

1. Insurance. I have understood that Liability Insurance is not required (I have not had to carry it in the last 18 years of service to MDCPS).

Please see the addendum that has been posted regarding the insurance.

2. Occupational License. Again, I understand that this is not required.

Anyone whose business is in Miami-Dade County should have an occupational license, which is also known as a tax certificate. If your business is not located in Miami-Dade County then you must comply submit what ever documentation is used in your county/state as proof of authorization to do business.
