module recognize different amortization and compounding conventions? Identify and explain any restrictions.	1 - NA / Not Supported	
CCM145	Investment and Debt	Capability to account for variable rate securities such as money market mutual funds. Describe in detail this process.	1 - NA / Not Supported	
CCM146	Investment and Debt	Capability to account for uneven cash flow schedules. Describe in detail this process.	1 - NA / Not Supported	
CCM147	Investment and Debt	Capability to account for all interest and dividend receipts. Describe in detail this process.	1 - NA / Not Supported	
CCM148	Investment and Debt	Capability to calculate earnings accruals and amortization of premiums and discounts. Describe in detail this process and include any formulas and rounding conventions used.	1 - NA / Not Supported	
CCM149	Investment and Debt	Capability to provide maturity and interest receipts schedules. Describe in detail this process. Does the system include a holiday calendar table and compare maturity dates to the table? How are notifications handled?	1 - NA / Not Supported	
CCM150	Investment and Debt	Capability to handle multiple investment portfolios and allow for the flexibility to group/consolidate separate portfolios. Describe in detail this process.	1 - NA / Not Supported	
CCM151	Investment and Debt	Capability to reconcile investments included in a portfolio to the Statement of Assets Held reported by the Custodial Banks from information provided via Bank Polling & Reconciliation Module. If so, describe in detail this process.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Cash & Capital Management (CCM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CCM152	Investment and Debt	Capability to provide fair value reporting and determine unrecognized gains or losses as required by GASB. Describe in detail this process.	1 - NA / Not Supported	
CCM153	Investment and Debt	Ability to have mark-to-market capabilities for current and historical time frames. Describe in detail this process and any special features or limitations.	1 - NA / Not Supported	
CCM154	Investment and Debt	Capability to report by investment, investment type, portfolio, groupings of portfolios, and consolidated positions all portfolio statistics, as follows:	1 - NA / Not Supported	
CCM155	Investment and Debt	Total Income Received	1 - NA / Not Supported	
CCM156	Investment and Debt	Total Net Earnings	1 - NA / Not Supported	
CCM157	Investment and Debt	Average Daily Portfolio Balance	1 - NA / Not Supported	
CCM158	Investment and Debt	Earned Income Yield This Period	1 - NA / Not Supported	
CCM159	Investment and Debt	End of Period Portfolio Balance	1 - NA / Not Supported	
CCM160	Investment and Debt	Current Amortized Book Value	1 - NA / Not Supported	
CCM161	Investment and Debt	Weighted Average Yield at End of Period	1 - NA / Not Supported	
CCM162	Investment and Debt	Weighted Average Days to Maturity	1 - NA / Not Supported	
CCM163	Investment and Debt	Weighted Average Days to Call	1 - NA / Not Supported	
CCM164	Investment and Debt	Capability to support the following debt instruments:	1 - NA / Not Supported	
CCM165	Investment and Debt	General Obligation Bonds	1 - NA / Not Supported	

Miami-Dade County Public Schools: Cash & Capital Management (CCM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CCM166	Investment and Debt	Certificates of Participation	1 - NA / Not Supported	
CCM167	Investment and Debt	Variable Rate Debt	1 - NA / Not Supported	
CCM168	Investment and Debt	Revenue Anticipation Notes	1 - NA / Not Supported	
CCM169	Investment and Debt	Tax Anticipation Notes	1 - NA / Not Supported	
CCM170	Investment and Debt	List all additional instruments that the Debt Management Module supports and any financial instrument that it does not support. Explain each instance an instrument is not supported. Describe instances where new debt instruments have become available in the market and how the Debt Management Module has been updated to support the addition.	1 - NA / Not Supported	
CCM171	Investment and Debt	For all debt instruments noted above provide the interest calculation methods used with each instrument and include any formulas and rounding conventions used. Is there a table maintained for interest calculations?	1 - NA / Not Supported	
CCM172	Investment and Debt	For all the debt instruments noted above provide the calculation methods used for amortization/accretion of premiums and discounts and include any formulas and rounding conventions used.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Cash & Capital Management (CCM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CCM173	Investment and Debt	Capability to calculate all premium and discount amortization/accretions under GASB requirements. Describe how interest and amortization/accretion of premium and discounts are recorded and reported in the Debt Management Module. Provide a sample for one bond and a sample for all the bonds in one series. Show how a series of interest payments are aggregated and how it updates the payment schedule.	1 - NA / Not Supported	
CCM174	Investment and Debt	Capability to handle interest expense accruals. Describe in detail the process and any limitations.	1 - NA / Not Supported	
CCM175	Investment and Debt	Describe how bond terms such as maturity dates can be edited. Describe how edit capabilities are restricted to authorized users.	1 - NA / Not Supported	
CCM176	Investment and Debt	Capability to monitor calls and sinking fund payments. Describe the process.	1 - NA / Not Supported	
CCM177	Investment and Debt	Capability to handle different resets on floating rate debt. Describe how floating rate agreements are recorded and reported in the Debt Management Module, including how interest rate resets are handled. Is there any limitation as to the timing of resets? Describe each limitation.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Cash & Capital Management (CCM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CCM178	Investment and Debt	Capability to handle an advance refunding/defeasance. Describe the process for recording and reporting of a refunding/defeasance. Can the Debt Management Module handle the calculation of gains or losses under an advance refunding? If so, describe the process. Include any formulas and rounding conventions used.	1 - NA / Not Supported	
CCM179	Investment and Debt	Can the Debt Management Module accommodate additions/deletions of principal, early termination or extension of maturity dates, and or rolling over of interest? If so, describe each process and whether it is manual or automatic.	1 - NA / Not Supported	
CCM180	Investment and Debt	Capability to handle semi-annual coupon interest payments, as well as short/long coupon dates. Describe the process to record these payments and any limitations as to different timing of payment dates, (i.e., monthly, quarterly, and annually).	1 - NA / Not Supported	
CCM181	Investment and Debt	Capability to support the following functionality:	1 - NA / Not Supported	
CCM182	Investment and Debt	Payment calculations/verifications	1 - NA / Not Supported	
CCM183	Investment and Debt	Payment scheduling	1 - NA / Not Supported	
CCM184	Investment and Debt	Payment forecasting	1 - NA / Not Supported	
CCM185	Investment and Debt	Payment instructions management	1 - NA / Not Supported	

Miami-Dade County Public Schools: Cash & Capital Management (CCM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CCM186	Investment and Debt	Does the Debt Management Module provide fields that will link an issuance to a related transaction(s), (e.g. a public bond with a related swap)? If so, describe the process.	1 - NA / Not Supported	
CCM187	Investment and Debt	Capability to allow for tracking, viewing and reporting by the following criteria:	1 - NA / Not Supported	
CCM188	Investment and Debt	Consolidated Debt Position	1 - NA / Not Supported	
CCM189	Investment and Debt	Portfolio/Fund	1 - NA / Not Supported	
CCM190	Investment and Debt	Debt Type (GOB, COP, etc.)	1 - NA / Not Supported	
CCM191	Investment and Debt	Series	1 - NA / Not Supported

GR001	Accounting Functions	Define your ability for authorized users to lookup grant funding information.	1 - NA / Not Supported	
GR002	Accounting Functions	Define your ability to modify the grant award amount, the grant end date and/or the grant liquidation date.	1 - NA / Not Supported	
GR003	Accounting Functions	Define your ability to maintain payment history.	1 - NA / Not Supported	
GR004	Accounting Functions	Define your ability to incorporate an audit trail of all project transactions.	1 - NA / Not Supported	
GR005	Accounting Functions	Define ability to link funding sources to a specific bills and bill amounts through integration with AR/Billing module.	1 - NA / Not Supported	
GR006	Accounting Functions	Define your ability to allocate expenses by fund number, account number, project or sub-object number.	1 - NA / Not Supported	
GR007	Accounting Functions	Define your ability to record transaction history through the full grant life cycle taking into account grants that do not close at the same fiscal year end as the District.	1 - NA / Not Supported	
GR008	Accounting Functions	Define your ability to account for and manage grants over multiple fiscal years.	1 - NA / Not Supported	
GR009	Accounting Functions	Define your ability to consolidate fund, budget, and expense information on a project and/or bureau/department basis or by Funding Source number (i.e., Catalog of Federal Domestic Assistance (CFDA) Number).	1 - NA / Not Supported	
GR010	Accounting Functions	Define how your system performs the transfer of funds between grants.	1 - NA / Not Supported	
GR011	Accounting Functions	Define your ability to track the review and approval of documents throughout the grant life cycle.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Grants (GR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GR012	Accounting Functions	Define the method utilized to rollover funds allocated for a specific grant for multiple years.	1 - NA / Not Supported	
GR013	Accounting Functions	Define your ability to enable users to monitor changes in grantor project agreement amounts, accurately track funding availability, and adjust budget accordingly.	1 - NA / Not Supported	
GR014	Accounting Functions	Define your ability to track expenses incurred (not billed), bills in progress of being paid, and bills not paid.	1 - NA / Not Supported	
GR015	Accounting Functions	Define your ability to make budget amendments, subject to grantor/sponsor approval.	1 - NA / Not Supported	
GR016	Accounting Functions	Define your ability to prohibit requisitions from posting after a specified date while program is still open for expenditures and liquidation of purchase orders.	1 - NA / Not Supported	
GR017	Accounting Functions	Define your ability to prohibit service contracts (purchase orders) from exceeding the grant period.	1 - NA / Not Supported	
GR018	Accounting Functions	Define your ability to prohibit additional purchase orders from being created, while allowing expenditure transfers and purchase order liquidations to continue to post.	1 - NA / Not Supported	
GR019	Accounting Functions	Define your ability to prohibit payroll and non-payroll expenditures from being charged to the grant beyond the grant term. In the case of non-payroll also explain how your system handles attempts to pay against unavailable funds.	1 - NA / Not Supported	
GR020	Accounting Functions	Define your ability to enable only time worked during the grant period to post in the GL.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Grants (GR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GR021	Accounting Functions	Define your ability to enable the payment of invoices during the liquidation period, without allowing payroll expenditures to post.	1 - NA / Not Supported	
GR022	Accounting Functions	Define your ability to enforce a "lock-out" to allow clearing of old invoices and purchase orders after a grant is closed.	1 - NA / Not Supported	
GR023	Accounting Functions	Define your ability to charge one employee to multiple funding sources with varying time periods/end-dates.	1 - NA / Not Supported	
GR024	Accounting Functions	Define your ability to track Federal grants by CFDA number assigned to each funding opportunity by the federal sponsor and typically identified in program announcements and award notices.	1 - NA / Not Supported	
GR025	Accounting Functions	Define your ability to define revenue recognition plans and methods for grants in Contract Management.	1 - NA / Not Supported	
GR026	Accounting Functions	Define your ability to track budget/revenue information and variances in budgeted/actual amounts.	1 - NA / Not Supported	
GR027	Accounting Functions	Define your ability to generate temporary bills for review by a billing administrator with ability to amend rate-based bills.	1 - NA / Not Supported	
GR028	Accounting Functions	Define your ability to accommodate deferred revenue accounting to generate accounting entries that defer revenue recognition based on the chosen revenue recognition date and method.	1 - NA / Not Supported	
GR029	Accounting Functions	Define your ability to define a chart of accounts that includes the entity, natural account, department and other chart values	1 - NA / Not Supported	

