

Q/A for MDCPS Pre-bid Conference

Pest Problems at any site will be sent out for bid separately, as they occur. The Pest Control Manager will write up the specifications, total feet, ect... and send out a work order for bid to a minimum of 3 vendors for bid. The lowest quote will be accepted on a job by job basis.

- 1) At how many sites throughout the school district will we be expected to provide pigeon trapping?
 - a. There are about 400 sites but last year, we had 2 sites that needed trapping.
Usually, 3x per week for a month
- 2) How many locations throughout the school district have had pigeon trapping done within the last five years? What are they and what has been the duration of these trapping programs in terms of the number of visits provided?
 - a. See answer for question 1
- 3) What time of the day do the trapping sites need to be serviced?
 - a. Whenever best suit the site
- 4) At which locations throughout the school district have spikes been installed during the past five years?
 - a. About 10 or so locations
- 5) What kind of access equipment (if any) was used for these spike installations and is that to be included in the price?
 - a. Your quote will include cost of lifts, supplies and labor
- 6) What was the total lineal footage of spikes installed in each location?
 - a. It varies
- 7) Is two inch net to be used for pigeons or three quarter inch?
 - a. 2 inch
- 8) At how many locations, through the school district, has netting been installed over the past five years?
 - a. Last year, may be 8-10 locations
- 9) What kind of access equipment (if any) was used in these netting installations and is that to be included in the price?
 - a. Equipment varies and yes, that should be included in the price
- 10) What was the square footage of net installed at each of these locations?
 - a. It varies
- 11) Do annual inspections have to include the cost of access equipment necessary to carry out the inspection or is this billed on a separate basis?
 - a. It is included in the bid
- 12) If we are the successful bidder, do we have to assume responsibility for annual inspections on netting installations performed by other vendors in the past and if repairs become necessary, do these have to be included in the present bid or are they to be quoted for as additional work.

a. No and no

13) Can we inspect all net jobs which have been done throughout the school district within the last five years to determine what state of repair the nets are in and how much repair work is needed?

a. No

14) How many bird netting jobs have been done against either starling or house sparrows (as opposed to pigeons) within the past five years and where have these been done?

a. Many be 2-3 last year

15) How many trapping jobs have been done against house sparrows or starlings during the past five years and what are the locations

a. None

16) Can the use of mist nets be submitted for the use of traps in those situations where house sparrows or starlings need to be removed?

a. No
