QUESTIONS AND ANSWERS TO RFP #105-DD10

1. Are you defining low performing schools those that are F, F++, F+++ only or will the training be provided for D rated schools as well?

1. Schools with a grade of "F" are the priority. Currently there are eight schools from last year that are working with the Continuous Improvement Model and will need to continue for next year as required by the Florida Department of Education. In addition, when the school grades are released, any new "F" schools would have to be included. There is possibility that some low D schools could be serviced.
2. Are you able to give an estimate based on preliminary state data as to the number of schools that could be involved in this training?

2. Not until school grades are released.
3. If you are unable to provide that information, is it acceptable to base the price per school which will include consulting fee, materials, and expenses based on the number of selected schools I the proposal?

3. It Would be best to calculate cost based on the cost per school.