Miami-Dade County Public Schools: Grants (GR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GR030	Accounting Functions	Define your ability to control spending versus budget at various levels with the budget.	1 - NA / Not Supported	
GR031	Accounting Functions	Define your ability to validate costs charged to the program.	1 - NA / Not Supported	
GR032	Accounting Functions	Define your ability to track fixed assets purchased with grant resources.	1 - NA / Not Supported	
GR033	Accounting Functions	Define your ability to validate transaction dates against the grant award period.	1 - NA / Not Supported	
GR034	Accounting Functions	Define your ability to prevent charges (payroll, accounts payable) to close programs.	1 - NA / Not Supported	
GR035	Accounting Functions	Define your ability to enter pre-approved batches of entries or import entries from spreadsheets.	1 - NA / Not Supported	
GR036	Accounting Functions	Define your ability to view budget changes, encumbrances and expenditures on line.	1 - NA / Not Supported	
GR037	Accounting Functions	Define your ability for unrecognized revenue to be carried forward at year end.	1 - NA / Not Supported	
GR038	Accounting Functions	Define your ability to drill-down from any field with the grants accounting screen to any functional module within the system.	1 - NA / Not Supported	
GR039	Accounting Functions	Define your ability to reconcile the sub ledger balances or transaction detail to the GL.	1 - NA / Not Supported	
GR040	Accounting Functions	Define your ability to inform users to recognize revenue after grant expenditures have been recorded for a user-specified period of time.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Grants (GR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GR041	Accounting Functions	Define your ability to post the "suspended" grant transaction with supervisory control or post with supervisory override (Address approval chain for override).	1 - NA / Not Supported	
GR042	Accounting Functions	Define how your system handles account structures inactivated during the current fiscal year of the grant award.	1 - NA / Not Supported	
GR043	Accounting Functions	Define your ability to suspend a grant prior to its expiration date.	1 - NA / Not Supported	
GR044	Accounting Functions	Define your ability to electronically wire transfers for drawdown or letters of credit.	1 - NA / Not Supported	
GR045	Accounting Functions	Define your ability to access actual expenditure information from other modules at a detail and summary level for each grant.	1 - NA / Not Supported	
GR046	Accounting Functions	Define your ability to access salary costs associated with a specific grant.	1 - NA / Not Supported	
GR047	Accounting Functions	Define your ability to calculate on a user-defined basis indirect costs associated with any grant and to provide system generated entries (Not all grants have the same indirect cost rate).	1 - NA / Not Supported	
GR048	Accounting Functions	Define your ability to capture all grant activity through the general ledger.	1 - NA / Not Supported	
GR049	Accounting Functions	Define your ability to charge and track administrative costs to a grant.	1 - NA / Not Supported	
GR050	Accounting Functions	Define your ability to choose drawdown on grant funds during expenditure transactions.	1 - NA / Not Supported	
GR051	Accounting Functions	Define your ability to control expenditures and encumbrances charged to a grant.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Grants (GR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GR052	Accounting Functions	Define your ability to define the program and budget year of the grant differently than the system established fiscal year.	1 - NA / Not Supported	
GR053	Accounting Functions	Define your ability to establish grant receivables based on expenditures.	1 - NA / Not Supported	
GR054	Accounting Functions	Define your ability to identify revenue to a funding source.	1 - NA / Not Supported	
GR055	Accounting Functions	Define your ability to maintain detailed transaction history online for the life of a grant.	1 - NA / Not Supported	
GR056	Accounting Functions	Define your ability to make adjustments for any accounting period in a any fiscal year.	1 - NA / Not Supported	
GR057	Accounting Functions	Define your ability to make adjustments to open grants.	1 - NA / Not Supported	
GR058	Accounting Functions	Define your ability to monitor progress of grant expenditures/revenues against original grant contract information.	1 - NA / Not Supported	
GR059	Accounting Functions	Define your ability to provide an edit to ensure that grant billings do not exceed the reimbursable budget.	1 - NA / Not Supported	
GR060	Accounting Functions	Define your ability to report actual employee hours worked by grant.	1 - NA / Not Supported	
GR061	Accounting Functions	Define your ability to track and account for grant reimbursements and advance payments in accordance with federal and state requirements.	1 - NA / Not Supported	
GR062	Accounting Functions	Define your ability to track cost-covered and non-cost covered expenditures.	1 - NA / Not Supported	
GR063	Accounting Functions	Define your ability to track expenditures and revenue by individual sub-categories within a single grant.	1 - NA / Not Supported	
GR064	Accounting Functions	Define your ability to track grant activity over multiple years.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Grants (GR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GR065	Accounting Functions	Define your ability to integrate Grant Management with Budget Development, General Ledger, Billing/AR, Accounts Payable, Project Accounting, Procurement, Payroll, Human Resources, and Contract Management ERP modules.	1 - NA / Not Supported	
GR066	Budget Functions	Define your ability to populate Budget Development Module from the grant proposal. Does the ability include positions and their set up in Position Control?	1 - NA / Not Supported	
GR067	Budget Functions	Define your ability to assign new program numbers for the successor year in a grant based on District criteria for employee assignments that may vary.	1 - NA / Not Supported	
GR068	Budget Functions	Define your ability to transfer positions and assign successor program numbers.	1 - NA / Not Supported	
GR069	Budget Functions	Define your ability to pre-determine whether a grant has roll-forward or not and how to re-budget those resources.	1 - NA / Not Supported	
GR070	Budget Functions	Define your ability to capture matching funds requirements.	1 - NA / Not Supported	
GR071	Budget Functions	Define your ability to track matching funds and generate reports on anticipated shortfalls of matching funds.	1 - NA / Not Supported	
GR072	Budget Functions	Define your ability to manage Budget Transfers (i.e., Assign tracking numbers, upload from spreadsheet).	1 - NA / Not Supported	
GR073	Budget Functions	Define your ability to create automatic notification of Budget Create and/or Budget Transfer to pre-defined staff member(s).	1 - NA / Not Supported	
GR074	Budget Functions	Define your ability to define Budget Create/Budget Transfer approval levels.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Grants (GR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GR075	Budget Functions	Define your ability to identify potentially surplussed staff by a predefined date.	1 - NA / Not Supported	
GR076	Budget Functions	Define your ability to entry a successor grant number in the records for the current grant number.	1 - NA / Not Supported	
GR077	Budgeting Functions	Define your ability to roll over appropriations, revenue sources, and expenditures from one grant year to the next until the grant expires.	1 - NA / Not Supported	
GR078	Budgeting Functions	Define your ability to budget based on on-going grant funding sources.	1 - NA / Not Supported	
GR079	Budgeting Functions	Define your ability to budget by total grant amount.	1 - NA / Not Supported	
GR080	Budgeting Functions	Define your ability to budget grant by fiscal year.	1 - NA / Not Supported	
GR081	Budgeting Functions	Define your ability to budget grants at various levels and combinations of budget classification structures.	1 - NA / Not Supported	
GR082	Budgeting Functions	Define your ability to carry forward appropriations/balances at year end.	1 - NA / Not Supported	
GR083	Budgeting Functions	Define your ability to establish a grant budget that is separate and independent of all other budgets.	1 - NA / Not Supported	
GR084	Budgeting Functions	Define your ability to establish and report budget information on multiple years and grant years.	1 - NA / Not Supported	
GR085	Budgeting Functions	Define your ability to track actual expenditures against budgeted/allowable expenditures by user-defined periods (e.g., daily, monthly, quarterly, etc).	1 - NA / Not Supported	
GR086	Grants Administration	Define your ability to calculate and report the financial status of the project, including all direct costs, and providing for indirect cost allocations.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Grants (GR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GR087	Grants Administration	Define your ability to account for and track required matching funds for a grant award if applicable.	1 - NA / Not Supported	
GR088	Grants Administration	Define your ability to restrict the addition of Account Structures not allowed by the funding agency.	1 - NA / Not Supported	
GR089	Grants Administration	Define your ability to publish a narrative description of the restrictions on the use of the grant financial resources.	1 - NA / Not Supported	
GR090	Grants Administration	Define your ability to disclose both performance and financial reports and the due dates.	1 - NA / Not Supported	
GR091	Grants Administration	Define your ability to generate notices to staff based on pre-defined conditions (i.e., the grant closes in 90 days and 80% of funds remain unspent).	1 - NA / Not Supported	
GR092	Grants Administration	Define your ability to create reports combining financial and narrative data.	1 - NA / Not Supported	
GR093	Grants Administration	Define your ability to create fields for information such as District Program Manager, Funding Contact, Roll-forward funding, prior years award amounts.	1 - NA / Not Supported	
GR094	Grants Administration	Define your ability to allow multiple project per awards and multiple awards per project.	1 - NA / Not Supported	
GR095	Grants Administration	Define your ability to "suspend" grant transactions based on grant and user-defined criteria (e.g., expiration date, year-end closing, etc).	1 - NA / Not Supported	
GR096	Grants Administration	Define your ability to differentiate between federal, state, and other types of grants for audit purposes.	1 - NA / Not Supported	
GR097	Grants Administration	Define your ability to establish grant restrictions and controls that may differ between funder and original award.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Grants (GR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GR098	Grants Administration	Define your ability to accommodate grant year accounting and comply with both calendar year and fiscal year budgeting requirements.	1 - NA / Not Supported	
GR099	Grants Administration	Define your ability to account for grant revenues and expenditures for the fiscal year, grant year, state fiscal year, federal fiscal year, etc.	1 - NA / Not Supported	
GR100	Grants Administration	Define your ability to add, modify or delete grant information online with audit trail of all changes.	1 - NA / Not Supported	
GR101	Grants Administration	Define your ability to allocate allowable costs from one grant to another.	1 - NA / Not Supported	
GR102	Grants Administration	Define your ability to archive closed grants with no activity beyond a user-defined time interval.	1 - NA / Not Supported	
GR103	Grants Administration	Define your ability to assign grant identification number for budgeting and reporting activities.	1 - NA / Not Supported	
GR104	Grants Administration	Define your ability to associate multiple grants with a single location.	1 - NA / Not Supported	
GR105	Grants Administration	Define your ability to associate multiple locations and/or programs with a single grant.	1 - NA / Not Supported	
GR106	Grants Administration	Define your ability to capture/establish effective beginning and end date of a grant.	1 - NA / Not Supported	
GR107	Grants Administration	Define your ability to conduct "what if" scenarios on the life of a grant.	1 - NA / Not Supported	
GR108	Grants Administration	Define your ability to duplicate preexisting grants to create/establish templates for new grants.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Grants (GR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GR109	Grants Administration	Define your ability to establish and track grant contracts and grant agreements.	1 - NA / Not Supported	
GR110	Grants Administration	Define your ability to identify each grant by user-defined identifiers (e.g., award number, grantor's grant number, etc).	1 - NA / Not Supported	
GR111	Grants Administration	Define your ability to maintain data about grantors.	1 - NA / Not Supported	
GR112	Grants Administration	Define your ability to maintain data about locations receiving grant funds.	1 - NA / Not Supported	
GR113	Grants Administration	Define your ability to maintain historical grant information.	1 - NA / Not Supported	
GR114	Grants Administration	Define your ability to notify administrators and other users of grant milestones (e.g., expiration date, revenue distribution, etc).	1 - NA / Not Supported	
GR115	Grants Administration	Define your ability to notify administrators and other users when grant expenditures reach a user-defined threshold.	1 - NA / Not Supported	
GR116	Grants Administration	Define your ability to provide complete grant accounting in conformity with all federal and state requirements.	1 - NA / Not Supported	
GR117	Grants Administration	Define your ability to provide grant summary history online.	1 - NA / Not Supported	
GR118	Grants Administration	Define your ability to purge expired or non-awarded grants.	1 - NA / Not Supported	
GR119	Grants Administration	Define your ability to track grant application information (e.g., grant number, name, description, grantor, etc.).	1 - NA / Not Supported	

Miami-Dade County Public Schools: Grants (GR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GR120	Grants Administration	Define your ability to track grant applications.	1 - NA / Not Supported	
GR121	Grants Administration	Define your ability to track grant budgets, expenditures, encumbrances, and revenues over different periods.	1 - NA / Not Supported	
GR122	Proposals	Define your ability to manage grants throughout the entire grant life cycle from concept development, proposal preparation through funding, project administration, and award closeout.	1 - NA / Not Supported	
GR123	Proposals	Define your ability to track the development, verification, and submission status of proposals to sponsors. Ability to monitor progress points through the development stage.	1 - NA / Not Supported	
GR124	Proposals	Define your ability to link award (executed agreement between the institution and the grant sponsor) notification with data from proposals without having to re-enter data and to link award information to contracts in Contract Management module and Budget Create in Budget Development Module.	1 - NA / Not Supported	
GR125	Proposals	Define your ability to monitor pre-determined performance benchmarks against actual results.	1 - NA / Not Supported	
GR126	Proposals	Define your ability to track and report on grants that are applied for and not awarded. How does your system handle that data after the proposal stage?	1 - NA / Not Supported	
GR127	Proposals	Define your ability to create non-financial reports at the proposal stage of the grant process.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Grants (GR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GR128	Proposals	Define your ability to classify proposals by major initiative category.	1 - NA / Not Supported	
GR129	Reporting	Define your ability to electronically transmit quarterly grant progress reports.	1 - NA / Not Supported	
GR130	Reporting	Define your ability to provide full grant term, potentially spanning multiple fiscal years, reporting as well as combination reporting over a multi-year period allowing for varying budget year allocations to be reported cumulatively.	1 - NA / Not Supported	
GR131	Reporting	Define your ability to create access privileges to reports by responsibility.	1 - NA / Not Supported	
GR132	Reporting	Define your ability to generate FA 399 Reports.	1 - NA / Not Supported	
GR133	Reporting	Define your ability to create ad hoc queries and reports.	1 - NA / Not Supported	
GR134	Reporting	Define your ability to roll-up grant to higher levels for internal and external reporting.	1 - NA / Not Supported	
GR135	Reporting	Define your ability to download reports into desktop applications.	1 - NA / Not Supported	
GR136	Reporting	Define your ability to generate expenditure and revenue transaction reports.	1 - NA / Not Supported	
GR137	Reporting	Define your ability to generate report data in graphical form.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Grants (GR)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GR138	Reporting	Define your ability to produce reports for annual or multi-year funding allocations that allow for expenditures and carry-overs of the prior year budget.	1 - NA / Not Supported	
GR139	Reporting	Define your ability to produce reports using the grantor-defined categories, the district's chart of accounts, and the state's Red Book.	1 - NA / Not Supported	
GR140	Reporting	Define your ability to report on grant expenditures within user-defined date range.	1 - NA / Not Supported	
GR141	Reporting	Define your ability to run reports by various accounting methods (e.g., cash, accrual, etc).	1 - NA / Not Supported	
GR142	Security	Define your ability to allow multiple administrators to enter information on a single grant with security levels established at the transaction level.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Financial and Operational Planning (FOP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
FOP001	Develop Models Translating Op Plans to Fin Plans	Ability to do Line-Item budgeting. Ability to associate a calculation method with each budget line item.	1 - NA / Not Supported	
FOP002	Develop Models Translating Op Plans to Fin Plans	Ability to pre-populate (seed) the base case budget with historical or future measures and/or drivers.	1 - NA / Not Supported	
FOP003	Develop Models Translating Op Plans to Fin Plans	Ability to do Asset-level budgeting - including: 1) add assets to budget, 2) search for existing assets, 3) perform queries and download asset-related data.	1 - NA / Not Supported	
FOP004	Develop Models Translating Op Plans to Fin Plans	Ability to pre-populate historical and future depreciation amounts into base budget.	1 - NA / Not Supported	
FOP005	Compare Outcome to Op/Fin Plan Targets Provided at Start	Ability to run reports at all levels of the hierarchy and for types of analysis including Budget vs. Target and Version Analysis. Reports should be able to be run by users on demand - and data access should be limited by role.	1 - NA / Not Supported	
FOP006	Compare Outcome to Op/Fin Plan Targets Provided at Start	Ability to drill-down for reporting and analysis	1 - NA / Not Supported	

