

BID # 097-NN06, TWO-WAY RADIOS, CATALOG DISCOUNT QUESTIONS AND ANSWERS

QUESTION #1

You are not requesting pricing on radios as of now correct

ANSWER:

No, we are not. Just discounts on approved manufacturers.

QUESTION #2

I looked at the bid documents, but I do not see any products identified or described in the bid. Is there anything that describes what we are bidding on?

ANSWER:

The School Board of Miami-Dade County, Florida shall award this contract to the bidder offering the single highest percent discount off Manufacturer's MSRP.

This applies to all radios and accessories. The approved manufacturers are listed on Format B.

QUESTION #3

In reading through the published bid for Two-Way Radios and Accessories, Catalog Discount, I am failing to find a description of the type of radios needed by the school board or any other specifications for radios at all.

Is there a supplemental document that I might be missing?

In order to quote radios, even for a price register, anyone would need to know what type of system is being used, and therefore what the radio requirements are for the School Board.

ANSWER:

The specifications are not listed, what is listed are the approved manufacturers. As noted above, the bid will be awarded to the vendor who offers us the highest discount off the Manufacturer's MSRP for all radios and accessories we will be purchasing.

The approved Manufacturers are listed on our Format B
