

How many mobile collections will be required on site and at what locations?

This would be on an as needed basis in the event that transportation would need an immediate breath alcohol test taken. There is no set number of units.

Are you saying that these will require a mobile collector? In the event that it is required.

Why is there not a price for mobile collections on the price sheet? We are only requiring a price for on site testing in the event that it is needed for emergency purposes, or in the event there is a suspicion and a test needs to be done immediately. This will not be the standard testing. Standard testing will be done using the same methods previously used

Why are onsite alcohol tests listed as being completed? This is an estimated number, in the event that on site testing is requested and does not indicate completion of actual on site testing since it has never been done before.

Did you mean at a clinic?

In the past we were informed that the School Board did not want anyone coming on their property for mobile collections. Has this changed? This has been added as a new item, in the event that it is requested. No actual quantity is guaranteed as stipulated in the bid documents.