Miami-Dade County Public Schools: Financial and Operational Planning (FOP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
FOP007	Compare Outcome to Op/Fin Plan Targets Provided at Start	Ability to compare budgets against planned targets - within application.	1 - NA / Not Supported	
FOP008	Compare Outcome to Op/Fin Plan Targets Provided at Start	Ability to inquire on budget data within application - including the ability to 1) download to an Excel format, 2) compare line-item budgets within a version, compare budget versions, and compare budgets by budget period.	1 - NA / Not Supported	
FOP009	Compare Outcome to Op/Fin Plan Targets Provided at Start	Ability to provide commentary on variances between budget and planned targets.	1 - NA / Not Supported	
FOP010	Consolidate Budgets	Ability to automatically consolidate/aggregate individual budget components.	1 - NA / Not Supported	
FOP011	Consolidate Budgets	Ability to run reports detailing high-level view of budget versus target.	1 - NA / Not Supported	
FOP012	Consolidate Budgets	Ability to drill-down from high-level report into lower levels of detail.	1 - NA / Not Supported	
FOP013	N/A	Ability to approve budgets. Budget reviewer/approver should have the ability to: 1) modify, 2) apply mass adjustments, 3) reject, 4) and allocate line-item budgets.	1 - NA / Not Supported	
FOP014	Readjust Tactics & Rerun Models	Ability to copy existing budget models.	1 - NA / Not Supported	
FOP015	Readjust Tactics & Rerun Models	Ability to update budget models.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Financial and Operational Planning (FOP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
FOP016	N/A	Ability to export budget data to central repository - to make available for use by other applications/reporting solutions.	1 - NA / Not Supported	
FOP018	Run Models w/ Selected Scenario & Op Plans	Ability for multiple users to work on a budget simultaneously (i.e., make a screen or data "read-only" while another user is working on it).	1 - NA / Not Supported	
FOP019	Scan Internal Environment	Ability to review key performance indicators, trends and performance to plan over the last year.	1 - NA / Not Supported	
FOP020	Run Models w/ Selected Scenario & Op Plans	Ability to send a user communication/update on a specific budget activity from within application.	1 - NA / Not Supported	
FOP021	Review Budget Guidelines	Define and communicate budget guidelines.	1 - NA / Not Supported	
FOP022	Review Budget Guidelines	Define data integration requirements and data sources - including GL, HR, Assets.	1 - NA / Not Supported	
FOP023	Review Budget Guidelines	Web-based application interface.	1 - NA / Not Supported	
FOP024	Run Models w/ Selected Scenario & Op Plans	Ability to Submit and Reject Versions.	1 - NA / Not Supported	
FOP025	Scan External Environment	Ability to compare internal key performance indicators and trends- versus competitive analysis/data.	1 - NA / Not Supported	
FOP026	Review Budget Guidelines	Define budget assumptions (i.e., targets for measures and/or drivers)	1 - NA / Not Supported	
FOP027	Run Models w/ Selected Scenario & Op Plans	Ability to make mass adjustments to line item details.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Financial and Operational Planning (FOP)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
FOP028	Review Budget Guidelines	Define budgeting roles - including Budget Coordinator, Budget Analyst, Budget Preparer, Budget Reviewer, and System Administrator.	1 - NA / Not Supported	
FOP029	Run Models w/ Selected Scenario & Op Plans	Ability to override 'seeded' or calculated values.	1 - NA / Not Supported	
FOP030	Scan External Environment	Ability to accept extracted data from external sources (enable inputs from various systems).	1 - NA / Not Supported	
FOP031	Review Budget Guidelines	Assign users to Roles, Business Units, Budget Activities and Budget Centers.	1 - NA / Not Supported	
FOP032	Run Models w/ Selected Scenario & Op Plans	Ability to add notes to individual line items.	1 - NA / Not Supported	
FOP033	Scan Internal Environment	Allows hierarchical and multi-dimensional reporting and drill down capabilities based upon user-defined characteristics.	1 - NA / Not Supported	
FOP034	Scan Internal Environment	Existence of a central data repository (accounts, cost centers, hierarchies, attributes, historical/current financial results, business intelligence).	1 - NA / Not Supported	
FOP035	Run Models w/ Selected Scenario & Op Plans	Ability to have multiple working versions of budget.	1 - NA / Not Supported	
FOP036	Review Budget Guidelines	Forecasting application integrated with Budgeting application.	1 - NA / Not Supported	
FOP037	Review Budget Guidelines	Ability to establish and amend Budgeting procedures and policies.	1 - NA / Not Supported	
FOP039	General	Ability to leverage multiple budget scenarios.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Financial and Operational Planning (FOP)

FOP041	General	Ability to perform projections.	1 - NA / Not Supported	
FOP042	General	Define district objectives and targets.	1 - NA / Not Supported	
FOP043	General	Enable full organizational overview in planning.	1 - NA / Not Supported	
FOP044	General	Ability to maintain budget history over multiple periods.	1 - NA / Not Supported	
FOP045	General	Ability to maintain historical and trend information.	1 - NA / Not Supported	
FOP046	General	Ability to budget salaries across MDCPS objects, functions and locations.	1 - NA / Not Supported	
FOP047	General	Ability to retain budget history at different approvals levels including adoption.	1 - NA / Not Supported	
FOP048	General	Ability to interface budget development system with opening budget balance in General Ledger system.	1 - NA / Not Supported	
FOP049	General	Ability to display "Drill Down" detail of adopted budget changes after adoption.	1 - NA / Not Supported	
FOP050	General	Ability to utilize different budget models (i.e., line-item based, zero-based, etc.).	1 - NA / Not Supported	
FOP051	General	Ability to populate Position Control from adopted budget.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Fixed Assets (FA)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
FA001	Asset Disposal/ Retirement	Ability to dispose of an asset or assets and interface the appropriate entries to General Ledger.	1 - NA / Not Supported	
FA002	Asset Disposal/ Retirement	Ability to post proceeds (cash or cash clearing) and expenses to funds, accounts and cost centers.	1 - NA / Not Supported	
FA003	Asset Disposal/ Retirement	Ability to write off missing/obsolete assets.	1 - NA / Not Supported	
FA004	Asset Disposal/ Retirement	Ability to automatically calculate gain/loss on asset disposals and retirements for all books and to post the appropriate entry to the GL; and ability to track assets to fund/location for gain/loss at disposal.	1 - NA / Not Supported	
FA005	Asset Disposal/ Retirement	Ability to reverse disposals made in error.	1 - NA / Not Supported	
FA006	Create Assets	Describe software's ability to allow for the definition of user-defined class and categories of fixed assets.	1 - NA / Not Supported	
FA007	Create Assets	Ability to use mass assets (bundle) to account for depreciation and disposals of small value, numerous assets which are alike.	1 - NA / Not Supported	
FA008	Create Assets	Ability to define common asset types/classes, including asset lives and depreciation method.	1 - NA / Not Supported	
FA009	Create Assets	Ability to report on "Surplus" or "Idle" assets available company wide.	1 - NA / Not Supported	
FA010	Create Assets	Ability to add assets to the fixed asset system manually.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Fixed Assets (FA)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
FA011	Create Assets	Ability to automatically create an asset record from Activity/Project System and/or Accounts Payable.	1 - NA / Not Supported	
FA012	Create Assets	Ability to integrate or interface with Accounts Payable, General Ledger, Purchasing, Capital Budgeting, and Project Accounting systems using asset model number and serial number.	1 - NA / Not Supported	
FA013	Create Assets	Ability to post asset values to accounts and cost centers.	1 - NA / Not Supported	
FA014	Create Assets	Ability to define edit controls at the front end of the fixed asset system to detect	1 - NA / Not Supported	
FA015	Maintain/ Track Assets	Describe your software's capabilities for tracking leased equipment, including: 1. Date equipment was leased 2. Term of the lease 3. Annual cost shown in monthly and annual increments 4. Value 5. Tracking of maintenance contracts for leased equipment with terms and costs	1 - NA / Not Supported	
FA016	Maintain/ Track Assets	System should have the capability to mass transfer assets to reflect organizational changes when they occur.	1 - NA / Not Supported	
FA017	Maintain/ Track Assets	Ability to transfer or adjust an asset or assets and automatically interface the appropriate entries to the General Ledger.	1 - NA / Not Supported	
FA018	Maintain/ Track Assets	Ability to maintain a history of the transfers with From and To locations and dates (with an appropriate audit trail, effective dating, etc.).	1 - NA / Not Supported	

Miami-Dade County Public Schools: Fixed Assets (FA)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
FA019	Maintain/ Track Assets	Ability to attach a document to an asset as backup for the addition, adjustment, transfer or disposal of that asset.	1 - NA / Not Supported	
FA020	Maintain/ Track Assets	Ability to temporarily take assets out of service and stop depreciating them.	1 - NA / Not Supported	
FA021	Maintain/ Track Assets	Ability to make changes to an asset record (with an appropriate audit trail, date, etc.).	1 - NA / Not Supported	
FA022	Maintain/ Track Assets	Ability to reclassify an asset to a different category.	1 - NA / Not Supported	
FA023	Maintain/ Track Assets	Ability to conduct physical inventories/cycle counts.	1 - NA / Not Supported	
FA024	Maintain/ Track Assets	Ability to Integrate fixed asset system with insurance applications. Establish guidelines for integrating the business processes between fixed assets and risk management groups to ensure accurate reporting of assets to external entities.	1 - NA / Not Supported	
FA025	Maintain/ Track Assets	Ability to delete/remove assets from the system that are added in error with proper audit trail.	1 - NA / Not Supported	
FA026	Maintain/ Track Assets	Ability to revalue assets for impairment and retention of original values.	1 - NA / Not Supported	
FA027	Maintain/ Track Assets	Ability to record and report on the date of an addition, adjustment, transfer or disposal of an asset.	1 - NA / Not Supported	
FA028	Maintain/ Track Assets	Ability to implement a bar coding or asset tag procedure to physically track assets.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Fixed Assets (FA)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
FA029	Maintain/ Track Assets	Describe your software's ability to allow users (schools, departments) to update their own asset records, initiate online asset transfers, retirements and other maintenance transactions , check assets in/out and generate reports via remote access to the ERP system, which is interfaced to the Fixed Assets System.	1 - NA / Not Supported	
FA030	Maintain/ Track Assets	Describe your software's ability to track transfers of assets (i.e., buses, computers): Initiate asset transfers online Receive transferred assets online Initiate disposal or transfer to surplus online Logging of asset transfer transactions.	1 - NA / Not Supported	
FA031	Maintain/ Track Assets	Describe your software's ability to maintain detailed property records for all fixed assets, including identification codes, commodity classification, acquisition data, supplier information, make, model, serial number, insurance information (cost/replacement values), disposition data, and asset useful life.	1 - NA / Not Supported	
FA032	Maintain/ Track Assets	Ability to define workflow scenarios to allow end users to perform asset maintenance transactions.	1 - NA / Not Supported	
FA033	Period End Accounting	Ability to run reports as of a given date (FA lists, additions/disposals).	1 - NA / Not Supported	
FA034	Period End Accounting	Ability to produce a Fixed Assets roll-forward schedule denoting beginning balances, additions, deletions and ending balances for both asset cost and accumulated depreciation.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Fixed Assets (FA)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
FA035	Period End Accounting	Ability to provide standard reports available on-line with drill-down capabilities.	1 - NA / Not Supported	
FA036	Period End Accounting	Ability to produce reports sorted by tag numbers (bar code numbers).	1 - NA / Not Supported	
FA037	Period End Accounting	Ability to report on year-end book value, YTD and Life to date depreciation while processing transactions in the next year.	1 - NA / Not Supported	
FA038	Period End Accounting	Ability to report on fully depreciated and retired assets.	1 - NA / Not Supported	
FA039	Period End Accounting	Ability to report accumulated depreciation by asset type with depreciation, retirement, and value adjustments, period and YTD.	1 - NA / Not Supported	
FA040	Period End Accounting	Ability to calculate and report monthly depreciation.	1 - NA / Not Supported	
FA041	Period End Accounting	Ability to generate report detailing capital expenditures by fund.	1 - NA / Not Supported	
FA042	Period End Accounting	Ability to report capital expenditures by category or major component.	1 - NA / Not Supported	
FA043	Period End Accounting	Ability to report capital expenditures sorted by cost.	1 - NA / Not Supported	
FA044	Period End Accounting	Ability to integrate fixed assets system with the General Ledger system. Allow the fixed assets system to automatically create all asset related journal entries, including monthly depreciation.	1 - NA / Not Supported	
FA045	Period End Accounting	Ability to report on asset balances by account, detailed by additions, retirements, transfers from CIP, re-classes, transfers, and other adjustments.	1 - NA / Not Supported	
FA046	Period End Accounting	Ability to close the fiscal period and year.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Fixed Assets (FA)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
FA047	Period End Accounting	Ability to have on-line access to query data.	1 - NA / Not Supported	
FA048	Period End Accounting	Ability to maintain the book value for the assets.	1 - NA / Not Supported	
FA049	Period End Accounting	Ability to provided detailed capitalization report, Period and YTD.	1 - NA / Not Supported	
FA050	Period End Accounting	Ability to report ending balances with addition, retirement and value adjustments, period and YTD.	1 - NA / Not Supported	
FA051	Period End Accounting	The system should provide the ability for self service and drill down inquiry to address ad hoc questions.	1 - NA / Not Supported	
FA052	System Maintenance	Ability to define asset templates that define standard categories/classes, depreciation attributes and asset books. Templates to be used when adding assets.	1 - NA / Not Supported	
FA053	System Maintenance	Ability for integrated applications to access asset addition templates to interface new assets.	1 - NA / Not Supported	
FA054	System Maintenance	Ability to define default general ledger accounting templates based on type of asset and type of transactions.	1 - NA / Not Supported	
FA055	System Maintenance	Ability to maintain GAAP books in fixed asset application.	1 - NA / Not Supported	
FA056	System Maintenance	Ability to set up the asset calendar in monthly periods with end dates matching the calendar of the General Ledger.	1 - NA / Not Supported	
FA057	System Maintenance	Ability to assign the asset to an asset type/category or class.	1 - NA / Not Supported	
FA058	System Maintenance	Ability to automatically calculate GAAP depreciation and post to the GL.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Fixed Assets (FA)

