ITB-19-046-EA Electrical Installation for the Learn to Swim Program

1. The Scope of work appears to be 100% electrical, however the ITB on page 18, par 7.2.M.1 calls for a '**GC**' license. We have an '**EC**' license(State Certified Electrical Contractor). Will the EC license suffice for the scope of this work?

EC is ok, but they have to be prequalified by the Board

2. Are the pools connected temporarily? Are these permanent pool installations?

These are temporary installations; the pool equipment usually moves every 9 weeks however all conduit and wire are permanently installed.

3. Has this installation been performed on an existing school property? If so can a site visit be scheduled?

There is no information to determine if current school site visits are allowable. All site visits must be determined M-DCPS District guidelines.

4. How many new pool installations are projected?

Between 4 and 8 per year.

5. How many per year?

We have anywhere between 20 and 28 total school installations per year which between 4 and 8 are new installations.

6. Once installed, do the electrical conduit and wire remain were installed?

Yes, all electrical conduit and wiring are permanent.

7. Will our crew also be responsible to disconnect the electrical components to the pool for removal and restore any de-energized outlets, lighting or components to their original configuration?

Yes, once the swim program has completed all classes all lighting and power must be restored to the room's original working condition which is the responsibility of the electrical contractor.

8. During installations and inspections, if we or the inspectors encounter any unforeseen conditions that require repair, how will that be handled? Will a change order be issued?

ITB-19-046-EA Electrical Installation for the Learn to Swim Program

Yes, if there is a repair necessary, the vendor will document any materials or additional labor and add that to the submitted invoice which will be reviewed and approved by procurement.

9. What size are the pools to be connected?

The pools are 15' diameter by 3' high depth.

10. Will drawings or plans be required for pool installations?

Yes, drawings with plans are required, however engineer created drawings are not required. It is best for the vendor to computer generate their own drawings describing the scope of work each drawing.

11. Will the work be conducted during normal working hours?

In general, all work will be conducted during regular school hours, however due to noise distractions when drilling into a concrete wall it may be necessary for the electricians to schedule with me that part of the installation outside of regular school hours.

12. Will the school board create a schedule for installations?

David Diamond from the Learn to Swim Program which is part of the Division of Life Skills & Physical Education will create all installation and electrical connection schedules with the vendor.

13. How much time will we be given to prepare for an installation?

In general, we usually have 9 weeks of notice before a new installation is required.

14. Are permit fees and/or inspection fees involved? If so who pays for them?

No fees are required by the vendor. All permit and inspections are the responsibility of M-DCPS.

15. What length of time is the duration of this contract? Years?

Please refer to Section 6.1 of the Solicitation Package.