GL073	Account Analysis and Reconciliation	Describe system's abilities to perform exception reporting/variance reporting, etc.	1 - NA / Not Supported	
GL074	Translation and Consolidation	Ability to automatically roll-up individual actual balances into one, consolidated balance.	1 - NA / Not Supported	
GL075	Chart of Accounts	Describe your software's capabilities for enabling the maintenance of separate funds, each of which is a self-balancing set of accounts, with all funds' records being processed simultaneously by the common system.	1 - NA / Not Supported	
GL076	Chart of Accounts	Describe your software's capabilities for viewing the chart of accounts online and validating the accuracy of function/object selections.	1 - NA / Not Supported	

Miami-Dade County Public Schools: General Ledger Accounting (GL)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GL077	Chart of Accounts	Describe your software's functionality for maintaining the chart of accounts online and preventing deletion of any account containing current year activity.	1 - NA / Not Supported	
GL078	Chart of Accounts	Provide for classification of each individual fund, as follows: General Fund Multiple Special Revenue Funds Multiple Debt Service Funds Multiple Capital Projects Funds Multiple Enterprise Funds Multiple Internal Service Funds Multiple Trust/Agency Funds	1 - NA / Not Supported	
GL079	Chart of Accounts	Describe your software's capabilities for automatic rollover of the chart of accounts, code structures and tables at year end, including: 1. Ability to crosswalk old code numbers to new numbers (i.e., grant, project numbers). 2. Ability to "end date" account codes that should not be carried forward to the next year.	1 - NA / Not Supported	
GL080	Chart of Accounts	Ability to prevent the deletion of accounts with balances.	1 - NA / Not Supported	
GL081	Chart of Accounts	Describe your software's capabilities for charging average or actual salary to specified salary accounts.	1 - NA / Not Supported	
GL082	Chart of Accounts	Describe your software's capabilities for consolidating accounts at multiple reporting levels: fund, object, function, department, project, etc.	1 - NA / Not Supported	

Miami-Dade County Public Schools: General Ledger Accounting (GL)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GL083	Period End Close	Describe your software's capabilities for automatically performing the journal entry to close all income and expense items to the retained earnings fund balance at year end.	1 - NA / Not Supported	
GL084	Period End Close	Describe your software's capabilities for starting the fiscal year with a roll-over of all balance sheet accounts, while leaving the prior year open.	1 - NA / Not Supported	
GL085	Period End Close	Provide ability to require a review of unposted batches prior to the month-end close.	1 - NA / Not Supported	
GL086	Period End Close	Ability to print a trial balance before the month-end close.	1 - NA / Not Supported	
GL087	Accounting Functions	Describe your software's capabilities for enabling online interactive double-entry accounting in the GL system.	1 - NA / Not Supported	
GL088	Accounting Functions	Describe your software's capabilities for allowing the entry of transactions across funds.	1 - NA / Not Supported	
GL089	Accounting Functions	Describe your software's capabilities for assigning accounting periods to transactions.	1 - NA / Not Supported	
GL090	Accounting Functions	Provide ability to maintain up to 5 years historical financial data, such as actual amounts (not including the current fiscal year) for both budgetary and financial data. This information must be available for both system reports and inquiry functions.	1 - NA / Not Supported	
GL091	Accounting Functions	Describe your software's capabilities for generating suspense/exception files (transactions out of balance, funds not available, etc.) with override functionality for authorized users.	1 - NA / Not Supported	

Miami-Dade County Public Schools: General Ledger Accounting (GL)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GL092	Accounting Functions	Describe your software's capabilities for enabling the user to reverse or cancel a previously posted/updated journal entry, including: 1. Ability to systematically re-post a journal entry after reversal and provide transaction detail reports.	1 - NA / Not Supported	
GL093	Accounting Functions	Describe your software's capabilities for adding/attaching explanatory notes for all transactions.	1 - NA / Not Supported	
GL094	Accounting Functions	Describe your software's capabilities for accommodating consolidated (pooled) cash accounting for transactions of multiple funds that are accounted for in one centralized (pooled) bank account.	1 - NA / Not Supported	
GL095	Accounting Functions	Describe your software's capabilities for preventing funds from being out of balance and allowing fully automated inter-funds.	1 - NA / Not Supported	
GL096	Accounting Functions	Describe your software's capabilities for moving year-end encumbrances to alternate fund sources.	1 - NA / Not Supported	
GL097	Accounting Functions	Describe your software's complete bank reconciliation process including the matching of outstanding and cleared checks with issued checks - with online check imaging review and check status capability. System should be capable of displaying this information to authorized vendors through a vendor portal where vendors can view only information specific to them.	1 - NA / Not Supported	

Miami-Dade County Public Schools: General Ledger Accounting (GL)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GL098	General	Ability to have 2 fiscal years / accounting periods open without impacting system performance.	1 - NA / Not Supported	
GL099	General	Ability to charge multiple account structures in payroll system for one employee	1 - NA / Not Supported	
GL100	General	Ability to provide real-time general ledger reports (e.g., transaction registers, etc.).	1 - NA / Not Supported	
GL101	General	Accounting Rules. Describe, in detail, your system's ability to define and configure accounting rules.	1 - NA / Not Supported	
GL102	General	Internal School Accounting Module fully integrated with General Ledger, including automatic entry (or interface) of financial transactions (receipts, disbursements, etc.) into General Ledger system.	1 - NA / Not Supported	
GL103	General	Describe your software's capabilities for processing/uploading manual journal entries from Excel worksheets and other standard file formats (i.e., .txt, .csv) including: 1. Including spreadsheet/source file attachment with the manual journal entry.	1 - NA / Not Supported	
GL104	General	Ability to see check cleared date on system.	1 - NA / Not Supported	
GL105	General	Ability to automatically generate "stale date check" letters after X months.	1 - NA / Not Supported	
GL106	General	Ability to show or reflect replacement checks (payments) as "voided and replaced with check # XXXXX."	1 - NA / Not Supported	
GL107	General	The ability to automatically feed cleared check information transmitted from the bank.	1 - NA / Not Supported	

Miami-Dade County Public Schools: General Ledger Accounting (GL)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
GL108	General	Describe the ability / design of your system to comply with all GASB Requirements.	1 - NA / Not Supported	
GL109	General	Ability to track vehicle mileage via internet portal access.	1 - NA / Not Supported	
GL110	General	Ability to programmatically transfer expenditures from closed programs to successor programs.	1 - NA / Not Supported	
GL111	General	Describe system's scalability.	1 - NA / Not Supported	
GL112	General	Ability to future date journal entries.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Outlook (OL)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
OL001	Actuals Track to Latest Plan	Ability to compare Actuals results versus plan for current and historical data.	1 - NA / Not Supported	
OL002	Actuals Track to Latest Plan	Ability to enter notes for a given forecast.	1 - NA / Not Supported	
OL003	Actuals Track to Latest Plan	Ability to handle exceptions and conditions defined by company business rules, with ability to email alerts.	1 - NA / Not Supported	
OL004	Consolidate Forecasts	Ability to notify users of forecast due dates, consolidation process.	1 - NA / Not Supported	
OL005	Consolidate Forecasts	Ability to automatically roll-up individual forecast components into one, consolidated forecast.	1 - NA / Not Supported	
OL006	Consolidate Forecasts	Ability to provide high-level summary graphics and narrative of the financial translation of Ops plan.	1 - NA / Not Supported	
OL007	Review Forecast Guidelines	Ability to forecast and display revenue and expenditures across functions, units, locations, activities etc.	1 - NA / Not Supported	
OL008	Review Forecast Guidelines	Web-based application interface.	1 - NA / Not Supported	
OL009	Review Forecast Guidelines	Forecasting application integrated with Budgeting application.	1 - NA / Not Supported	
OL010	Review Forecast Guidelines	Define performance measures / drivers.	1 - NA / Not Supported	
OL011	Review Forecast Guidelines	Define forecast functions for each role.	1 - NA / Not Supported	
OL012	Scan External Environment	Ability to compare internal key performance indicators and trends- versus competitive analysis/data.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Outlook (OL)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
OL013	Scan External Environment	Ability to accept extracted data from external sources (enable inputs from various systems).	1 - NA / Not Supported	
OL014	Scan Internal Environment	Allows hierarchical and multi-dimensional reporting and drill down capabilities based upon user-defined characteristics.	1 - NA / Not Supported	
OL015	Scan Internal Environment	Ability to review key performance indicators, trends and performance to plan over the last 5 years.	1 - NA / Not Supported	
OL016	Budgeting	Ability to enforce tolerance / target checking.	1 - NA / Not Supported	
OL017	Load Numbers Into Company Data Repository	Ability to export forecast data to central repository - to make available for use by other applications/reporting solutions.	1 - NA / Not Supported	
OL018	Budgeting	Define and communicate forecast guidelines, due dates, etc.	1 - NA / Not Supported	
OL019	Budgeting	Define data integration requirements and data sources required for forecasting models.	1 - NA / Not Supported	
OL020	Budgeting	Ability to update forecast horizon period.	1 - NA / Not Supported	
OL021	Budgeting	Ability to generate trend chart to cover the specified forecast time horizon	1 - NA / Not Supported	
OL022	Budgeting	Define user defaults and preferences.	1 - NA / Not Supported	
OL023	Budgeting	Ability to update driver models to cover the specified forecast time horizon.	1 - NA / Not Supported	
OL024	Budgeting	Assign users to Roles and Planning Activities.	1 - NA / Not Supported	
OL025	Budgeting	Define forecast status update procedures.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Outlook (OL)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
OL026	Budgeting	Ability to develop and maintain numerous planning versions and modeling scenarios. Ability to modify and project multiple scenarios without modifying the original.	1 - NA / Not Supported	
OL027	Budgeting	Ability to include explanations for forecasted results outside of acceptable performance tolerance.	1 - NA / Not Supported	
OL028	Budgeting	Allows for global formula or allocation based changes to be applied to planning data.	1 - NA / Not Supported	
OL029	Budgeting	Ability to compare forecast results to latest forecast/budget to any new changes in targets.	1 - NA / Not Supported	
OL030	Budgeting	Ability to update / create new forecast amounts at any time during process.	1 - NA / Not Supported	
OL031	Review Forecast Guidelines	Define forecasting roles - including Planning Administrator, Security Administrator, Executive/Reviewer and Analyst.	1 - NA / Not Supported	
OL032	Review Forecast Guidelines	Ability to set up performance measure warning levels.	1 - NA / Not Supported	
OL033	Review Forecast Guidelines	Ability to establish user-defined Projection Methods.	1 - NA / Not Supported	
OL035	Review Forecast Guidelines	Ability to define level of planning detail with respect to major revenue and expenditure assumptions. (e.g. economic conditions, position vacancies, etc.)	1 - NA / Not Supported	
OL036	Review Forecast Guidelines	Determine planning horizon - and associated level of detail required.	1 - NA / Not Supported	
OL037	General	Formal forecasting calendar, deadlines, and milestones in system.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Outlook (OL)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
OL038	General	Well-defined user roles and responsibilities set up in the system.	1 - NA / Not Supported	
OL039	General	Describe system and process training needed.	1 - NA / Not Supported	
OL040	General	Ability to forecast full-time salary savings.	1 - NA / Not Supported	

Miami-Dade County Public Schools: P-Card (PC)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
PC001	Procurement Card Processing	Define, in detail, P-Card capabilities.	1 - NA / Not Supported	
PC002	Procurement Card Processing	Ability to electronically record purchases and reconcile P-Card transactions.	1 - NA / Not Supported	
PC003	Procurement Card Processing	Ability to handle card holder issuance requests, electronic approval routing and issuance processing via an on-line, web-based application.	1 - NA / Not Supported	
PC004	Procurement Card Processing	Ability to integrate P-Card transactional history into system for reporting, prevention of duplicate payments, etc.	1 - NA / Not Supported	
PC005	M-DCPS Requirement	Ability to integrate P-card transactions into General Ledger.	1 - NA / Not Supported	
PC006	M-DCPS Requirement	Ability to adjust bid/RFP amounts based on P-card purchases.	1 - NA / Not Supported	
PC007	Procurement Card Processing	Ability to utilize P-cards and EFT for purchase order settlement.	1 - NA / Not Supported	
PC008	Procurement Card Processing	Ability to post procurement card transactions to a single or multiple general-ledger accounts.	1 - NA / Not Supported	
PC009	Procurement Card Processing	Describe available interfaces to bolt-on P-Card software packages.	1 - NA / Not Supported	
PC010	Procurement Card Processing	Define your ability to integrate Procurement card transactional history into AP module for generating and reporting 1099 activity.	1 - NA / Not Supported	
PC011	Procurement Card Processing	Define your ability to interface with bank software to support the District's purchasing card program.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Contract Management (CM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CM001	Contract Administration	Ability to store supplier contracts in one centralized database.	1 - NA / Not Supported	
CM002	Contract Creation	Ability to link master contract information to other contracts for same supplier.	1 - NA / Not Supported	
CM003	Contract Administration	Ability to link contract ID to supplier ID in supplier master file.	1 - NA / Not Supported	
CM004	Contract Communication	Ability to display contract terms amendment history to ensure visibility to changes that will impact organizational wide contracts.	1 - NA / Not Supported	
CM005	Contract Creation	Ability to provide a searchable library of pre-approved templates and alternative contract clauses, and to configure standard contract template information, for both qualitative & quantitative service level terms.	1 - NA / Not Supported	
CM006	Contract Creation	Ability to auto populate contract template with Bids/RFP information.	1 - NA / Not Supported	
CM007	Contract Creation	Ability to take existing contract information and populate Bid/RFP as part of contract renewal and/or re-bid process.	1 - NA / Not Supported	
CM008	Contract Communication	Describe how your software provides the ability for an electronic workflow approval process, including validation of funding sufficiency, the ability to tie a contract in process to a requisition, and to view the contract status through checkpoints in the workflow process (i.e., approved by legal, operations).	1 - NA / Not Supported	
CM009	Contract Administration	Ability to attach to the contract scanned images of documents that are required by the organization.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Contract Management (CM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CM010	Contract Administration	Ability to set multiple calendar driven flags to alert contract manager prior to expiration of required documents (insurance, bonds).	1 - NA / Not Supported	
CM011	Contract Administration	Describe how your software provides the ability to interface contracts with the requisition, Purchase Order, and Payables processes, regarding workflow, encumbrance accounting, price, payment terms, volume discounts, delivery times, etc. to insure compliance with negotiated terms and budget limits.	1 - NA / Not Supported	
CM012	Contract Administration	Describe your software's ability to enable invoice and Purchase Order cross referencing, and to tie payments to a contract, providing real time data regarding current spend against a contract.	1 - NA / Not Supported	
CM013	Contract Administration	Describe your software's ability to specify effective dates for all contracts.	1 - NA / Not Supported	
CM014	Contract Communication	Ability to create a contract management dashboard that displays purchase and performance activity against specific contracts.	1 - NA / Not Supported	
CM015	Contract Administration	Ability to provide automated warnings, triggered by any business condition (e.g., contracted volume delivered, or quality is below a given threshold, or dollar threshold is reached) to ensure that suppliers take action to meet their own obligations.	1 - NA / Not Supported	
CM016	Contract Administration	Ability to manage contract performance through project based milestones and budget specific limits.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Contract Management (CM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
CM017	Contract Communication	Ability to display contract details real time via intranet.	1 - NA / Not Supported	
CM018	Contract Communication	Ability to populate specific contract details into email template for communication to users via web based portal or intranet.	1 - NA / Not Supported	
CM019	Contract Creation	Ability to configure contract information to allow only specific details to be visible to user community.	1 - NA / Not Supported	
CM020	Contract Communication	Ability to inform suppliers involved in RFP process of contract award via standardized email template.	1 - NA / Not Supported	
CM021	Contract Administration	Ability to link line item level detail in contract to item master and/or catalogs.	1 - NA / Not Supported	
CM022	Contract Administration	Ability to associate a contract with a pre-defined commodity coding schema.	1 - NA / Not Supported	
CM023	Contract Administration	Ability to associate a contract with specific organizational departments.	1 - NA / Not Supported	
CM024	Contract Administration	Describe your software's ability to analyze vendor performance and tie specific performance variables to a contract.	1 - NA / Not Supported	
CM025	Contract Administration	Describe your software's ability to maintain historical records of contracts (i.e., amounts, revisions, dates, co-items, quantities, payments, etc), and to archive expired contracts.	1 - NA / Not Supported	
CM026	Contract Administration	Describe your software's ability to query contracts by wildcard, and to modify or create ad-hoc reports.	1 - NA / Not Supported	
CM027	Contract Administration	Describe how your software enables tracking and analysis of long-term contracts that span multiple fiscal years or accounting periods.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Inventory Management (IM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
IM001	External Systems	Define your ability to integrate the Inventory system with the Receiving function in the Purchasing system in order to update inventory with actual quantities received.	1 - NA / Not Supported	
IM002	External Systems	Define your ability to integrate the Inventory system with Fixed Assets to facilitate redistribution/disposal of obsolete/surplus equipment.	1 - NA / Not Supported	
IM003	External Systems	Define your ability to interface with Accounts Payable including but not limited to: • generate required receiving documentation • automatically transfer receiving data for evaluated receipt settlement • access receiving data for payment settlement	1 - NA / Not Supported	
IM004	Receiving	Define your ability to enter receipts online by receiving departments.	1 - NA / Not Supported	
IM005	Receiving	Define your ability to provide for electronic receipts read by a bar code reader including but not limited to: • reading embedded information to record receipts in purchase orders	1 - NA / Not Supported	
IM006	Receiving	Define your ability to match the receiving to the purchase order both manually and electronically.	1 - NA / Not Supported	
IM007	Receiving	Define your ability to receive advanced shipment notifications (ASNs) electronically or via the Web.	1 - NA / Not Supported	
IM008	Receiving	Define your ability to post real time to customer inventory systems.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Inventory Management (IM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
IM009	Receiving	Define your ability to enter quality inspection information online at point of receiving.	1 - NA / Not Supported	
IM010	Receiving	Define your ability to receive items into receiving inspection, directly to inventory or the shop floor.	1 - NA / Not Supported	
IM011	Receiving	Define your ability to receive unordered items and later match them to POs.	1 - NA / Not Supported	
IM012	Receiving	Define your ability to record lot and serial number.	1 - NA / Not Supported	
IM013	Receiving	Define your ability to receive substitute items.	1 - NA / Not Supported	
IM014	Receiving	Define your ability to print receipt traveler.	1 - NA / Not Supported	
IM015	Receiving	Define your ability to define your ability to alert buyers, requestors and vendors of receiving discrepancies.	1 - NA / Not Supported	
IM016	Receiving	Define your ability to automatically close a PO Line to receiving when the amount received is greater than or equal to the amount ordered.	1 - NA / Not Supported	
IM017	Receiving	Define your ability to print shortage information including but not limited to: • Item • Quantity • Deliver-to-location on the receipt traveler/label.	1 - NA / Not Supported	
IM018	Receiving	Define your ability to back date receipts.	1 - NA / Not Supported	
IM019	Receiving	Define your ability to automatically determine put away location for a receipt.	1 - NA / Not Supported	
IM020	Receiving	Define your ability to hold a put away if the designated location is part of a cycle count that has not been completed.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Inventory Management (IM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
IM021	Receiving	Define your ability to prompt to add item physically in designated location to a cycle count for immediate counting.	1 - NA / Not Supported	
IM022	Receiving	Define your ability to flag hazardous material or items requiring special handling.	1 - NA / Not Supported	
IM023	Receiving	Define your ability to utilize RF scanning devices to: • Move and close product receipt at putaway: • Capture counts	1 - NA / Not Supported	
IM024	Receiving	Define your ability to track all receiving record stages of receipt, from loading dock to final consignment.	1 - NA / Not Supported	
IM025	Return Process	Define your ability to support an RA/RMA-based item return process.	1 - NA / Not Supported	
IM026	Return Process	Define your ability to automatically reverse receiving for returns and adjust Accounts Payable records with the expectation of a credit memo.	1 - NA / Not Supported	
IM027	Inventory Tracking	Define your ability to maintain a store's inventory for office supplies, textbook inventory tracking and other movable assets on-line and allow departments to view the inventory prior to requisitioning.	1 - NA / Not Supported	
IM028	Inventory Tracking	Define your ability to set up and track inventory at multiple locations/warehouses.	1 - NA / Not Supported	
IM029	Inventory Tracking	Define your ability to transfer inventory between locations and partially fill orders, while maintaining the audit trail.	1 - NA / Not Supported	
IM030	Inventory Tracking	Define your ability to integrate the Inventory system with external bar-coding/scanning applications to facilitate more accurate tracking of inventory.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Inventory Management (IM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
IM031	Inventory Tracking	Define your ability to support tracking of textbook inventory at the School level.	1 - NA / Not Supported	
IM032	Inventory Tracking	Define your ability to provide visibility into inventory balances for specific warehouses to all departments and schools on an inquiry basis.	1 - NA / Not Supported	
IM033	Inventory Tracking	Define your ability to support paperless picking, packing and shipping.	1 - NA / Not Supported	
IM034	Inventory Tracking	Define your ability to support an electronic signature system for delivery and tracking of delivery.	1 - NA / Not Supported	
IM035	Inventory Tracking	Define your ability to track work orders through each stage (received at warehouse, pick, pack, in transit, delivered) and allows customers to look up the status of their order in the system.	1 - NA / Not Supported	
IM036	Inventory Tracking	Define your ability to provide visibility into the queue of work orders packed but not shipped.	1 - NA / Not Supported	
IM037	Inventory Tracking	Define your ability to provide backorder processing.	1 - NA / Not Supported	
IM038	Inventory Tracking	Define your ability to provide aged backlog tracking.	1 - NA / Not Supported	
IM039	Inventory Tracking	Define your ability to provide a reserve inventory backup location finder.	1 - NA / Not Supported	
IM040	Inventory Tracking	Define your ability to report daily on a driver's time stamped deliveries.	1 - NA / Not Supported	
IM041	Inventory Tracking	Define your ability to support the use of multiple units of measure (UOMs) for the same item. Example: the District may purchase paper by the case, but distribute ("sell") to schools by the ream.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Inventory Management (IM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
IM042	Inventory Tracking	Define your ability to provide information on orders placed but not approved at the book code/SKU level.	1 - NA / Not Supported	
IM043	Inventory Tracking	Define your ability to alert users when individual book codes/SKUs are in a position of shortfall, stock out or excess for expedited reaction to these situations.	1 - NA / Not Supported	
IM044	Inventory Tracking	Define your ability to perform a WIP physical inventory.	1 - NA / Not Supported	
IM045	Inventory Tracking	Define your ability to disable specific transactions or user access during inventory count.	1 - NA / Not Supported	
IM046	Inventory Tracking	Define your ability to define physical count scope and tolerance including but not limited to: • Organization • Sub-inventory	1 - NA / Not Supported	
IM047	Inventory Tracking	Define your ability to identify tags/counts sheets that are not entered.	1 - NA / Not Supported	
IM048	Inventory Tracking	Define your ability to systematically compare counts to system on-hand balances and calculate adjustments.	1 - NA / Not Supported	
IM049	Inventory Tracking	Define your ability to understand which adjustments fall outside of tolerances and need approval.	1 - NA / Not Supported	
IM050	Inventory Tracking	Define your ability to systematically approve and post adjustments.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Inventory Management (IM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
IM051	Inventory Tracking	Define your ability to add/delete/modify fields on Tag/Count sheets to include but not limited to: • Item number • Description • Count Quantity • Unite of Measure • Locator • Comments • Counter initials	1 - NA / Not Supported	
IM052	Inventory Tracking	Define your ability to track inventory the district owns at external sites as separate sub-inventory and/or location.	1 - NA / Not Supported	
IM053	Inventory Tracking	Define your ability to manage returns for but not limited to: • Damage • Defective product • Cores • Unused issued items	1 - NA / Not Supported	
IM054	Inventory Tracking	Define your ability to track and manage stock levels on a bench and/or truck.	1 - NA / Not Supported	
IM055	Inventory Tracking	Define your ability to signal counts when the balance in a locator hits zero.	1 - NA / Not Supported	
IM056	Inventory Tracking	Define your ability to divide the counts that are to be conducted over time into relatively equal daily count lists.	1 - NA / Not Supported	
IM057	Inventory Tracking	Define your ability to require a recount when a mismatch in serial numbers occurs prior to an adjustment being made.	1 - NA / Not Supported	
IM058	Inventory Tracking	Define your ability to set tolerance levels to automatically determine whether or not a recount is necessary. Are tolerances based on quantities, extended value or both.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Inventory Management (IM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
IM059	Inventory Tracking	Define your ability to - Specify Serial Numbers on the count list so they can be verified as part of the count process - Enable serial numbers to be scanned in from bar code as part of the count process	1 - NA / Not Supported	
IM060	Inventory Tracking	Define your ability to allow Lot Numbers to be specified on the count list so that lots can be verified as part of the count process.	1 - NA / Not Supported	
IM061	Inventory Tracking	Define your approval process for adjustments.	1 - NA / Not Supported	
IM062	Inventory Tracking	Define your ability to support on-site supplier managed replenishment transactions.	1 - NA / Not Supported	
IM063	Inventory Tracking	Define your ability to establish inventory usage categories and to select usage when inventory transactions are created.	1 - NA / Not Supported	
IM064	Planning	Define your ability to provide support for Min/Max Planning and reporting and integrate with Purchasing to facilitate replenishment as needed.	1 - NA / Not Supported	
IM065	Planning	Define your ability to provide the ability to electronically transmit inventory information and min/max windows to vendors. Does the system provide web-access to vendors with consignment inventory that don't have the facility for electronic data transfer.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Inventory Management (IM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
IM066	Planning	Define your ability to provide simple forecasting and demand planning including but not limited to: • Best fit forecasting functionality • Seasonal item forecasting • Forecasting variance analysis • Does the Forecasting tool provide a graphical view of the forecasts on a per item basis.	1 - NA / Not Supported	
IM067	Planning	Define your ability to do supplier lead time analysis in order to identify trends in early/late deliveries and under/over delivery for inventory management calculations.	1 - NA / Not Supported	
IM068	Planning	Define your ability to perform trip planning including but not limited to: • Reviewing order backlog, • Group order lines into deliveries and trips to simplify the pick and stage process	1 - NA / Not Supported	
IM069	Administrating Orders	Define your ability to utilize claims and returns reason and feed them to order fulfillment to improve overall delivery quality.	1 - NA / Not Supported	
IM070	Administrating Orders	Define your ability to automatically update customer order information once picking, verification and loading are complete.	1 - NA / Not Supported	
IM071	Administrating Orders	Define your ability to order products by shipment volume to minimize handling and to optimize traffic flow; use of fulfillment zones based on product volume.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Inventory Management (IM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
IM072	Administrating Orders	Define your ability to specify the sequence of vehicle loading/unloading for a delivery utilizing vehicle loading sequence to drive order fulfillment cycles.	1 - NA / Not Supported	
IM073	Administrating Orders	Define your ability to automatically perform available-to-promise calculation based on material request against any stocked item and alert requestor.	1 - NA / Not Supported	
IM074	Administrating Orders	Define your ability to place a location on hold to prevent picks from being routed to it (i.e., part problem, quantity discrepancies, etc.).	1 - NA / Not Supported	
IM075	Administrating Orders	Define your ability to utilize FIFO and other picking rules when more than one location is possible for an item.	1 - NA / Not Supported	
IM076	Administrating Orders	Define your ability to create backorders (shortages) based on unfulfilled picks of any kind.	1 - NA / Not Supported	
IM077	Administrating Orders	Define your ability to trigger a cycle count based on a discrepancy noted during a pick.	1 - NA / Not Supported	
IM078	Administrating Orders	Define your ability to generate a cycle count credit at a location that a pick has zeroed out.	1 - NA / Not Supported	
IM079	Generate Picking Documents	Define your ability to insert "hot" picks into the picking process without interrupting the normal flow. Also able to flag the pick as "hot" to prompt special handling.	1 - NA / Not Supported	
IM080	Generate Picking Documents	Define your ability to verify pick accuracy.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Inventory Management (IM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
IM081	Generate Picking Documents	Define your ability to eliminate from the pick process pick shorts due to lack of inventory and communicate automatically to customer service and inventory planning organizations.	1 - NA / Not Supported	
IM082	Generate Picking Documents	Define your ability to automatically update performance measurement program database with picker quality.	1 - NA / Not Supported	
IM083	Generate Picking Documents	Define your ability to define pick rules and sort picklist to: • Optimize picking • Direct pick to a location with enough parts to minimize split pulls.	1 - NA / Not Supported	
IM084	Generate Picking Documents	Define your ability to display picking tasks and track picking performance on RF Terminal, Handheld device (RF or batch).	1 - NA / Not Supported	
IM085	Generate Picking Documents	Define your ability to record product relief which occurs at time product is removed from location.	1 - NA / Not Supported	
IM086	Generate Picking Documents	Define your ability to allow replenishment/putaway operations to occur simultaneously with picking operations.	1 - NA / Not Supported	
IM087	Generate Picking Documents	Define your ability to display special handling instructions during picking.	1 - NA / Not Supported	
IM088	Generate Picking Documents	Define your ability to send picking requirements electronically to a external third party.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Inventory Management (IM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
IM089	Order Fulfillment	Define your ability to Integrated with applications for order management, warehouse management and transportation management.	1 - NA / Not Supported	
IM090	Order Fulfillment	Define your ability to leverage VMI techniques and technologies to manage customer inventories and smooth order demand.	1 - NA / Not Supported	
IM091	Order Fulfillment	Define your ability to: • Systematically generate Material requirements: • Replenishment trigger: • Periodic pulls	1 - NA / Not Supported	
IM092	Warehouse Layout Management	Define your ability to: • Identify a list of empty storage locations at a facility • The percentage of the total storage locations that are empty • The percentage of the storage locations in each size category that are empty	1 - NA / Not Supported	
IM093	Warehouse Layout Management	Define your ability to specify that certain locations are appropriate for hazardous material.	1 - NA / Not Supported	
IM094	Warehouse Layout Management	Define your ability to identify how frequently a given item and/or storage location and/or item in a given storage location has been accessed at a given facility.	1 - NA / Not Supported	
IM095	Warehouse Layout Management	Define your ability to report the proportion of a given time period that a storage location is empty or occupied.	1 - NA / Not Supported	
IM096	Accounting Functions	Define your ability to facilitate inventory accounting to enable charging dollar cost to items in inventory.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Inventory Management (IM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
IM097	Accounting Functions	Define your available inventory accounting methods (i.e., average cost) for tracking/segregating purchased and "free" inventory items.	1 - NA / Not Supported	
IM098	Accounting Functions	Define your ability to support consignment inventory functionality.	1 - NA / Not Supported	
IM099	Accounting Functions	Define your ability to change the SKU unit cost based on cost averaging the combination of the on hand inventory and the new receipt.	1 - NA / Not Supported	
IM100	Accounting Functions	Define your ability to provide a cycle count program based on ABC analysis.	1 - NA / Not Supported	
IM101	Accounting Functions	Define your ability to provide cycle count history tracking.	1 - NA / Not Supported	
IM102	Accounting Functions	Define your ability to view transaction activity on book code/SKU for a designated period of time.	1 - NA / Not Supported	
IM103	Accounting Functions	Define your ability to allow all functionality interfacing with accounting to be transparent to the warehouse.		
IM104	Accounting Functions	Define your ability to address physical inventory & reconciliation processes.	1 - NA / Not Supported	
IM105	Accounting Functions	Define your ability to generate an invoice/bill of sale.	1 - NA / Not Supported	
IM106	Reporting	Define your software's report writer and ad-hoc query tools including support for multi-dimensional data analysis with drill down capability.	1 - NA / Not Supported	
IM107	Reporting	Define your ability to allow user defined online or hard copy reports utilizing ad-hoc query/reporting tool. Examples include but are not limited to: • book code/SKU-level information on orders placed, but not approved	1 - NA / Not Supported	

Miami-Dade County Public Schools: Inventory Management (IM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
IM108	Reporting	Define your ability to provide activity tracking and produce graphs.	1 - NA / Not Supported	
IM109	Reporting	Define your ability to provide productivity tracking by operator/activity.	1 - NA / Not Supported	
IM110	Reporting	Define your ability to view/report expected receipts by promised date.	1 - NA / Not Supported	
IM111	Reporting	Define your ability to provide a vendor portal/vendor self-service including but not limited to: • Secure Access including automatic password resets • Restricting data available to vendors • Ability to view status of receipts • Ability to select invoices for early payment by offering a discount • Ad-hoc reporting with drill-down capabilities	1 - NA / Not Supported	
IM112	Reporting	Define your ability to provide a vendor portal/vendor self-service including but not limited to: • Ability to view the inventory that they manage • Ability to capture min/max levels • Access supplier's (external/internal) minimum/maximum replenishment level data at the Third Party Logistics warehouse • Measure and report supplier's effectiveness in managing replenishment (i.e., min/max performance, inventory turns, service level) • Ability to view balance, receipt, actual consumption and planned consumption information	1 - NA / Not Supported	

Miami-Dade County Public Schools: Inventory Management (IM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
IM113	Reporting	Define your ability to report adjustments pending approval.	1 - NA / Not Supported	
IM114	Reporting	Define your ability to view/report consigned inventory belonging to a particular customer and its location.	1 - NA / Not Supported	
IM115	Reporting	Define your ability to view/report all adjustments and sort by including but not limited to: • Date • Item • Absolute dollar difference • Actual dollar difference • Absolute quantity difference • Actual quantity difference • Ad-hoc reporting with drill-down capabilities	1 - NA / Not Supported	
IM116	Reporting	Define your ability to view/report record statistics about the cycle counting process including but not limited to: • Date last counted for an item in a sub-inventory • Quantity and value of any count adjustment • Absolute quantity and value of any count adjustment • rolling six month averages Define the calculations to determine if the cycle count program is meeting requirements.	1 - NA / Not Supported	
IM117	Reporting	Define your ability to generate email notifications to: • Purchasing Buyer notifying when min/max levels are violated	1 - NA / Not Supported	

Miami-Dade County Public Schools: Inventory Management (IM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
IM118	Reporting	Define your ability to view/report and generate automatic email notification on excess inventory based on user defined parameters including but not limited to: • New excess situation • Review frequency (calendar/fiscal period) • Disposition status	1 - NA / Not Supported	
IM119	Reporting	Define your ability to input and report upon causes of excess inventory.	1 - NA / Not Supported	
IM120	Reporting	Define your ability to review lot numbers/serial numbers and date codes of items in an asset or expensed sub-inventory.	1 - NA / Not Supported	
IM121	Reporting	Define your ability to view/report by planner/buyer for items where adjustments cause a stockout.	1 - NA / Not Supported	
IM122	Reporting	Define your ability to view/report labor percentages and picks per hour for employee performance goals.	1 - NA / Not Supported	
IM123	Reporting	Define your ability to view/report measures of efficiency over time for a storage facility, including but not limited to: • Transactions per time period • Transactions per time period per person • Average time between request and fulfillment of request	1 - NA / Not Supported	

Miami-Dade County Public Schools: Procurement Transactional (PT)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
PT001	Requisition Creation and Processing	Ability to utilize web-based item catalogs used for self-service requisition and web-based tools used for direct and indirect materials and services and capital purchases.	1 - NA / Not Supported	
PT002	Requisition Creation and Processing	Ability to electronically integrate between procurement systems and other systems within the organization.	1 - NA / Not Supported	
PT003	Requisition Creation and Processing	Describe your software's capacity for utilization of automated workflow for routing, modification (i.e., account cost center) and approval verification and signature process for requisitions, Po's, change orders, contracts, etc.	1 - NA / Not Supported	
PT004	Requisition Creation and Processing	Ability to set approval levels based on dollar thresholds as well as by item type (Capital and Technical items).	1 - NA / Not Supported	
PT005	Requisition Creation and Processing	Ability to delete, place on hold and suspend Requisitions.	1 - NA / Not Supported	
PT006	Requisition Creation and Processing	Describe your systems ability for the software to automatically assign Requisition number.	1 - NA / Not Supported	
PT007	Requisition Creation and Processing	Ability to prorate freight and other miscellaneous charges across Requisition lines by percentage and by quantity.	1 - NA / Not Supported	
PT008	Requisition Creation and Processing	Describe your systems ability to create a requisition from a template using pre-populated account information and other financial information (e.g., terms, contract info., etc.) based on user, business unit, vendor, etc	1 - NA / Not Supported	

Miami-Dade County Public Schools: Procurement Transactional (PT)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
PT009		Describe how your software allows users on-line access to all information on items available to purchase including pictures, prices, delivery time, specifications, etc.	1 - NA / Not Supported	
PT010	Requisition Creation and Processing	Describe your software's budget validation/encumbrance workflow for requisitions, including the following: 1. Validating requisitions versus budget (funds availability checking/warnings) and pre-encumbering money by department at requisition entry. 2. Prevent approval of requisitions where spending exceeds a pre-determined threshold versus a total commodity contract dollar/unit amount. 3. Preventing NSF/non-validated requisitions from entering purchasing agent/buyer work queues. 4. Automatically assigning validated (funds available/pre-encumbered) requisitions to purchasing agent/buyer work queues. 5. Automatically generating encumbrances as requisitions become approved purchase orders.	1 - NA / Not Supported	
PT011	Requisition Creation and Processing	Describe your software's ability to process Requisitions at a centralized location, and either keep expenses centrally or spread across multiple locations.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Procurement Transactional (PT)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
PT012	Requisition Creation and Processing	Ability to use account/cost center distributions on Requisition lines.	1 - NA / Not Supported	
PT013	Requisition Creation and Processing	Ability to view Vendor details while entering Requisitions.	1 - NA / Not Supported	
PT014	Requisition Creation and Processing	Describe your systems software's ability to accommodate changes in the number of characters per field.	1 - NA / Not Supported	
PT015	Requisition Creation and Processing	Ability to enter Requisitions tied to existing PO's (i.e., Blanket PO process).	1 - NA / Not Supported	
PT016	Requisition Creation and Processing	Ability to create recurring Requisition for utilities, leases, etc.	1 - NA / Not Supported	
PT017	Requisition Creation and Processing	Ability to enter a Requisition for a given Vendor, but indicate a different Vendor to remit payment to (i.e., factoring).	1 - NA / Not Supported	
PT018	Requisition Creation and Processing	Ability to enter suggested delivery dates for a Requisition line item.	1 - NA / Not Supported	
PT019	Requisition Creation and Processing	Describe your systems software's ability to order from a shopping cart and to prompt for substitute / alternate items if required item is out of stock.	1 - NA / Not Supported	
PT020	Requisition Creation and Processing	Ability to record vendor's item #, manufacturer / brand information on req. line.	1 - NA / Not Supported	
PT021	Requisition Creation and Processing	Ability to flag line item for inspection.	1 - NA / Not Supported	
PT022	Requisition Creation and Processing	Describe your system software's ability to select standard, canned comments or addition of free form text and how it attaches to the Requisition header or line item.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Procurement Transactional (PT)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
PT023	Requisition Creation and Processing	Ability to query and sort on multiple fields including, Location, Vendor, Buyer, Approval Date, Requisition Status, Account, Quantity, Unit of Measure and Commodity coding information.	1 - NA / Not Supported	
PT024	Requisition Creation and Processing	Ability to create request for quotations (RFQs) automatically from online requisitions.	1 - NA / Not Supported	
PT025	Requisition Creation and Processing	Describe your system software's ability to partially source a requisition to a PO or multiple purchase orders and multiple requisitions to a single PO using single and/or multiple contracts.	1 - NA / Not Supported	
PT026	Requisition Creation and Processing	Describe your software's ability to allow purchasing agents to override either user specified or system generated vendors and prices.	1 - NA / Not Supported	
PT027	Requisition Creation and Processing	Describe your software's ability to order from multiple contracts on one requisition.	1 - NA / Not Supported	
PT028	Standard PO Processing	Ability to convert approved requisitions to purchase orders automatically using requisition detail.	1 - NA / Not Supported	
PT029	Standard PO Processing	Ability to inquire on Purchase Orders by multiple criteria including Requisition number, Vendor, Requisition date, PO number, Contract, Account, Cost, and Location.	1 - NA / Not Supported	
PT030	Standard PO Processing	Describe your systems software's ability to utilize both two and three way matching, criteria for matching (unit price, qty invoiced, qty received) and override process, as well as the query and reporting functions.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Procurement Transactional (PT)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
PT031	Standard PO Processing	Ability to use account/cost center distributions on PO lines.	1 - NA / Not Supported	
PT032	Standard PO Processing	Ability to automatically match Purchase Order and receipt information within defined parameters/tolerance.	1 - NA / Not Supported	
PT033	Standard PO Processing	Ability to request an MSDS for the PO line item.	1 - NA / Not Supported	
PT034	Standard PO Processing	Ability to provide multiple shipment schedules/distribution lines per PO line.	1 - NA / Not Supported	
PT035	Standard PO Processing	Ability to access sourcing and inventory information online while building PO's.	1 - NA / Not Supported	
PT036	Standard PO Processing	Describe your software's ability to add specific information regarding asset placement to a Req./PO. Details could include Department Area or Room Number, more specific than delivery address, to assist Asset staff in locating new capital assets for proper tagging.	1 - NA / Not Supported	
PT037	Standard PO Processing	Ability to assign work order # and project level information to a purchase order from the Requisition.	1 - NA / Not Supported	
PT038	Standard PO Processing	Ability to reference purchasing contracts and reference them on POs.	1 - NA / Not Supported	
PT039	Standard PO Processing	Ability of system to create a Purchase Order based on stockroom / inventory demand (stock replenishment).	1 - NA / Not Supported	
PT040	Standard PO Processing	Describe your systems ability to query and sort on multiple fields including, Location, Vendor, Buyer, Approval Date, PO Status, Account, Quantity, Unit of Measure and Commodity coding information.	1 - NA / Not Supported	
PT041	Standard PO Processing	Ability to create Blanket Orders, Standard Orders and Pricing Agreements.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Procurement Transactional (PT)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
PT042	Standard PO Processing	Ability to define due dates on Purchase Order.	1 - NA / Not Supported	
PT043	Standard PO Processing	Ability to transmit Pos and PO change information via multiple methods: (e.g. hard copy, fax, email or other electronic method)	1 - NA / Not Supported	
PT044	Standard PO Processing	Ability to auto number Purchase Orders.	1 - NA / Not Supported	
PT045	Standard PO Processing	Ability to identify anomalies and errors in Requisitions and Purchase Orders.	1 - NA / Not Supported	
PT046	PO Change Order Processing	Ability to make adjustments to Requisitions and Purchase Orders.	1 - NA / Not Supported	
PT047	Procurement Card Processing	Ability to utilize P-cards and EFT for purchase order settlement.	1 - NA / Not Supported	
PT048	Procurement Card Processing	Ability to post procurement card transactions to a single or multiple general-ledger account structure.	1 - NA / Not Supported	
PT049	Reporting	Describe your software system's ability to generate Ad-Hoc reports by vendor, terms, volume, fund, location, contract, spend etc. and define how user controls are applied.	1 - NA / Not Supported	
PT050	Reporting	Ability to interface with the vendor master to support performance measurement calculation and reporting (cycle time, spend volume).	1 - NA / Not Supported	
PT051	Requisition Creation and Processing	Describe your systems software's ability to direct requisitioners to a Shopping Cart or Web-based catalog.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Procurement Transactional (PT)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
PT052	Standard PO Processing	Describe your software systems training manuals and guidelines as they exist related to the software package for requisition, po processing.	1 - NA / Not Supported	
PT053	M-DCPS Requirement	Ability to convert UOM from information integrated from subsystems.	1 - NA / Not Supported	
PT054	M-DCPS Requirement	Ability to change fund structure, without losing history of past financial information.	1 - NA / Not Supported	
PT055	M-DCPS Requirement	Ability to generate automatic email notification to party assigned to receive goods/services (when buying on behalf of).	1 - NA / Not Supported	
PT056	M-DCPS Requirement	Ability to integrate P-card vendor transactional history into system for historic reporting.	1 - NA / Not Supported	
PT057	M-DCPS Requirement	Ability to create a "dashboard" view of key Procurement transaction information, updated automatically.	1 - NA / Not Supported	
PT058	M-DCPS Requirement	Ability run multiple sessions and view specific transaction information (multiple screens in single session).	1 - NA / Not Supported	
PT059	Purchasing	Describe your software's ability to allow for free text and/or clauses to be applied throughout POs (i.e., Header, footer, line item).	1 - NA / Not Supported	
PT060	Purchasing	Describe your software's capabilities for electronically attaching/viewing/transmitting additional documents (i.e., terms & conditions) with all purchase orders.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Procurement Transactional (PT)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
PT061	Purchasing	Describe your software's ability to identify trade-ins and show trade in value as a credit on purchase order including: 1. Ability to route to Fixed Assets for approval on trade-ins involving capital assets.	1 - NA / Not Supported	
PT062	Purchasing	Describe your software's capabilities for processing change orders including the following: 1. Maintaining history of changes. 2. Alerting affected users (requester, purchasing agent/buyer, vendor) of changes to the purchase order. 3. Automatically or manually close/adjust purchase order without receiving items.	1 - NA / Not Supported	
PT063	Purchasing	Describe your software's ability to do expediting reports, past due deliveries, purchase order aging, etc.	1 - NA / Not Supported	
PT064	Purchasing	Describe your software's ability to allow annual automatic processing or renewal of ongoing blanket purchase orders.	1 - NA / Not Supported	
PT065	Purchasing	Describe your software's ability to enable schools, departments or other end users to check the status of bids / quotes, requisitions, purchase orders, etc.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Procurement Transactional (PT)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
PT066	Purchasing	Describe your software's capabilities for enabling end-user (i.e., buyer or purchasing agent) communication with vendors (i.e., emailing follow-up letters or other system-generated notifications) regarding purchase orders.	1 - NA / Not Supported	
PT067	Purchasing	Describe your software's ability to automatically close a purchase order when all items are received and the final invoice is paid.	1 - NA / Not Supported	
PT068	Purchasing	Describe your software's ability to carry over open purchase orders to the following fiscal year.	1 - NA / Not Supported	
PT069	Purchasing	Describe your system's capabilities for generating repair orders and link them to purchase orders for tracking vendor violations such as short shipments, quality problems, late shipments, etc.	1 - NA / Not Supported	
PT070	Purchasing	Describe your software's capabilities for referencing data in the contract management system by commodity to find the best prices per negotiated contracts.	1 - NA / Not Supported	
PT071	Purchasing	Describe your software's ability to provide for immediate printing of the purchase order.	1 - NA / Not Supported	
PT072	Purchasing	Describe your software's capabilities for notifying the user if item, unit quantity or price does not match contract terms and alerting the user of contract price breaks at purchase order entry.	1 - NA / Not Supported	
PT073	Textbook Purchasing	Describe how your software allows on-line access to District-adopted texts and ancillaries for ordering by schools.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Procurement Transactional (PT)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
PT074	Textbook Purchasing	Describe your software's ability to use integrated textbook database that can sort by any of the fields in the textbook record.	1 - NA / Not Supported	
PT075	Textbook Purchasing	Describe your software's ability to assign multiple (minimum of 5) course codes to the records of textbooks in the database.	1 - NA / Not Supported	
PT076	Textbook Purchasing	Describe your software's ability to restrict items in the database that can be ordered by schools.	1 - NA / Not Supported	
PT077	Textbook Purchasing	Describe your software's ability to consolidate school orders entered into the ERP textbook ordering system and produce order lists by vendor.	1 - NA / Not Supported	
PT078	Textbook Purchasing	Describe your software's ability to calculate quantities of free materials that will be generated by purchase of associated textbooks.	1 - NA / Not Supported	
PT079	Textbook Purchasing	Describe your software's ability to get system-generated shipping invoices for separation of each school's order.	1 - NA / Not Supported	
PT080	Textbook Purchasing	Describe your software's ability to have a District-wide inventory database and to maintain an individual school inventory record of items on hand at each location book code, ISBN or title.	1 - NA / Not Supported	
PT081	Textbook Purchasing	Describe your software's ability to have schools list excess quantities of items that are available for transfer to other schools.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Procurement Transactional (PT)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
PT082	Textbook Purchasing	Describe your software's ability to match student enrollment databases in courses and grades (student information system) against current textbook inventory records for the school to prevent over-ordering.	1 - NA / Not Supported	
PT083	Textbook Purchasing	Describe your software's capabilities for enabling free material tracking at the inventory and accounting levels including ability to exclude free materials from showing as a budgetary expense.	1 - NA / Not Supported	
PT084	Textbook Purchasing	Describe your software's ability to update inventory records when books are issued to schools or returned to warehouse from schools.	1 - NA / Not Supported	
PT085	Textbook Purchasing	Describe your software's ability to track item expenditures by book code (6-digit minimum) or ISBN.	1 - NA / Not Supported	
PT086	Textbook Purchasing	Describe your software's ability to store publisher free ratio for items in database and to calculate quantity of free materials based on total order.	1 - NA / Not Supported	
PT087	Textbook Purchasing	Describe your software's ability to easily add, delete, and modify records of items in the database.	1 - NA / Not Supported	
PT088	Textbook Purchasing	Describe your software's ability to track items issued to schools by teacher or by student.	1 - NA / Not Supported	
PT089	Textbook Purchasing	Describe how your software tracks backorders by school/location, item, purchase order number, and order date.	1 - NA / Not Supported	
PT090	Textbook Purchasing	Describe your software's ability to restrict schools' access to ordering screens and reporting of losses during certain times of the year.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Procurement Transactional (PT)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
PT091	Textbook Purchasing	Describe your software's ability to track student textbook obligations by book in any school in the district.	1 - NA / Not Supported	
PT092	Textbook Purchasing	Describe your software's ability to track issued consumables based on student enrollment in a course and its ability to suggest an order for the upcoming school year based on future course enrollment and current on-hand levels of consumable inventory.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Sourcing (S)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
S001	Sourcing Planning	Describe your software's ability for staff to select vendors by their designated commodity codes or by name and to notify vendors electronically of a bid opportunity (i.e., EDI, e-mail or fax) from more than one commodity code and place them on a vendor list.	1 - NA / Not Supported	
S002	Sourcing Planning	Describe your software's ability to aggregate multiple sources of expenditure data (line item spend data, PO, P-card, supplier contract information, multiple bid/RFP/RFQ information) to the sourcing activity.	1 - NA / Not Supported	
S003	Sourcing Planning	Describe your software's ability to conduct supplier searches by multiple criteria (geography, revenue size, minority/woman owned business).	1 - NA / Not Supported	
S004	Sourcing Planning	Describe your software's ability to assign specific weighting to the strategic importance of a commodity.	1 - NA / Not Supported	
S005	Sourcing Planning	Describe your software's ability to provide a flexible dashboard tool that will include work plan, messaging, event planning, etc.	1 - NA / Not Supported	
S006	Solicitation	Describe your software's ability for vendors to receive Invitations to Bid and other competitive solicitations on-line.	1 - NA / Not Supported	
S007	Solicitation	Describe your software's ability to advertise bid information on the internet allowing other vendors to compete if interested.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Sourcing (S)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
S008	Solicitation	Describe your software's ability to notify all vendors who received solicitations of release of addendums and obtain electronic proof of the vendors who downloaded or otherwise received solicitation and addendums for record.	1 - NA / Not Supported	
S009	Solicitation	Describe your software's ability for vendors to complete competitive solicitations on-line, electronically sign and return them to us via a "lockbox" to be opened at a specified date and time.	1 - NA / Not Supported	
S010	Solicitation	Describe your software's ability to use reverse auctioning.	1 - NA / Not Supported	
S011	Solicitation	Describe your software's ability to notify buyer of quote expiration.	1 - NA / Not Supported	
S012	Analysis	Describe your software's ability to tabulate competitive solicitations and highlight lowest bidders for evaluation.	1 - NA / Not Supported	
S013	Analysis	Describe your software's ability to use "what if" scenarios when tabulating vendors to analyze total cost, or comparison against historical actuals.	1 - NA / Not Supported	
S014	Analysis	Describe your software's ability to send acceptance and rejection letters after analysis of competitive solicitation.	1 - NA / Not Supported	
S015	Sourcing Data Mgmt	Describe your software's ability to post the completed tabulations and all associated documents online and to automatically update the School District's web site.	1 - NA / Not Supported	
S016	Sourcing Data Mgmt	Describe your software's ability to provide savings breakdown on bids or other competitive solicitations.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Sourcing (S)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
S017	Sourcing Data Mgmt	Describe your software's ability to enable schools or departments to check status of bids/quotes, requisitions, PO's etc on-line.	1 - NA / Not Supported	
S018	Sourcing Data Mgmt	Describe your software's ability to perform ad hoc queries and reports of data, including drill down capabilities (by buyer, commodity, requisitioner).	1 - NA / Not Supported	
S019	Sourcing Data Mgmt	Describe your software's ability to integrate with other enterprise systems to collect and consolidate information for commodity analysis.	1 - NA / Not Supported	
S020	Sourcing Data Mgmt	Describe your software's ability to link customer satisfaction and performance history to upcoming sourcing activities.	1 - NA / Not Supported	
S021	Sourcing Data Mgmt	Describe your software's ability to maintain a library of templates for bids, quotes, and RFP's, including the ability to add spreadsheet, and image files.	1 - NA / Not Supported	
S022	Analysis	Describe your software's ability to adjust bid/RFP or contract amounts based on P-card purchases.		Duplicate Question - Deleted from RFP.

Miami-Dade County Public Schools: Supply Data Management (SDM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
SDM001	Item Management	Describe your software's ability to maintain a centralized item master, using a template to create new items.	1 - NA / Not Supported	
SDM002	Item Management	Describe your software's ability to add, update, remove, and inactivate items from the item master.	1 - NA / Not Supported	
SDM003	Item Management	Describe your software's ability to define and modify commodity codes to classify/categorize items (i.e., parent/child).	1 - NA / Not Supported	
SDM004	Item Management	Describe your software's ability to associate purchasable items to supplier(s), bids, contracts, or external data files (catalogs).	1 - NA / Not Supported	
SDM005	Item Management	Describe how, once items are awarded, your software has the ability to electronically input items from bid tabulations, catalogs, or other PDF file formats to populate a Shopping Cart that end users will use to order items.	1 - NA / Not Supported	
SDM006	Item Management	Describe your ability to maintain price quotations, and flag buyers prior to expiration of quote.	1 - NA / Not Supported	
SDM007	Item Management	Describe your ability to establish integration points (crosswalk) to existing item master subsystems.	1 - NA / Not Supported	
SDM008	Item Management	Describe your software's ability to maintain and update price, delivery time, vendor, total spend, spend by department, spend by vendor, etc. on each item.	1 - NA / Not Supported	
SDM009	Item Management	Describe your ability to maintain item information for multiple revisions of the same item, UOM's, and substitute items.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Supply Data Management (SDM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
SDM010	Item Management	Describe your software's ability to trend item and pricing information including number of items purchased, dollar value, supplier(s), commodity item was purchased from, etc. across multiple fiscal years/accounting periods.	1 - NA / Not Supported	
SDM011	Item Management	Describe how your software allows users on-line access to all information on items available to purchase including pictures, prices, delivery time, specifications, etc.	1 - NA / Not Supported	
SDM012	Item Management	Describe your ability to enable users to create their own item catalog of favorite items.	1 - NA / Not Supported	
SDM013	Item Management	Describe your ability to attach specifications, terms and conditions to each item ordered within the Shopping Cart.	1 - NA / Not Supported	
SDM014	Item Management	Describe your ability to update and remove items automatically from the Shopping Cart once bids expire or items become unavailable without losing their history.	1 - NA / Not Supported	
SDM015	Item Management	Describe your software's ability to track items that are out for bid during the bidding process.	1 - NA / Not Supported	
SDM016	Item Management	Describe your software's ability to update pricing catalogs, contracts, or agreements.	1 - NA / Not Supported	
SDM017	Item Management	Describe your software's ability to identify substitute or replacement items within the Shopping Cart.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Supply Data Management (SDM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
SDM018	Vendor Management	Describe your software's vendor portal/vendor self service capabilities including: Basic Vendor and M/WBE application on-line, ability to provide portal access instructions to new vendors at time they are added to vendor master.	1 - NA / Not Supported	
SDM019	Vendor Management	Vendor's ability to manage their own contact information, commodity codes, remittance information, etc.	1 - NA / Not Supported	
SDM020	Vendor Management	Ability to secure access to vendor information, including automatic password resets, and to restrict data available to vendors or specific groups or individuals.	1 - NA / Not Supported	
SDM021	Vendor Management	Ability to periodically contact suppliers for updated information, or to provide online information to suppliers.	1 - NA / Not Supported	
SDM022	Vendor Management	Describe your software's capabilities for defining multiple vendor addresses and parent/child location relationships/groupings in the vendor master file, including the following: 1. Associating specific addresses with commodity codes 2. Designating Ordering, Invoicing, Remitting, returning addresses 3. Linking all "child" addresses/locations to a single "parent" vendor ID. 4. Linking multiple supplier locations assigned to a single supplier.	1 - NA / Not Supported	
SDM023	Vendor Management	Describe your software's capabilities for classifying/categorizing vendors (i.e., minority, construction, consultant, etc., and for distinguishing vendor status (i.e. active/inactive).	1 - NA / Not Supported	

Miami-Dade County Public Schools: Supply Data Management (SDM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
SDM024	Vendor Management	Ability to have a single database for the supplier master and ability for system to assign vendor numbers automatically.	1 - NA / Not Supported	
SDM025	Vendor Management	Ability to change vendor status with explanation and retain historical data.	1 - NA / Not Supported	
SDM026	Vendor Management	Describe your software's capability for linking vendor data with the item/material master file including: 1. Integrating vendor pricing and item information, quantity breaks, payment terms, freight terms, and shipping information for each vendor location specified in the vendor master file.	1 - NA / Not Supported	
SDM027	Vendor Management	Ability to search for vendors easily including while in other purchasing processes such as requisitioning, processing purchase orders, receiving etc. (use of wildcard search capabilities needed throughout system).	1 - NA / Not Supported	
SDM028	Vendor Management	Describe your software's capabilities for exchanging documents (i.e., reports, addendums, notices) electronically with vendors including: 1. Workflow functionality for sending email notifications with document attachments. 2. Functionality for posting notifications and documents to the vendor through a secure vendor portal/self-service application.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Supply Data Management (SDM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
SDM029	Vendor Management	Describe your software's ability to integrate MWBE vendor data (including user-defined MWBE-specific data elements) with Bid/Quote Management functionality in order to drive MWBE reporting and analysis.	1 - NA / Not Supported	
SDM030	Vendor Management	Describe your software's ability to measure supplier performance criteria, to link to Sourcing and Contract performance history.	1 - NA / Not Supported	
SDM031	Vendor Management	Describe your software's ability to define Supplier bank account #, Social Security number, or W-9 Tax ID securely on Supplier setup screen, and to define specific 1099 information (i.e., rent, medical, commission).	1 - NA / Not Supported	
SDM032	Vendor Management	Ability to set up multiple payment term options at vendor level, or at PO level, and assign method of payment, including discounts, check, electronic funds transfer (EFT).	1 - NA / Not Supported	
SDM033	Vendor Management	Ability to place suppliers on hold (not allowing new transactions), to identify inactive suppliers, to inactivate suppliers, to re-activate inactive suppliers, and to maintain this information in the vendor master.		
SDM034	Vendor Management	Describe your software's ability to capture new or modified supplier information on-line, to route additions or modifications electronically for approval.	1 - NA / Not Supported	
SDM035	Vendor Management	Describe your software's ability to maintain future effective date addresses, bid or contract effective dates for vendor, effective dates of licenses, insurance, etc.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Supply Data Management (SDM)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
SDM036	Vendor Management	Describe your software's ability to scan existing supplier master for duplicates, and to periodically review Vendor Master for duplicates and Inactive suppliers, to identify potential void or duplicate suppliers.	1 - NA / Not Supported	
SDM037	Vendor Management	Describe your software's ability to identify suppliers for potential deletion (i.e., last date used, last activity), delete suppliers from the vendor master, and to archive suppliers after a specific period of inactivity.	1 - NA / Not Supported	
SDM038	Vendor Management	Describe your software's ability to track supplier responses to requests for quotes or bids for a category, maintain a record of responses, and delete or inactivate that vendor/category after a period of no response.	1 - NA / Not Supported	
SDM039	Vendor Management	Describe your ability to generate mailing labels and form letters from Supplier file.	1 - NA / Not Supported	
SDM040	Vendor Management	Describe your ability to set time flagged reminders for required documents attached to the vendor file (i.e., occupational licenses, proof of insurance), and tie these to vendor contracts.	1 - NA / Not Supported	
SDM041	Vendor Management	Ability to access IRS, TIN, SSN validation site, Zip Code plus 4 table, through vendor master.	1 - NA / Not Supported	
SDM042	Vendor Management	Ability to reference legacy information to Supplier record, to auto-populate vendor master with existing vendor information, and to prevent use of unique vendor number previously assigned.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Benefits Administration (BA)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
BA001	Benefits	Provision of benefits communication in multiple languages to accommodate the needs of the employee population. The forms associated with benefit activities should be generated in languages which match these specified primary languages.	1 - NA / Not Supported	
BA002	Benefits	Creation and maintenance of a corporate firewall(s) engineered to allow access to designated "approved" vendor sites while preventing access to unapproved sites or unapproved parts of otherwise appropriate sites.	1 - NA / Not Supported	
BA003	Benefits	Creation and maintenance of corporate Intranet or links within system set up to allow employee access to personalized benefits information such as: -confirmation statements -plan descriptions/SPDs -handbook information -required forms and information. NOTE: Instructions/rules regarding access and usage should be clearly defined and easily understood.	1 - NA / Not Supported	
BA004	Benefits	Creation and maintenance of links to external approved vendor sites through hyperlinks. Instructions/rules regarding access and usage should be clearly defined and easily understood.	1 - NA / Not Supported	
BA005	Benefits	Ability to perform online "what if" benefit modeling linked to employee pay data, benefit elections, tax filing status and alternative election costs (including varying contribution amounts for savings and flexible spending account plans). Modeling should clearly indicate the effect on net pay of such changes.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Benefits Administration (BA)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
BA006	Benefits	Creation of random, system-generated and assigned Personal Identification Numbers (PINs) linked to Employee IDs upon hire. Employees must be permitted to change PINs upon request and on demand.	1 - NA / Not Supported	
BA007	Benefits	Administration of non-standard subsidiary bargaining unit plans consolidated to leverage consulting and actuarial costs and utilization. While different plans may be maintained, the ability to consolidate for funding purposes should be retained.	1 - NA / Not Supported	
BA009	Benefits	Ability for the system to separate, based on eligibility rules, particular plans for which employee is eligible from a larger pool of all plans maintained while allowing billing / cost accrual for these plans to be combined on company ledger.	1 - NA / Not Supported	
BA010	Benefits	Implementation and maintenance of Edit / Validation criteria applied to elections to ensure that only eligible elections are permitted.	1 - NA / Not Supported	
BA011	Benefits	Completion of employee benefit plan enrollment at time of hire using employee self-service, including tests for eligibility based on plan rules.	1 - NA / Not Supported	
BA012	Benefits	Ability for employees to enter life event changes and dependent information online via employee self-service, and have the required documentation sent to shared services center.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Benefits Administration (BA)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
BA013	Benefits	Support of a passive enrollment process instituted; reenrollment occurs only when making changes or when legally required, such as for flexible spending accounts.	1 - NA / Not Supported	
BA014	Benefits	Capability for line managers or HR generalists to initiate the return-to-work process.	1 - NA / Not Supported	
BA015	Benefits	Ability for employees to enter valid benefit elections online.	1 - NA / Not Supported	
BA016	Benefits	Utilization of a centralized database with shared information for all HR, Benefits, and Payroll data. All employee information relevant to eligibility must be maintained in this database, and payroll must be able to read the benefit election records in order to properly calculate deductions.	1 - NA / Not Supported	
BA017	Benefits	Ability to accommodate different service dates (i.e., total employment, credited service, original hire and seniority) by bargaining unit and job code.	1 - NA / Not Supported	
BA018	Benefits	Ability to accommodate adjustments (manual or automatic) to service and seniority dates as needed, based on company rules (i.e., union negotiations, rehires within eligibility period, 401(k) break in service requirements, etc.)	1 - NA / Not Supported	
BA019	Benefits	Acceptance of future dated enrollment actions for a hire, acknowledging waiting periods as configured for specific employee groups.	1 - NA / Not Supported	
BA020	Benefits	Introduce a table-driven system capable of storing data and configuration rules used in determining in which benefit plans an employee may enroll.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Benefits Administration (BA)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
BA021	Benefits	Provide full support for arrears processing, arrears balance adjustments, calculation of retroactive benefit deductions for employees on paid or unpaid leave of absence.	1 - NA / Not Supported	
BA022	Benefits	Ability to support a single point-of-contact for all employee questions (i.e., web-based helpdesk)	1 - NA / Not Supported	
BA024	Benefits	Support for Direct Deposit of all payments relating to current and former employees (i.e., disability, workers' compensation, etc.)	1 - NA / Not Supported	
BA025	Benefits	Payment of benefit providers through the client's Accounts Payable group via electronic means. Automatic generation of associated auditing reports is also required.	1 - NA / Not Supported	
BA026	Benefits	Capability to track, identify and analyze employee issues relative to providers and Third Party Administrators (TPAs).	1 - NA / Not Supported	
BA027	Benefits	Ability for employees to make changes to their records via self-service, and have those changes automatically flow to vendor databases. (e.g., life events)	1 - NA / Not Supported	
BA028	Benefits	Design of interfaces to ensure that they meet vendor and client specifications. Verification that vendor specifications account for changes / corrections made within the system in a timely fashion, to ensure that participants are reported with accurate coverage on frequent basis. Evaluate the frequency of the primary vendor 'feed' and formulate/introduce a process for reporting changes to vendors more frequently than primary feed for "emergency enrollments."	1 - NA / Not Supported	

Miami-Dade County Public Schools: Benefits Administration (BA)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
BA029	Benefits	Ability to support a paperless process to meet approval requirements; paperless process equivalent to signature approval.	1 - NA / Not Supported	
BA030	Benefits	Ability to interface with corporate e-mail system and on-line calendars.	1 - NA / Not Supported	
BA031	Benefits	Ability to allow individuals eligible for COBRA benefits to enroll online. Ability to allow benefits staff to make COBRA elections for paper-based enrollments.	1 - NA / Not Supported	
BA032	Benefits	Ability for employees to submit manual payment for benefits while on Leave of Absence	1 - NA / Not Supported	
BA033	Benefits	Ability for the HR Benefits team to enroll employees and correct errors made by employees.	1 - NA / Not Supported	
BA034	Benefits	Allow HR benefits to send COBRA notifications to employees with a qualifying event.	1 - NA / Not Supported	
BA035	Benefits	If employee shifts from a 10 month, 11 month or 12 month payroll schedule to another, benefits premiums would shift as well to meet a 20, 24, or 26 pay period schedule. System must have the capability to annualize and then prorate contributions.	1 - NA / Not Supported	
BA036	Benefits	Capacity to track participation in and remit payment to Union-managed plans through payroll deductions.	1 - NA / Not Supported	
BA037	Benefits	Calculation of unique deductions for participation in plans by half-time employees in accordance to School Board Policy and Bargaining unit.	1 - NA / Not Supported	

Miami-Dade County Public Schools: Benefits Administration (BA)

Ref Num.	Sub Process	Functional Description	ERP Vendor	Comments
BA038	Benefits	Coordination and calculation of sick leave bank participation offered by Unions (Employee opts in, they remit a portion of their sick days to union pool, and that pool is allocated to eligible participants. Each union has their own plan and has to maintain a minimum balance which can be replenished by participants).	1 - NA / Not Supported	
BA039	Benefits	Ability to track contribution thresholds being approached by plan participants (401(k), 403(b), 457(b)).	1 - NA / Not Supported	
BA040	Benefits	Coordination and calculation of deferred leave bank plan and interface with TPA BENCOR	1 - NA / Not Supported	
BA041	Benefits	Ability to prorate premiums across plans based on effective change date	1 - NA / Not Supported	
BA042	Benefits	Ability to allow HR benefits to send enrollment notifications to employees triggered by a qualifying event.	1 - NA / Not Supported
